RIDING THE ROLLER COASTER

A HISTORY OF THE CHRYSLER CORPORATION

Wayne State University Press From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in Riding the Roller Coaster, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders-including Chrysler

himself and Lee Iacocca-emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

THE ART OF MOPAR

CHRYSLER, DODGE, AND PLYMOUTH MUSCLE CARS

Motorbooks The Art of Mopar: Chrysler, Dodge, and Plymouth Muscle Cars is the ultimate portrayal of history's ultimate muscle cars. This is the ultimate visual history of greatest muscle cars. The history of Chrysler Corporation is, in many ways, a history of a company floundering from one financial crisis to the next. While that has given shareholders fits for nearly a century, it has also motivated the Pentastar company to create some of the most outrageous, and collectible, cars ever built in the United States. From the moment Chrysler unleashed the Firepower hemi V-8 engine on the world for the 1951 model year, they had been cranking out the most powerful engines on the market. Because the company pioneered the use of lightweight unibody technology, it had the stiffest, lightest bodies in which to put those most powerful engines, and that is the basic muscle-car formula: add one powerful engine to one light car. When the muscle car era exploded onto the scene, Chrysler unleashed the mighty Mopar muscle cars, the Dodges and Plymouths that defined the era. Fabled nameplates like Charger, Road Runner, Super Bee, 'Cuda, and Challenger defined the era and rank among the most valuable collector cars ever produced by an American automaker.

MOPAR MINIVANS

CREATING THE FIRST 20 YEARS OF DODGE, CHRYSLER, AND PLYMOUTH MAGIC WAGONS

In the early 1970s, Chrysler started working on a "magic wagon" -- a completely new passenger van that would fit into a normal garage. It was a daring project for a company that was strapped for cash. This book taps the people who created the minivans, with previously unpublished photos of the original clay models. It is not just a story of a vehicle, but of the people who pushed it through the development process, brought it to life, and refreshed it in the face of intense competition. Engineers, planners, and designers started arguing over alternatives ten years before the first van left the factory. This book dives into the reasons behind their decisions, and some of the ways minivans could have been very different; it also covers electric and CNG minivans, engines and transmissions, concept cars, and the assembly plants. The paperback is generously illustrated with full-color design studies and photos of the final product; the Kindle version has fewer photos, but still covers the original clay models and the concepts. "It's incredibly rare when the auto industry creates an entirely new class of vehicle, and rarer still when that innovation is an unqualified success story, but such was the case with Chrysler and the development of the minivan. "In Mopar Minivans, Zatz uses the people who were there to retell in vivid detail the largely forgotten story of how this innovative people mover evolved into a quintessential piece of American family life for two generations. It's a story that showcases not only how the automotive industry can work at its best, but also the ways that the industry's prevalent groupthink mentality can stifle innovation." -- Larry Vellequette, Automotive News "I am amazed how complete you are, having not been on-site in the front trenches during agreements, disagreements, and, yes, even skirmishes, at times." -- Chrysler employee David Zatz founded Chrysler-focused web site allpar.com; he also holds a Ph.D. in social and organizational psychology from Columbia University, and has been a business consultant for 20 years.

CHILTON'S CHRYSLER CARAVAN/VOYAGER/TOWN & COUNTRY 1996-2002 REPAIR MANUAL

FIELD GUIDE TO AFTERMARKET PARTS, 1946-1948 DODGE

McFarland This field guide gives the reader access to the largest parts store in the world for 1946-1948 Dodge Deluxe and Custom D24 models, with information from more than 200 aftermarket catalogs for Dodge parts made in the U.S.A. On-the-spot identification is made possible by part number listings, separating D24 parts from thousands of similar ones. Line drawings adapted from factory literature, brochures and advertisements illustrate the key features and details of parts as they would be found at swap meets or flea markets. Using this book in combination with the Internet, parts-hunters can quickly identify and acquire what they need online.

CHILTON CHRYSLER SERVICE MANUAL, 2010 EDITION (2 VOLUME SET)

Trust the step-by-step procedures and helpful illustrations that only Chilton can provide. These manuals cover 2008 and 2009 models plus available 2010 models.

CHRYSLER'S TURBINE CAR

THE RISE AND FALL OF DETROIT'S COOLEST CREATION

Chicago Review Press Offering a behind-the-scenes look into the world of automotive research and development in the 1960s, this engaging narrative traces the birth of Chrysler's alternative "jet" car and reveals the story behind its sudden and mysterious demise. Relying on extensive research and firsthand accounts from surviving members of the turbine car program—including the metallurgist who created the exotic metals for the engine and the test driver who drove it at Chrysler's proving grounds—this chronicle documents the bold development of an automobile with a jet turbine engine. In addition to running well on virtually any flammable liquid—including kerosene, vodka, heating oil, and Chanel N°5 perfume—the pioneering engines had one fifth the number of moving parts and required less maintenance than conventional engines. Despite the fleet's amazing performance over millions of miles by test drivers, Chrysler pulled the plug on the project and crushed almost all of the cars. The reasons behind the surprising end to the jet car fleet are finally explained here.

THE CRITICAL PATH

INVENTING AN AUTOMOBILE AND REINVENTING A CORPORATION

Little, Brown The story of how Chrysler's minivan team created an automobile that captured the 1995 Motor Trend Car of the Year and other major awards - and reinvented a perilously entrenched corporation in the process - is as dramatic and inspiring a story as any in business today. Brock Yates, one of the most respected writers in the auto world, was given unprecedented access to Chrysler - every planning session, presentation, budget review, test drive, assembly line start-up, and marketing launch. The result is a book that unveils the mysteries of modern car-making, revealing how cars are shaped through countless interlinked decisions ranging from size and power to door configurations, color selections, and innumerable other interconnected details. It also captures the complex

process by which the thousands of separate pieces that make up a car are designed, tested, manufactured, and marshaled into place at the exact moment they are needed. For any reader who cares about cars, this is the most intriguing look inside the mysteries of their creation ever written. At the same time, *The Critical Path* recounts an extraordinary drama of all-too-human managers attempting to make something new, in a new way, inside a corporate culture that resists them at every turn. The story of how Chrysler's minivan platform team kept their commitment to quality, schedule, and budget - with a \$3 billion investment and the company's fate palpably in the balance - is as encouraging a tale as has emerged from American business in years. The unprecedented triumph and Chrysler's resultant comeback is a lesson in successful management that will be savored by any reader interested in how great companies make breakthrough products.

Although built in relatively small numbers, there are many individual model differences that can make their authentic restoration difficult. This book serves as a definitive guide to authenticity and gives hands-on restoration tips and guidance. -Detailed description of individual model differences -Restoration tips and guidance based on years of practical experience -Correct information for decal place-Guide to colours and paint codes -Advice on how to find the right motorcycle -Companion to the Bevel Twin books in the Bible series

LIGHT LIFTING

Biblioasis AMERICAN LIBRARY ASSOCIATION NOTABLE BOOK OF 2012 IRISH TIMES BOOK-TO-READ FOR 2012 ATLANTIC BOOK AWARD WINNER FINALIST FOR THE GILLER PRIZE AND THE FRANK O'CONNOR AWARD A GLOBE & MAIL, QUILL & QUIRE, AND AMAZON.CA BEST BOOK OF THE YEAR "Engrossing, thrilling and ultimately satisfying: each story has the weight of a novel." —The Economist This was the day after Mike Tyson bit off Evander Holyfield's ear. You remember that. It was a moment in history - not like Kennedy or the planes flying into the World Trade Center - not up at that level. This was something much lower, more like Ben Johnson, back when his eyes were that thick, yellow color and he tested positive in Seoul after breaking the world-record in the hundred. You might not know exactly where you were standing or exactly what you were doing when you first heard about Tyson or about Ben, but when the news came down, I bet it stuck with you. When Tyson bit off Holyfield's ear, that cut right through the everyday clutter. —from "Miracle Mile" Two runners race a cargo train through the darkness of a rat-infested tunnel beneath the Detroit River. A drugstore bicycle courier crosses a forbidden threshold in an attempt to save a life and a young swimmer conquers her fear of water only to discover she's caught in far more dangerous currents. An auto-worker who loses his family in a car accident is forced to reconsider his relationship with the internal combustion engine. Alexander MacLeod is a writer of "ferocious intelligence" and "ferocious physicality" (CTV). *Light Lifting*, his celebrated first collection, offers us a suite of darkly urban and unflinching elegies that explore the depths of the psyche and channel the subconscious hopes and terrors that motivate us all. These are elemental stories of work and its bonds, of tragedy and tragedy barely averted, but also of beauty, love and fragile understanding.

CORVETTE 1968-1982 RESTORATION GUIDE, 2ND EDITION

A guide to restoring and maintaining third-generation Corvettes offers comprehensive and photography-enhanced coverage of the full range of the C3's unique components, from engines and drivetrains to chassis and interiors. Original.

RAGE AGAINST THE MINIVAN

LEARNING TO PARENT WITHOUT PERFECTION

Convergent Books A smart, irreverent personal manifesto challenging the idea that there's a "right" way to raise kids, for anyone who has grown weary of the onslaught of expert advice and perfect Instagrams curated by influencer moms. Filled with her signature blend

of humor, vulnerability, and insight, *Rage Against the Minivan* is the handbook Kristen Howerton wishes she'd had when she was a new mom. At its heart, it is about parents learning how to love better by letting themselves off the hook. With her hard-earned knowledge gained from having four kids in four years, she navigates the emotional and sometimes messy waters of motherhood: the expectations, the anxiety, the total lack of control, and yes, the indignities of driving a minivan (which now sits in her driveway covered in crushed Cheerios and the remnants of her self-esteem). Howerton shares her unexpected journey through motherhood, from infertility to adoption to divorce, and how she learned to quell her inner anxiety to do it all perfectly. As a mom of both white and black children, Howerton is an advocate for social justice, foster care reform, and helping fellow parents to step up to hard conversations about race with their kids. Her writing speaks to the thorny issues parents deal with every day while reminding them they are not alone on this unpredictable ride. *Rage Against the Minivan* serves as a quiet resistance against the superficial obsessions of motherhood, from the kind of car we drive to looking like we've got it all together. Infused with heart and humor, it's a permission slip to allow yourself to be a "good-enough" parent.

HOW TO DESIGN CARS LIKE A PRO

Motorbooks This comprehensive new edition of *How to Design Cars Like a Pro* provides an in-depth look at modern automotive design. Interviews with leading automobile designers from Ford, BMW, GM Jaguar, Nissan and others, analyses of past and present trends, studies of individual models and concepts, and much more combine to reveal the fascinating mix of art and science that goes into creating automobiles. This book is a must-have for professional designers, as well as for automotive enthusiasts.

FUEL ECONOMY GUIDE

CHEVROLET & GMC FULL-SIZE VANS

1996 THRU 2010

Haynes Manuals N. America, Incorporated Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.

HOW TO RESTORE VOLKSWAGEN BUS

ENTHUSIAST'S RESTORATION MANUAL

Veloce Publishing Ltd Demand for Bay window buses is booming with rocketing prices to match. This is the first and only book to address the needs of owners looking to save a Bay bus. The book is packed with clear color photographs showing step by step real life restoration.

FROM UNDER THE WHEEL

Hillcrest Publishing Group *From Under the Wheel* is an introspective look at loss and devastation and helps find a way to reach far beyond the events in our lives that leave scars. It challenges the Why Me? in all of us and exposes the path our choices ultimately create. It encourages a way to move past losses and difficulties by assigning a meaning to individual experiences. And finally, it helps excavate the true intent of your inner self to give purpose to living every day. Lynn Gawronski's view *From Under the Wheel* is both reality and metaphorical. The picture of the wheel of the single axel flat bed trailer sitting on her chest as it ran her over is forever imprinted in her memory. But even a miraculous recovery wouldn't stop trauma from happening again. Two years later, she was a passenger in a car hit broadside by another and was left partially paralyzed with facial injuries and emotional scars. The next twenty years would prove to challenge every bit of her faith with more tragedy and loss and at times, just life; each time stimulating another wheel and presenting another effort for recovery and healing whether physical or emotional. The end result is the emergence of a life with purpose and renewed spirit, but the book doesn't stop there. She also provides a planning tool and the steps that she is using to help her carry out her purpose in life so that the reader may do the same. With each new challenge and successful outcome, Lynn Gawronski considers herself out *From Under the Wheel*.

MY COOL CARAVAN

AN INSPIRATIONAL GUIDE TO RETRO-STYLE CARAVANS

Rizzoli Publications A weekend away in a stylish caravan provides the perfect antidote to 21st-century living and more and more people are now taking a look at caravans, breathing fresh 'retro' vibes into the humble caravan and campervan. Old style caravans and campervans also tap into the nostalgia/retro market and the desire for a simpler lifestyle. *my cool caravan* aims to inspire with both text and well-styled photography a new generation of caravan and campervan owners and provide an idiosyncratic sourcebook for the design conscious. The inspiration for the styling can come from many different sources - this book looks at 40 styled caravans of all vintages, from across the world, covering themes such as Country Cottage, Old Retro, Trailer Park Treasures, Silver Bullets and Recycled.
