Merely said, the Federalism 1 Section To Key Answer is universally compatible gone any devices to read.

KEY=FEDERALISM - HODGES DEMARION

THE FEDERALIST PAPERS

Read Books Ltd Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

AMERICAN GOVERNMENT

"Published by OpenStax College, American Government is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project."--BC Campus website.

THE PRICE OF FEDERALISM

Brookings Institution Press What is the price of federalism? Does it result in governmental interconnections that are too complex? Does it create overlapping responsibilities? Does it perpetuate social inequalities? Does it stifle economic growth? To answer these questions, Paul Peterson sets forth two theories of federalism: functional and legislative. Functional theory is optimistic. It says that each level of the federal system is well designed to carry out the tasks for which it is mainly responsible. State and local governments assume responsibility for their area's physical and social development; the national government cares for the needy and reduces economic inequities. Legislative theory, in contrast, is pessimistic: it says that national political leaders, responding to electoral pressures, misuse their power. They shift unpopular burdens to lower levels of government while spending national dollars on popular government programs for which they can claim credit. Both theories are used to explain different aspects of American federalism. Legislative theory explains why federal grants have never been used to equalize public services. Elected officials cannot easily justify to their constituents a vote to shift funds away from the geographic area they represent. The overall direction that American federalism has taken in recent years is better explained by functional theory. As the costs of transportation and communication have declined, labor and capital have become increasingly mobile, placing states and localities in greater competition with one another. State and local governments are responding to these changes by overlooking the needs of the poor, focusing instead on economic development. As a further consequence, older, big cities of the Rust Belt, inefficient in their operations and burdened by social responsibilities, are losing jobs and population to the suburban communities that surround them. Peterson recommends that the national government adopt policies that take into account the economic realities identified by functional theory. The national government should give states and localities responsibility for most transportation, education, crime control, and other basic governmental programs. Welfare, food stamps, the delivery of medical services, and other social policies should become the primary responsibility of the national government.

FEDERAL DYNAMICS

CONTINUITY, CHANGE, AND THE VARIETIES OF FEDERALISM

Oxford University Press Federal Dynamics aids understanding of how federal systems change over time. It assembles contributions from leading scholars in the field of comparative federalism to discuss the value of different analytical tools and theoretical approaches for exploring the dynamics of federal systems.

IRAQI FEDERALISM AND THE KURDS

LEARNING TO LIVE TOGETHER

Routledge Iraq today faces a whole gamut of problems associated with post-war recovery and state-rebuilding compounded by age old mistrust and suspicion. The situation in Iraq resembles a huge experiment in which social scientists can observe the consequences of actions taken across an entire country. Can Western ideas take route and flourish in non-western societies? Can constitutionalism take hold and work in a traditional religious and deeply divided society? Is Iraqi federalism a solution to the country's severe disunity or a temporary fix? Iraqi Federalism and the Kurds: Learning to Live Together addresses these important questions and focuses on the role of federalism as a viable solution to Iraq's many problems and the efforts the Kurdish government has deployed to adjust to new federal relations that entail not only gains, but also concessions and compromises. The author's direct experience of living and working within this embattled country allows a unique reflection on the successes and failures of federalism and the positive developments the introduction of federal relationships have brought.

AMERICAN GOVERNMENT

STORIES OF A NATION

CQ Press "The main strength of this book is that it presents a 'human' side to American Government that challenges students to think critically while still presenting the 'teaching' side with objectives, self-tests, and chapter reviews." —Kathleen Barrett, University of West Georgia In the Second Edition of American Government, author Scott F. Abernathy tunes in to the voices of all Americans, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. From the Constitutional Convention to Ferguson, Missouri, each chapter features rich, personal narratives that illustrate how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. It focuses on real people, the actions they take, the struggles they face, and how their choices influence outcomes. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Participation is at the heart of this groundbreaking new text, with ample background on how and why to participate. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. A Complete Teaching and Learning Package SAGE Vantage Digital Option Engage, Learn, Soar with SAGE Vantage, an intuitive digital platform that delivers American Government, Second Edition textbook content in a learning experience carefully designed to ignite student engagement and drive critical thinking. DEFENSIVE FEDERALISM

PROTECTING TERRITORIAL MINORITIES FROM THE "TYRANNY OF THE MAJORITY"

Taylor & Francis *Defensive Federalism* presents an original contribution to the field of federalism and multinational democracies, exploring the concept of defensive federalism as a protection of self- government against the "tyranny of the majority". The empirical evidence on federal and regional polities often shows critical imbalances in the territorial division of powers beyond what has been formally established in the constitutional rules. This volume highlights the rights, institutions, decision- making processes and procedural rules that can protect and develop the practical political, economic and cultural powers of federated and regional entities, especially those linked to territorial national minorities. The authors focus on federalism as a safeguard of self- rule, as well as a set of institutional and procedural rules to avoid the territorial dimension of the "tyranny of the majority". They answer two fundamental questions: how is it possible to design new stable and fairer federal agreements between national minorities and majorities where there is no single ideal solution? Is there a need for a new kind of "defensive federal model" for approaching national pluralism in liberal democracies? This book will be of great interest to students and scholars of federalism, national diversity and democracy, as well as policymakers and practitioners in both public and private institutions.

AMERICAN FEDERALISM AND PUBLIC POLICY

HOW THE SYSTEM WORKS

Philadelphia : Temple University Press This is a study of the ways in which the federal, state, and local governments share responsibility for policies, producing a system that combines uniformity and diversity. While numerous empirical studies in recent years have detailed particular examples of reforms in federalism, there has been no widely accepted theory by which to evaluate the significance of those details. Thomas Anton synthesizes the particulars to discover what is true in general about the state of American Federalism. He uses a "benefits coalition" conceptual framework on which to organize his discussion. The author sees the purpose of American government as the creation and distribution of benefits to designated populations. He identifies three main types of benefits, which are directed toward individuals both outside and within government: (1) economic-the improvement of economic well-being; (2) juridical-assigning rights and obligations, as in determining eligibility to vote; and (3) symbolic-for example, in designating holidays and in fostering public activities that promote pride in and support for the system. Because of their profound affect on the quality of our lives as well as their increasing cost, the policies and programs jointly pursued by American governments are the focus of reform proposals that now occupy a prominent position on the national agenda. For these and other reasons, Anton's analytical and broadly defined discussion of American Federalism is especially timely. Author note: Thomas Anton is Professor of Political Science and Director of the A. Alfred Taubman Center for Public Policy and American Institutions at Brown University.

MARIJUANA FEDERALISM

UNCLE SAM AND MARY JANE

Brookings Institution Press On marijuana, there is no mutual federal-state policy; will this cause federalism to go up in smoke? More than one-half the 50 states have legalized the use of marijuana at least for medical purposes, and about a dozen of those states have gone further, legalizing it for recreational use. Either step would have been almost inconceivable just a couple decades ago. But marijuana remains an illegal "controlled substance" under a 1970 federal law, so those who sell or grow it could still face federal prosecution. How can state and federal laws be in such conflict? And could federal law put the new state laws in jeopardy at some point? This book, an edited volume with contributions by highly regarded legal scholars and policy analysts, is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws. Marijuana Federalism surveys the constitutional issues that come into play with this conflict, as well as the policy questions related to law enforcement at the federal versus state levels. It also describes specific areas—such as banking regulations—in which federal law has particularly far-reaching effects. Readers will gain a greater understanding of federalism in general, including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels. This book also will help inform debates as other states consider

whether to jump on the bandwagon of marijuana legalization.

FEDERALISM AND ETHNIC CONFLICT IN ETHIOPIA

A COMPARATIVE REGIONAL STUDY

Routledge This book examines the impact of the federal restructuring of Ethiopia on ethnic conflicts. The adoption of ethnic federalism in Ethiopia was closely related with the problem of creating a state structure that could be used as instrument of managing the complex ethno-linguistic diversity of the country. Ethiopia is a multinational country with about 85 ethno-linguistic groups and since the 1960s, it suffered from ethno-regional conflicts. The book considers multiple governance and state factors that could explain the difficulties Ethiopian federalism faces to realise its objectives. These include lack of political pluralism and the use of ethnicity as the sole instrument of state organisation. Federalism and Ethnic Conflict in Ethiopia will be of interest to students and scholars of federal studies, ethnic conflict and regionalism.

OECD ECONOMIC SURVEYS: ITALY 2007

OECD Publishing This 2007 edition of OECD's review of Italy's economy finds a welcome economic recovery under way. But medium-term prospects remain challenging: productivity shows little signs of resurgence, high public indebtedness threatens fiscal health.

FEDERALISM AND HEALTH POLICY

The Urban Insitute The balance between state and federal health care financing for low-income people has been a matter of considerable debate for the last 40 years. Some argue for a greater federal role, others for more devolution of responsibility to the states. Medicaid, the backbone of the system, has been plagued by an array of problems that have made it unpopular and difficult to use to extend health care coverage. In recent years, waivers have given the states the flexibility to change many features of their Medicaid programs; moreover, the states have considerable flexibility to in establishing State Children's Health Insurance Programs. This book examines the record on the changing health safety net. How well have states done in providing acute and long-term care services to low-income populations? How have they responded to financial incentives and federal regulatory requirements? How innovative have they been? Contributing authors include Donald J. Boyd, Randall R. Bovbjerg, Teresa A. Coughlin, Ian Hill, Michael Housman, Robert E. Hurley, Marilyn Moon, Mary Beth Pohl, Jane Tilly, and Stephen Zuckerman.

FEDERALISM IN CENTRAL AND EASTERN EUROPE

Routledge First Published in 1998. Federalism became highly fashionable among all kind of blue-printers, those who believed in the capacity of constitutional forms to solve all the fundamental issues of social life, as well as those who were on the look-out for new descriptions for rather old-fashioned political concepts just before World War II. This volume if a more thorough study of the problem s of Federalism in Central and Eastern Europe. Contribute to the study of these problems as an analysis of the problems of democratic devolution arising from variety in social and cultural outlook, and of the limits within which such variety might be integrated by federal organisation.

THE FEDERALIST

A CLASSIC ON FEDERALISM AND FREE GOVERNMENT

JHU Press Dietze intervened in this scholarship by offering a comprehensive study of the work, which promoted federalism as both a means for establishing free government and securing peace within a federal state and for maintaining security under the threat of foreign powers. In addition to a theoretical examination of the text, Dietze brings in a historical component by fleshing out how its authors were shaped by the political atmosphere in which they lived and how their writings transformed political literature for generations to come

GERMAN FEDERALISM IN TRANSITION

REFORMS IN A CONSENSUAL STATE

Routledge Federalism in Germany has come to be viewed as the root cause of the country's current economic and social malaise. The federal political system which contributed enormously to the economic success and political stability of West Germany is now said to be outdated, overburdened and unworkable. German federalism is now widely seen as being synonymous with Reformstau (reform blockage) and Stillstand (inertia). Critics argue that the system urgently needs to change if Germany is to continue to compete in the global system. This major new text offers a unique scholarly evaluation of the major recent attempts to overhaul Germany's federal political architecture. It brings together thematic chapters by leading authorities on German federalism to provide a comprehensive assessment of the reform processes to date, their inception, scope, objectives and outputs. The contributions provide new insights into the dynamics of reform in key policy areas such as economic policy, Europe and the tax equalisation system, as well as in the institutional frameworks for decision-making. It will be essential reading for students of Germany, its politics, law and economics. This book was published as a special issue of the German Politics.

CONSUMER LAW, COMMON MARKETS AND FEDERALISM IN EUROPE AND THE UNITED STATES

Walter de Gruyter

THE ASHGATE RESEARCH COMPANION TO FEDERALISM

Ashgate Publishing, Ltd. This comprehensive research companion examines the theory, practice and historical development of the principle of federalism from the ancient period to the contemporary world. THE LOGIC OF AMERICAN POLITICS

CQ Press This new edition of the bestselling The Logic of American Politics is thoroughly updated and covers the dramatic 2016 election results with a thorough analysis of those results. It arms students with a revised introduction to institutional design that makes concepts such as command, veto, agenda control, voting rules, and delegation easier for students to master and apply, so they clearly see how the American political system was devised and why it works the way it does. Authors Samuel Kernell, Gary C. Jacobson, Thad Kousser, and Lynn Vavreck build students' critical thinking through a simple yet powerful idea: politics is about solving collective action problems. This new edition continues to delve into partisan differences among voters and in government and highlight the increasingly partisan nature of campaigns. By exploring issues such as the Affordable Care Act's troubled implementation, the increasing legalization of marijuana and same-sex marriage in the states, and the debate over immigration, the book illustrates how the institutional structures of government, federalism, and even campaigns can help voters make sense of their choices. The concluding chapter on policymaking examines the noticeable logic that guides American policy, as shown through issues like health care reform, global climate change, and the federal budget. Students glean insights into the sources of policy problems, identify possible solutions, and realize why agreement on those solutions is often so hard to achieve.

THE FUTURE OF AUSTRALIAN FEDERALISM

COMPARATIVE AND INTERDISCIPLINARY PERSPECTIVES

Cambridge University Press This volume explains and evaluates Australia's federal system and the options for reform from various comparative and disciplinary perspectives.

GOVT 9

FISCAL FEDERALISM IN THE EUROPEAN UNION AND ITS COUNTRIES

A CONFRONTATION BETWEEN THEORIES AND FACTS

Peter Lang The book tackles a key issue for the European Union: Fiscal Federalism. It evaluates the applicability of this theoretical perspective for the EU. Conversely, it pinpoints ways in which the diversity of existing fiscal settings and organisations, both at national and European levels, can throw light on the theory. The study analyses two of the most important European policies: Cohesion Policy and the Stability and Growth Pact. It compares the episode of German Unification to the 2004 European Enlargement. It pioneers a cross-country analysis of the various national fiscal settings. Finally, it highlights the close links between the dynamics of decision-making related to the main budgetary choices and the integration process. The questions raised are crucial in the current context of economic and institutional uncertainty: How should we apprehend the Cohesion Policy, the main expression of European solidarity? How can the coordination of national fiscal policies be improved? How are European countries and their regions organised in fiscal and budgetary terms? What lessons can the EU draw from its own fiscal past and from that of its Member States? Over and above the originality of the answers provided by the authors, the book suggests that it would be difficult to take the integration process further without first clarifying what Europe can, should or wants to do.

FEDERALISM

A VERY SHORT INTRODUCTION

Oxford University Press, USA Early Americans were suspicious of centralized authority and executive power. Casting away the yoke of England and its king, the founding fathers shared in this distrust as they set out to pen the Constitution. Weighing a need for consolidated leadership with a demand for states' rights, they established a large federal republic with limited dominion over the states, leaving most of the governing responsibility with the former colonies. With this dual system of federalism, the national government held the powers of war, taxation, and commerce, and the ability to pass the laws necessary to uphold these functions. Although the federal role has grown substantially since then, states and local governments continue to perform most of the duties in civil and criminal law, business and professional licensing, the management of infrastructure and public services: roads, schools, libraries, sanitation, land use and development, and etc. Despite the critical roles of state and local governments, there is little awareness-or understanding-of the nature and operations of the federal system. This Very Short Introduction provides a concise overview of federalism, from its origins and evolution to the key events and constitutional decisions that have defined its framework. Although the primary focus is on the United States, other federal systems, including Brazil, Canada, India, Germany, Russia, South Africa, Switzerland, and the EU, are addressed.

ONLINE CLASSROOM: AUSTRALIAN HISTORY SERIES - YEAR 6

PACKAGE INCLUDES: * INTERACTIVE ONLINE RESOURCE * TEACHERS' GUIDE * BLM ACTIVITY SHEETS

Ready-Ed Publications Online Classroom: Australian History Series – Year 6 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 6 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 6: Australia As A Nation', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 6 History to life. The curriculum-linked topics include: Australia's Federation: The first section helps students to develop an understanding of Australian Federation. Australian Democracy and Citizenship: The second section encourages students to explore the experiences of Australian democracy and citizenship for women, and asks students to further research the experiences of another group. Australian Migrants: The third section looks at the stories of people who have migrated to Australia and examines the reasons why they migrated. Contribution of Migrants: The fourth section explores the contributions that migrants have made to Australia and specifically focuses on the pearling industry and the Snowy Mountains Hydro-Electric Scheme. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks

FEDERALISM AND REGIONALISM IN AUSTRALIA

NEW APPROACHES, NEW INSTITUTIONS?

ANU E Press Sections include: "Setting the scene: old questions or new?", "Drivers for change: new approaches to federalism and regionalism", and "New institutions? Approaching the challenge of reform."

PRAGMATIC FEDERALISM

THE REASSIGNMENT OF FUNCTIONAL RESPONSIBILITY

FEDERAL SOLUTIONS TO ETHNIC PROBLEMS

ACCOMMODATING DIVERSITY

Routledge Exploring five distinct models of federal arrangement, this book evaluates the relative merits of each model as a mechanism for managing relations in ethnically divided societies. Two broad approaches to this issue, accommodation and denial, are identified and, from this, five distinct models of federal arrangement are derived. The models: ethnic, anti-ethnic, territorial, ethno-territorial, and federacy, are defined and then located within their broader theoretical tradition. Detailed case studies are used to evaluate the strengths and weakness of each model and highlight patterns in the success and failure rates of the universe of post-1945 federal arrangements. From this it is clear that two forms of ethnically defined federal arrangement – federacy and ethno-territorial federalism, are associated with low failure rates, while ethnic federalism has enjoyed a far higher rate of failure. The reasons for this are examined and the implications of this for the design of federal systems in ethnically divided societies are assessed. Federal Solutions to Ethnic Problems: Accommodating Diversity advances a new argument within the field of comparative politics, that certain forms of federal arrangement are systematically more successful than others in ameliorating ethnically conflicted societies and is essential reading for students and scholars with an interest in politics and the Middle East.

OSWAAL CBSE ONE FOR ALL, SOCIAL SCIENCE, CLASS 10 (FOR 2023 EXAM)

Oswaal Books and Learning Private Limited Chapter Navigation Tools • CBSE Syllabus : Strictly as per the latest CBSE Syllabus dated: April 21, 2022 Cir. No. Acad-48/2022 • Latest Updations: 1. Term I &Term II Solved Papers 2022-23 (all sets of Delhi & Outside Delhi) 2. Toppers Answers -2021

NCERT SOLUTIONS - SOCIAL SCIENCE FOR CLASS 10TH

Arihant Publications India limited Keeping in mind the immense importance and significance of the NCERT Textbooks for a student, Arihant has come up with a unique book containing only and all Question-Answers of NCERT Textbook based questions. This book has been designed for the students studying in Class X following the NCERT Textbook of Social Science. The present book has been divided into two parts according to the syllabi of Social Science Term I and Term II, further divided into History, Geography, Political Science and Economics sections. This book has been worked out with an aim of overall development of the students in such a way that it will help students define the way how to write the answers of the textbook based questions. This book has answer to each & every question covered in the chapters of the textbook for Class X Social Science. Also each chapter in the book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter whether it is Long Answer Type or Short Answer Type Question. The curriculum for Disaster Management has been covered at the end of the book with necessary theoretical content and solved textbook questions. The book has been designed systematically in the simplest manner for easy comprehension of the chapters and their themes. As the book has been designed strictly according to the NCERT Textbook of Social Science for Class X and provides a thorough and complete coverage of the textbook based questions, it for sure will help the Class X students in an effective way for Social Science.

SWISS FEDERALISM

THE TRANSFORMATION OF A FEDERAL MODEL

Routledge The political and economic crisis of EU integration has made it increasingly apparent how challenging it is to bring together different sovereign cultures, languages and regions into a single political system. Switzerland – being one of the three classic federations in the world – can provide insights, particularly in relation to the accommodation of cultural, linguistic, religious and regional diversity, which can help tackle contemporary challenges. This book describes and analyses the characteristics, institutions, and processes of Swiss federalism, along with its combination of stability and change. It presents a comprehensive study of the federal system of Switzerland, where it comes from, how it operates, and the way it has changed of late. This will allow readers to appreciate the specific and current answers the Swiss case offers to the main questions raised by wider federal research. This text will be of key interest to scholars and students in federalism and territorial politics, political institutions, local and regional government studies, multi-level governance and more broadly to European and comparative politics.

GOV

Cengage Learning 4LTR Press solutions give students the option to choose the format that best suits their learning preferences. This option is perfect for those students who focus on the textbook as their main course resource. FEDERAL SOLUTIONS FOR FRAGILE STATES IN THE MIDDLE EAST: RIGHT-SIZING INTERNAL BORDERS

World Scientific In most regions of the world, federalism (territorial autonomy) is used as a successful institutional means of dispersing political power and accommodating ethnic, religious, and cultural diversity. The Middle East is an exception. Aside from the anomalous case of the U.A.E and Iraq's troubled experiment with federalism, Middle Eastern regimes have largely resisted efforts to decentralize political power. As a result, the norm in the region has been highly centralized, unitary systems that have, more often than not, paved the way for authoritarian rule or played witness to serious internal fragmentation and conflict divided along ethnic or religious lines.Federal Solutions for Fragile States in the Middle East makes an argument for the implementation of federalism in the post-conflict states of the Middle East. The argument operates on two levels: the theoretical and the practical. The theoretical case for federalism is backed by empirical evidence, but to accurately evaluate the practical and logistical feasibility of its implementation in any given case requires detailed knowledge of 'real world' political realities. The book's focus is on four post-conflict states — Iraq, Syria, Yemen, and Libya — though the arguments advanced within have broad regional applicability.

UK GOVERNMENT & POLITICS ANNUAL UPDATE 2016

Philip Allan Featuring information and analysis of recent events in UK politics, the Annual Update provides you with topical material to draw on for tasks throughout your course, and for answering examination questions. Written by an experienced teacher and examiner and edited by an acknowledged expert in the field of UK politics, this is the book you need if you are aiming for the highest grades at AS. - Reviews all the key events and developments in UK politics that you need to know - Up-to-date examples and data to help you present knowledgeable and persuasive arguments - The perfect update for your textbook, bringing you right up to date with all the topical material you need to achieve your best in your exams Topics covered include: - Jeremy Corbyn: a new kind of politics? - The 2015 general election in perspective (1.): why were Cameron and Sturgeon the two winners? - The 2015 general election in perspective (2): the constitutional implications. - Devolution: is a federal UK inevitable? - The EU referendum: a defining moment in UK politics? - The Liberal Democrat Party: the end or can Tim Farron save them? - George Osborne's Northern Powerhouse: a new era in local government? - The welfare state: is it in danger? - Green Politics: now established in the UK? - Civil liberties: are they under threat in the UK?

CAREER BEHAVIOUR AND THE EUROPEAN PARLIAMENT

ALL ROADS LEAD THROUGH BRUSSELS?

OUP Oxford Career Behaviour and the European Parliament seeks to answer the question of how a political institution, such as the European Parliament, can impact the career ambitions and behaviours chosen by European politicians. Long considered a 'second order' legislature in its degree of political importance and prestige, the European Parliament is the only directly elected institution within the European Union and is an increasingly important part of the European legislative process. Using a major new source of quantitative data and interviews with more than 50 current and former European legislators, this book argues that as the institution has become increasingly professionalized and powerful, the volatility of its membership has declined. However, the professional ambitions of its members vary greatly by national background, leading to an uneven distribution of legislative seniority and influence within the legislature. The book presents a new theory with political careers acting as institutions in themselves, and also offers complete background information on all elected Members of the European Parliament, from 1979-2014.

OSWAAL CBSE ONE FOR ALL CLASS 10 ENGLISH, SCIENCE, SOCIAL SCIENCE & MATH STANDARD (SET OF 4 BOOKS) (FOR 2023 EXAM)

Oswaal Books and Learning Private Limited CBSE Syllabus: CBSE One for All Class 10 | All in One Class 10 Maths Science Social Science English Study Package For 2023 Board Exams is Strictly as per the latest CBSE Syllabus dated: April 21, 2022 Cir. No. Acad-48/2022 Latest updates: Revision Notes: The CBSE Book Class 10 2022-2023 For 2023 Board Exams Contains Chapter wise & Topic wise Revision Notes Exam Questions: The All in One Class 10 Maths Science Social Science English Study Package Includes Previous Years Board Examination questions (2013-2021) CBSE Marking Scheme Answers: Previous Years' Board Marking scheme answers (2013-2020) with detailed explanation to facilitate exam-oriented preparation.
