Narcoland

The Mexican Drug Lords And Their Godfathers

Verso Books **The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, Narcoland has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, Narcoland takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."**

Duchamp

Love and Death, even

Reaktion Books Marcel Duchamp's stature in the history of art has grown steadily since the 1950s, as several artistic movements have embraced him as their founding father. But although his influence is comparable only to Picasso's, Duchamp continues to be relatively unknown outside his narrow circle of followers. This book seeks to explain his oeuvre, which has been shrouded with mystery. Duchamp's two great preoccupations were the nature of scientific truth and a feeling for love with its natural limit, death. His works all speak of eroticism in a way that pushes the socially acceptable to its outer limits. Juan Antonio Ramirez addresses such questions as the meaning of the artist's ground-breaking ready-mades and his famous installation Etant donnés; his passionate essay reproduces all of Duchamp's important works, in addition to numerous previously unpublished visual sources. **Duchamp: Love and Death, even** is a seminal monograph for understanding this crucial figure of modern art.

A User's Guide to Democracy

How America Works

Celadon Books From Nick Capodice & Hannah McCarthy, the hosts of New Hampshire Public Radio's Civics 101, and New Yorker cartoonist Tom Toro, **A User's Guide to Democracy** is a lively crash course in everything you should know about how the US government works. Do you know what the Secretary of Defense does all day? Are you sure you know the difference between the House and the Senate? Have you been pretending you know what Federalism is for the last 20 years? Don't worry--you're not alone. The American government and its processes can be dizzyingly complex and obscure. Until now. Within this book are the keys to knowing what you're talking about when you argue politics with the uncle you only see at Thanksgiving. It's the book that sits on your desk for quick reference when the nightly news boggles your mind. This approachable and informative guide gives you the lowdown on everything from the three branches of government, to what you can actually do to make your vote count, to how our founding documents affect our daily lives. Now is the time to finally understand who does what, how they do it, and the best way to get them to listen to you.

El heroico Colegio Militar en la historia de México

World Development Report 1978

World Bank Publications **This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them. It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and identifies some of the major policy issues which will affect these prospects.**

Horizontal Vertigo

A City Called Mexico

Pantheon At once intimate and wide-ranging, and as enthralling, surprising, and vivid as the place itself, this is a uniquely eye-opening tour of one of the great metropolises of the world, and its largest Spanish-speaking city.

Horizontal Vertigo: The title refers to the fear of ever-impending earthquakes that led Mexicans to build their capital city outward rather than upward. With the perspicacity of a keenly observant flaneur, Juan Villoro wanders through Mexico City seemingly without a plan, describing people, places, and things while brilliantly drawing connections among them. In so doing he reveals, in all its multitudinous glory, the vicissitudes and triumphs of the city's cultural, political, and social history: from indigenous antiquity to the Aztec period, from the Spanish conquest to Mexico City today—one of the world's leading cultural and financial centers. In this deeply iconoclastic book, Villoro organizes his text around a recurring series of topics: "Living in the City," "City Characters," "Shocks," "Crossings," and "Ceremonies." What he achieves, miraculously, is a stunning, intriguingly coherent meditation on Mexico City's genius loci, its spirit of place.

The Beehive Metaphor

From Gaudí to Le Corbusier

Open Veins of Latin America

Five Centuries of the Pillage of a Continent

NYU Press [In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.

Economics

This text presents a clear and accurate introduction to economics. This edition features material on the economics of the information age, has a revised treatment of international economics and uses real-world examples to discuss concepts.

Crack Capitalism

Pluto Press **Crack Capitalism**, argues that radical change can only come about through the creation, expansion and multiplication of weak points, or "cracks" in the capitalist system. John Holloway's previous book, **Change the World Without Taking Power**, sparked a world-wide debate among activists about the most effective methods of resisting capitalism. Now Holloway rejects the idea of a disconnected plurality of struggles and finds a unifying contradiction -- the opposition between the time we spend working as part of the system and our excess "doing" where we revolt and refuse to be subsumed. Clearly and accessibly presented in the form of 33 theses, **Crack Capitalism** is set to reopen the debate among radical scholars and activists seeking to break capitalism.

The Future Internet

Future Internet Assembly 2011: Achievements and Technological Promises

Springer Irrespective of whether we use economic or societal metrics, the Internet is one of the most important technical infrastructures in existence today. It will be a catalyst for much of our innovation and prosperity in the future. A competitive Europe will require Internet connectivity and services beyond the capabilities offered by current technologies. Future Internet research is therefore a must. This book is published in full compliance with the Open Access publishing initiative; it is based on the research carried out within the Future Internet Assembly (FIA). It contains a sample of representative results from the recent FIA meetings spanning a broad range of topics, all being of crucial importance for the future Internet. The book includes 32 contributions and has been structured into the following sections, each of which is preceded by a short introduction: Foundations: architectural issues; socio-economic issues; security and trust; and experiments and experimental design. Future Internet Areas: networks, services, and content; and applications.

Primera plana

Forecasting and Management of Technology

John Wiley & Sons **Consistently practical in its coverage, the book discusses general issues related to forecasting and management; introduces a variety of methods, and shows how to apply these methods to significant issues in managing technological development. With numerous exhibits, case studies and exercises throughout, it requires only basic mathematics and includes a special technology forecasting TOOLKIT for the IBM and compatibles, along with full instructions for installing and running the program.**

Out of Captivity

Surviving 1,967 Days in the Colombian Jungle

Harper Collins Describes how the plane carrying the three American civilian contractors crash-landed in Colombia, their capture by the FARC, the five years that they spent as hostages of the guerrilla group, and their eventual rescue.

Fabulas Literarias

Createspace Independent Publishing Platform "**Fabulas literarias**" (Literary Fables) is a collection of fables (stories with moral, with animals and objects as characters) written in verse by Tomás de Iriarte, a Spanish writer of the Enlightenment best known for this work. The fables were published in 1782, although they were written with some of the writer's "enemies" in mind, they criticize and satirize human traits that we can find nowadays and they remain actual. "El burro flautista" (The Flutist Donkey) and "Los dos conejos" (The Two Rabbits) are two of the best known fables included here. Also included are 9 posthumous fables.
