LEGAL STUDIES CAPSTONE: ASSESSING YOUR UNDERGRADUATE EDUCATION

Cengage Learning LEGAL STUDIES CAPSTONE: ASSESSING YOUR UNDERGRADUATE EDUCATION provides an opportunity for students to review, enhance and demonstrate their knowledge and practical application of the law. Achievement of learning objectives is shown through development of a portfolio of student work and a successful score on a comprehensive exam. Measurable learning objectives are detailed for each unit, with discussion questions, portfolio assignments and exam questions designed to measure the attainment of each outcome. Job search, continuing education, ethical obligations and technology skills are addressed, and students organize related documentation to prepare for post-graduation endeavors. These units are followed by summaries of core substantive and procedural areas of law, providing students with a review of prior studies as well as a gap-filler for keys areas essential to success in the workplace, continuing education, or certification and employment exams. Students can evaluate their knowledge of the law through review of questions and answers provided in the comprehensive exam in Appendix A. Portfolio assignments display their ability to draft pleadings, prepare contracts, complete forms and report research results for review by a prospective employer or as reference for future assignments. The Glossary and Other Resources listed in Appendix B assist in fostering successful outcomes in both portfolio development and the assessment exam. In addition to the benefits to students, this text offers guidance to educational

programs undertaking a meaningful assessment of learning outcomes. Review of student portfolios and success rates on the comprehensive substantive assessment present student data to be utilized in continuous curriculum development. The Instructor's Resources include a sample course outline, exit exam and portfolio grading rubric. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

PUB. BY THE PIONEER CITIZENS' SOCIETY OF ATLANTA...

THE LAW TIMES

AMERICAN PSYCHIATRIC ASSOCIATION PRACTICE GUIDELINES

American Psychiatric Publishing The aim of the American Psychiatric Association Practice Guideline series is to improve patient care. Guidelines provide a comprehensive synthesis of all available information relevant to the clinical topic. Practice guidelines can be vehicles for educating psychiatrists, other medical and mental health professionals, and the general public about appropriate and inappropriate treatments. The series also will identify those areas in which critical information is lacking and in which research could be expected to improve clinical decisions. The Practice Guidelines are also designed to help those charged with overseeing the utilization and reimbursement of psychiatric services to develop more scientifically based and clinically sensitive criteria.

VALUING INTELLECTUAL CAPITAL

MULTINATIONALS AND TAXHAVENS

Springer Science & Business Media Valuing Intellectual Capital provides readers with prescriptive strategies and practical insights for estimating the value of intellectual property (IP) and the people who create that IP within multinational companies. This book addresses the crucial topic of taxation from a rigorous and quantitative perspective, backed by experience and original research that illustrates how large corporations need to measure the worth of their intangible assets. Each method in the text is applied through the lens of a model corporation, in order for readers to understand and quantify the operation of a real-world multinational enterprise and pinpoint how companies easily misvalue their intellectual capital when transferring IP rights to offshore tax havens. The effect contributes to the issues that can lead to budgetary crises, such as the so-called "fiscal cliff" that was partially averted by passage of the American Taxpayer Relief Act on New Year's day 2013. This book also features a chapter containing recommendations for a fair and balanced corporate tax structure free of misvaluation and questionable mechanisms. CFOs, corporate auditors, corporate financial analysts, corporate financial planners, economists, and journalists working with issues of taxation will benefit from the concepts and background presented in the book. The material clearly indicates how a trustworthy valuation of intellectual capital allows a realistic assessment of a company's income, earnings, and obligations. Because of the intense interest in the topic of corporate tax avoidance the material is organized to be accessible to a broad audience.

EUROPEAN INVESTMENT IN GREECE IN THE NINETEENTH CENTURY

A BEHAVIOURAL APPROACH TO FINANCIAL HISTORY

Routledge Banking historiography often does not sufficiently take into account bankers' deliberations of their decision making, but rather limits investigation to considerations of profit maximisation. This book shows that the decision-making processes of nineteenth-century bankers contemplating high-risk financial markets like Greece are just as complex as present-day investment decisions. The book, now published in English after a first German edition, offers in-depth studies of decision making in concrete historical situations, considering political and economic circumstances and also the individual background of the actors concerned, including a reflection on the influence of cultural movements such as Philhellenism. Employing methodological inspirations from the field of behavioural finance, the book analyses a broad range of published and unpublished English, French, Greek, German and Swiss sources on European investment in Greece between 1821 and the Balkan wars. Additionally, rich insights into Greek economic history, the economic integration of the country into Europe and long-lasting European stereotypes of Southern Europe and Greece are provided; this furthers understanding of the historical background of the Greek financial crisis after 2009. In combining the perspectives of financial, economic, political and cultural history, this book is primarily significant for students of various fields of historiography. Due to its strong awareness of methodological questions, it is also of great interest to academic historians. In addition, the strong public interest in the Greek financial crisis after 2009 and its consequences for Europe will, thirdly, attract the interest of a broader public.

Oxford University Press, USA A collection of 150 unpublished letters

PERSONALITY IN INTIMATE RELATIONSHIPS

SOCIALIZATION AND PSYCHOPATHOLOGY

Springer Science & Business Media Four decades of contributions to personality theory and family practice have earned Luciano L'Abate a worldwide reputation for therapeutic insights. Now he expands on his pathbreaking relational theory of personality to apply it to the twenty-first-century family in all its configurations. *Personality in Intimate Relationships* showcases L'Abate's trademark elegant style and provocative ideas in his most accessible work to date. Based on Axes I and II of the DSM-IV, the book describes relationships along a readily identifiable continuum ranging from optimal functionality to severe pathology, linking the author's conceptual framework to specific diagnostic strategies, therapeutic interventions, and prevention programs. L'Abate's theory not only integrates individual and family theories and seemingly disparate schools of thought, but is also inclusive of nontraditional relationships—grandparent/grandchild dyads, adoptive families, same-sex couples, and others—that are often left out of the family literature. Among the key areas explored in the book: • Selfhood and self-differentiation • Confrontation and sharing of hurt feelings • Negotiating, bargaining, and problem-solving • Dealing with distance and closeness • Intimacy and the ability to love In addition, the reader is referred to complementary online appendices that supply helpful questionnaires, workbooks, and ideas for further applications. *Personality in Intimate Relationships* offers fresh perspective to all frontline practitioners as well as investigators in this area. It is also ideal for graduate courses in abnormal psychology and personal development.

THE LIAR IN YOUR LIFE

THE WAY TO TRUTHFUL RELATIONSHIPS

Twelve In *The Liar in Your Life*, psychology professor Robert Feldman, one of the world's leading authorities on deception, draws on his immense body of knowledge to give fresh insights into how and why we lie, how our culture has become increasingly tolerant of deception, the cost it exacts on us, and what to do about it. His work is at once surprising and sobering, full of corrections for common myths and explanations of pervasive oversimplifications. Feldman examines marital infidelity, little white lies, career-driven resumé lies, and how we teach children to lie. Along the way, he reveals—despite our beliefs to the contrary—how it is nearly impossible to spot a liar (studies have shown no relationship between nervousness, lack of eye contact, or a trembling voice, and acts of deception). He also provides startling evidence of just how integral lying is to our culture; indeed, his research shows that two people, meeting for the first time, will lie to each other an average of three times in the first ten minutes of a conversation. Feldman uses this discussion of deception to explore ways we can cope with infidelity, betrayal, and mistrust, in our friends and family. He also describes the lies we tell ourselves: Sometimes, the liar in your life is the person you see in the mirror. With incisive clarity and wry wit, Feldman has written a truthful book for anyone whose life has been touched by deception.

MULTIPLE CHEMICAL SENSITIVITY

A SURVIVAL GUIDE

New Harbinger Publications Incorporated Through research and conversations with MCS sufferers, discusses the causes, symptoms, treatment options, and methods of coping physically and emotionally with the disease.

BOWKER'S LAW BOOKS AND SERIALS IN PRINT

VICTORIA COUNTY CENTENNIAL HISTORY

Lindsay [Ont.] : Watchman-Warder Press

REPORT OF THE LIBRARIAN OF CONGRESS

FINANCIAL STATEMENT ANALYSIS AND THE PREDICTION OF FINANCIAL DISTRESS

Now Publishers Inc *Financial Statement Analysis and the Prediction of Financial Distress* discusses the evolution of three main streams within the financial distress prediction literature: the set of dependent and explanatory variables used, the statistical methods of estimation, and the modeling of financial distress. Section 1 discusses concepts of financial distress. Section 2 discusses theories regarding the use of financial ratios as predictors of financial distress. Section 3 contains a brief review of the literature. Section 4 discusses the use of market price-based models of financial distress. Section 5 develops the statistical methods for empirical estimation of the probability of financial distress. Section 6 discusses the major empirical findings with respect to prediction of financial distress. Section 7 briefly summarizes some of the more relevant literature with respect to bond ratings. Section 8 presents some suggestions for future research and Section 9 presents concluding remarks.

THE GASPARILLA COOKBOOK

Ravenio Books Where the spine of Florida, the Ridge District, begins its gentle slope westward to the Gulf of Mexico there lies a town at the head of a beautiful bay, unlike any other town in Florida. This is Tampa, named by the Caloosa Indians long before the advent of the Spanish Conquistadors. This is Tampa which has been occupied in turn by Spanish treasure seekers, missionaries, pirates, U. S. troops garrisoned here during the Seminole Indian Wars, a French Count who was the head surgeon of Napoleon's Navy, pioneers from southern states, pioneers from northern states, Union troops, Confederate troops, Cuban cigar makers from Key West, troops in the Spanish-American War, Tin Can tourists, wealthy tourists, real estate speculators, Air Corps personnel in World War II, and last of all an influx of permanent residents who have made this the fastest growing area in Florida. Tampa is the hub of the region industrially, but more important for our purposes it's the hub of good food. Great cattle enterprises lie to the south and east, 22 miles down the coast of Tampa Bay is the farming community of Ruskin known as the salad bowl of the nation, across the bay to the west

are the Gulf Beaches where seafood is king, all the area is citrus country at any point of the compass, and 28 miles northwest there is a Greek community called Tarpon Springs where the customs, the language, and the recipes are straight from the isles of the Aegean. The natives of this little town came to Tarpon Springs many years ago from Greece to harvest the sponges which are found in the Gulf of Mexico. Curio shops line the docks on the Anclote River where the sponge fleet ties up, but the Greek food affords the visitor's greatest enjoyment. In a dining room and lounge decorated with Grecian war masks, maps of the world as Homer knew it, models of ancient Greek warships, and the hull of a primitive sponge boat, one may feast on Greek salad which is fashioned as carefully as a mosaic and just as beautiful to behold. This alone would be worth the trip, but you may also have lamb prepared in strange and delicious ways, scarlet stone crab claws, the meat of which is too delicate to describe, or your choice of seafood, followed by honey-and-almond confections. Tampans can and do find a wonderful meal in any direction. All the good restaurants serve succulent steaks, there are several fine Chinese restaurants, there is even a good French restaurant west across Tampa Bay. The notion that all Florida is palm trees, sand, and bathing beauties is false. So is the idea of Florida as a vast interior of sleepy cracker towns with pigs and chickens running the roads, or a steady diet of greasy fried chicken with blackened string beans. Florida is sun and sand, yes, but it is also cool lakes, ancient oaks, and lacy cypress trees, big cities, beautiful farms, and citrus groves covering rolling hills like tufted bedspreads. Florida is lush ranchland, crystal springs, dogwood and maple trees, people from everywhere and all walks of life who came to see, got sand in their shoes, and had to return. Tampa is a composite of all of it. It's a bountiful land. We wish all could see for themselves. But if that is impossible, then we in our small way, will try to bring it to you. The food of a land tells the life of its people, and we would like to share our good life with everyone. Here is our offering. May it bring you pleasure as we have known it.

POPULAR CONTROVERSIES IN WORLD HISTORY: INVESTIGATING HISTORY'S INTRIGUING QUESTIONS [4 VOLUMES]

INVESTIGATING HISTORY'S INTRIGUING QUESTIONS

ABC-CLIO Covering prehistoric times to the modern era, this fascinating resource presents pro-and-con arguments regarding unresolved, historic controversies throughout the development of the world. • Includes 58 chapters in four volumes that address significant historical questions focused upon topics such as the Old Testament, the Roman Empire, the historic Buddha, William Shakespeare, the assassination of John F. Kennedy, and weapons of mass destruction • Provides a pro-and-con debate format that encourages readers to evaluate the validity of arguments and evidence

PROCEEDINGS OF THE BOARD OF REGENTS

ADVANCES IN ENTREPRENEURIAL FINANCE

WITH APPLICATIONS FROM BEHAVIORAL FINANCE AND ECONOMICS

Springer Science & Business Media Advances in Entrepreneurial Finance brings together contributions from researchers from the fields of entrepreneurship, behavioral finance, psychology, and neuroscience to shed new light on the dynamics of decision making and risk taking by entrepreneurs and venture capitalists (VCs). Every new venture requires access to capital at competitive interest rates, and much has been written on general entrepreneurship by management scholars and financial contracting by financial economists using traditional finance theory with all its highly restrictive assumptions regarding decision makers' cognitive capabilities and behavior. But recent developments in behavioral finance can now be applied to understand how entrepreneurs and VCs perceive risk and uncertainty and how they decide and act accordingly. Showcasing the latest research, this volume demonstrates that findings from the behavioral and neuroscience arenas can and do explain decision making by entrepreneurs and venture investors in the real world. Consequently, such findings have practical implications not only for entrepreneurs, venture capitalists, and their advisors, but also all government agencies and NGOs that want to support product and technological innovation, capital formation, job creation, and economic development.

PROFESSIONAL FEES IN CORPORATE BANKRUPTCIES

DATA, ANALYSIS, AND EVALUATION

Oxford University Press This title is based on a study of thousands of documents from the court files in over a hundred of the

largest bankruptcy cases. It employs statistical analysis and documents its findings, and provides an unprecedented window on the worlds of bankruptcy professionals, professional fees, and their scientific study.

THE HISTORICAL RECORDS OF NORTH CAROLINA ...

FINANCE - FUNDAMENTAL PROBLEMS AND SOLUTIONS

Springer Science & Business Media As indicated by the title, this book focuses on fundamental problems in finance: a logical dilemma in valuation, stock valuation methods/models, risk valuation, and optimal capital structure. It presents an innovative approach to logic and quantitative reasoning (without advanced mathematics) that delivers valuable results --- convincing solutions to these problems. Readers in finance will definitely be interested in these solutions as well as the methods. In fact, these fundamental problems are essential in the field of finance, and they have remained unsolved (or partly unsolved) for decades. The solutions offered in this book are all sound in theory and feasible in practice, and will hopefully benefit both theoretic al research and practical decision-making.

FINAL REPORTS

REDUCING SUICIDE

A NATIONAL IMPERATIVE

National Academies Press Every year, about 30,000 people die by suicide in the U.S., and some 650,000 receive emergency treatment after a suicide attempt. Often, those most at risk are the least able to access professional help. Reducing Suicide provides a blueprint for addressing this tragic and costly problem: how we can build an appropriate infrastructure, conduct needed research, and improve our ability to recognize suicide risk and effectively intervene. Rich in data, the book also strikes an intensely personal chord, featuring compelling quotes about peopleâ€™s experience with suicide. The book explores the factors that raise a personâ€™s risk of suicide: psychological and biological factors including substance abuse, the link between childhood trauma and later suicide, and the impact of family life, economic status, religion, and other social and cultural conditions. The authors review the effectiveness of existing interventions, including mental health practitionersâ€™ ability to assess suicide risk among patients. They present lessons learned from the Air Force suicide prevention program and other prevention initiatives. And they identify barriers to effective research and treatment. This new volume will be of special interest to policy makers, administrators, researchers, practitioners, and journalists working in the field of mental health.

INDUSTRY GENIUS

INVENTIONS AND PEOPLE PROTECTING THE CLIMATE AND FRAGILE OZONE LAYER

Routledge This book presents the inventive genius behind technological breakthroughs by ten global companies including Alcoa, DaimlerChrysler, Honda, ST Micro and Visteon. Readers will gain understanding and insight into how cutting-edge technology is helping protect the climate and/or the ozone layer, while contributing to the company's bottom line. Each chapter chronicles the challenge and triumph of invention, introduces the engineers and executives who overcome conventional wisdom, and demonstrates the contribution these companies are making to environmental protection. In full colour and crammed with graphics to illustrate the creative process of technological breakthroughs, the book is accessible and informative. The genius of these ten companies will inspire the engineer, the policy-maker, the student, the environmentalist, the CEO and the investor alike.

DESERTS

THE LIVING LANDSCAPE

The Rosen Publishing Group, Inc Describes the desert biome and its diversity.

SCREENING AND ASSESSMENT OF CO-OCCURRING DISORDERS IN THE JUSTICE SYSTEM

Lulu.com This monograph examines a wide range of evidence-based practices for screening and assessment of people in the justice system who have co-occurring mental and substance use disorders (CODs). Use of evidence-based approaches for screening and assessment is likely to result in more accurate matching of offenders to treatment services and more effective treatment and supervision outcomes (Shaffer, 2011). This monograph is intended as a guide for clinicians, case managers, program and systems administrators, community supervision staff, jail and prison booking and healthcare staff, law enforcement, court personnel, researchers, and others who are interested in developing and operating effective programs for justice-involved individuals who have CODs. Key systemic and clinical challenges are discussed, as well as state-of-the art approaches for conducting screening and assessment.

WOMEN COAUTHORS

University of Illinois Press This is the first examination of women in writing collaborations, which throws new light on partnered creativity, disturbing traditional views of the "author."

THEFT, LAW, AND SOCIETY

MICHIE

THE SCIENTIFIC AND CONCEPTUAL BASIS OF INCAPACITY BENEFITS

Stationery Office Books (TSO) The number of people on long-term incapacity benefits has more than trebled since 1979 despite gradual improvements in objective measures of health. Many IB recipients are not completely incapable of work and many want to work, so reform of the system is a matter of social justice as well as expenditure. The aims of this report are to: develop a theoretical framework for incapacity benefits; analyse the developments and trends since 1948; provide a scientific evidence base for reform.
