The Boy Who Was Raised as a Dog And Other Stories from a Child Psychiatrist's Notebook -- What Traumatized Children Can Teach Us About Loss, Love, and Healing

Basic Books *In this classic work of developmental psychology, renowned psychiatrist and the co-author of the #1 New York Times bestseller *What Happened to You?* reveals how trauma affects children—and outlines the path to recovery. "Fascinating and upbeat... Dr. Perry is both a world-class creative scientist and a compassionate therapist." -Mary Pipher, PhD, author of *Reviving Ophelia* How does trauma affect a child's mind—and how can that mind recover? Child psychiatrist Dr. Bruce D. Perry has helped children faced with unimaginable horror: genocide survivors, murder witnesses, kidnapped teenagers, and victims of family violence. In the classic *The Boy Who Was Raised as a Dog*, Dr. Perry tells their stories of trauma and transformation and shares their lessons of courage,*

humanity, and hope. Deftly combining unforgettable case histories with his own compassionate, insightful strategies for rehabilitation, Perry explains what happens to children's brain when they are exposed to extreme stress—and reveals the unexpected measures that can be taken to ease such pain and help them grow into healthy adults. Only when we understand the science of the mind and the power of love and nurturing can we hope to heal the spirit of even the most wounded child.

Fire Safety for Very Tall Buildings

Engineering Guide

Springer Nature *This Guide provides information on special topics that affect the fire safety performance of very tall buildings, their occupants and first responders during a fire. This Guide addresses these topics as part of the overall building design process using performance-based fire protection engineering concepts as described in the SFPE Engineering Guide to Performance Based Fire Protection. This Guide is not intended to be a recommended practice or a document that is suitable for adoption as a code. The Guide pertains to “super tall,” “very tall” and “tall” buildings. Throughout this Guide, all such buildings are called “very tall buildings.” These buildings are characterized by heights that impose fire protection challenges; they require special attention beyond the protection features typically provided by traditional fire protection methods. This Guide does not establish a definition of buildings that fall within the scope of this document.*

Oh Happy Day

Those Times and These Times

Random House *'A triumphant family memoir' Hallie Rubenhold 'Powerfully told...an impressive work' The Times 'Gives a voice to the voiceless' Australian Book Review In this remarkable book, Carmen Callil discovers the story of her British ancestors, beginning with her great-great grandmother Sary Lacey, born in 1808, an impoverished stocking frame worker. Through detailed research, we follow Sary from slum to tenement and from pregnancy to pregnancy. We also meet George Conquest, a canal worker and the father of one of Sary's children. George was sentenced - for a minor theft - to seven years' transportation to Australia, where he faced the extraordinary brutality of convict life. But for George, as for so many disenfranchised British people like him, Australia turned out to be his Happy Day. He survived, prospered and eventually returned to England, where he met Sary again, after nearly thirty years. He brought her out to Australia, and they were never parted again. A miracle of research and fuelled by righteous anger, Oh Happy Day is a story of Empire, migration and the inequality and injustice of nineteenth-century England. 'A remarkable tale...drawing chilling parallels to the inequalities of our times' Observer*

Study Guide for PE Electrical and Computer - Power Exam

Practice Over 500 Solved Problems with Detailed Solutions

'Practice makes perfect' is as applicable to passing PE exam as it is to anything else. This study guide is centered on the idea of 'problem-based' learning. It contains over 500 focused practice problems with detailed solutions based on the latest NCEES(r) PE Electrical and Computer - Power Exam Specification and covers all exam topics including: Measurement and Instrumentation - Special Applications - Codes and Standards - Analysis - Devices and Power Electronic Circuits - Induction and Synchronous Machines - Electric Power Devices - Power System Analysis - Protection. The content of this study guide is specially developed to assist students in building knowledge base for quantitative and qualitative exam-style questions. Students will find relevant formulas, code references and explanations as part of detailed solutions. Topic specific tips are also included at the beginning of each chapter. Target audience of this book includes recent graduates as well as seasoned professionals who have been out of school for some time.

Cleverlands

The secrets behind the success of the world's education superpowers

Unbound Publishing *As a teacher in an inner-city school, Lucy Crehan was exasperated with ever-changing government policy claiming to be based on lessons from 'top-performing' education systems. She resolved to find out what was really going on in the classrooms of countries whose teenagers ranked top in the world in reading, maths and science. Cleverlands documents Crehan's journey around the world, weaving together her experiences with research on policy, history, psychology and culture to offer extensive new insights into what we can learn from these countries.*

The SPARC Architecture Manual

Version 9

Prentice Hall *SPARC (Scalable Processor Architecture) is the industry's only openly defined and evolved RISC architecture. Version 9 is the new 64-bit incarnation of SPARC - the most significant change since SPARC's introduction in 1987! Unlike other RISC (Reduced Instruction Set Computer) designs, SPARC specifies not a hardware implementation ("chip"), but an open, standard architecture belonging to the community of SPARC vendors and users. The SPARC specification is defined by the SPARC Architecture Committee, a technical arm of the computer-maker consortium, SPARC International. Version 9 provides 64-bit data and addressing, support for fault tolerance, fast context switching, support for advanced compiler optimizations, efficient design for Superscalar processors, and a clean structure for modern operating systems. The V9 architecture supplements, rather than replaces, the 32-bit Version 8 architecture. The non-privileged features of Version 9 are upward-compatible from Version 8, so 32-bit application software can execute natively, without modification, on Version 9 systems - no special "compatibility mode" is required. Publication of the Version 9 architecture marks a three-year development effort by SPARC International member companies from a broad cross-section of*

disciplines.

Reading in the mobile era

a study of mobile reading in developing countries

UNESCO Millions of people do not read for one reason: they do not have access to text. But mobile phones and cellular networks are transforming a scarce resource into an abundant one. Drawing on the analysis of over 4,000 surveys collected in seven developing countries and corresponding qualitative interviews, this report paints a detailed picture of who reads books and stories on mobile devices and why. The findings illuminate, for the first time, the habits, beliefs and profiles of mobile readers in developing countries. This information points to strategies to expand mobile reading and, by extension, the educational and socio-economic benefits associated with increased reading. Mobile technology can advance literacy and learning in underserved communities around the world. This report shows how.

Like a Love Story

HarperCollins Stonewall Honor Book * A Time Magazine Best YA Book of All Time "A book for warriors, divas, artists, queens, individuals, activists, trend setters, and anyone searching for the courage to be themselves."—Mackenzi Lee, *New York Times* bestselling author of *The Gentleman's Guide to Vice and Virtue* It's 1989 in New York City, and for three teens, the world is changing. Reza is an Iranian boy who has just moved to the city with his mother to live with his stepfather and stepbrother. He's terrified that someone will guess the truth he can barely acknowledge about himself. Reza knows he's gay, but all he knows of gay life are the media's images of men dying of AIDS. Judy is an aspiring fashion designer who worships her uncle Stephen, a gay man with AIDS who devotes his time to activism as a member of ACT UP. Judy has never imagined finding romance...until she falls for Reza and they start dating. Art is Judy's best friend, their school's only out and proud teen. He'll never be who his conservative parents want him to be, so he rebels by documenting the AIDS crisis through his photographs. As Reza and Art grow closer, Reza struggles to find a way out of his deception that won't break Judy's heart—and destroy the most meaningful friendship he's ever known. This is a bighearted, sprawling epic about friendship and love and the revolutionary act of living life to the fullest in the face of impossible odds.

Free-Choice Learning and the Environment

Rowman Altamira *Most environmental learning takes place outside of the formal education system, but our understanding of how this learning actually occurs is in its infancy. By surfing the internet, watching nature documentaries, and visiting parks, forests, marine sanctuaries, and zoos, people make active choices to learn about various aspects of their environment every day. Free-Choice Learning and the Environment explores the theoretical foundations of free-choice environmental education, the practical implications for applying theory to the education of learners of all ages, and the policy implications for creating new and sustainable environmental education opportunities.*

When the Adults Change, Everything Changes

Seismic shifts in school behaviour

Crown House Publishing Ltd *In When the Adults Change, Everything Changes: Seismic Shifts in School Behaviour, Paul Dix upends the debate on behaviour management in schools and offers effective tips and strategies that serve to end the search for change in children and turn the focus back on the adults. You can buy in the best behaviour tracking software, introduce 24/7 detentions or scream 'NO EXCUSES' as often as you want - but ultimately the solution lies with the behaviour of the adults. It is the only behaviour over which we have absolute control. Drawing on anecdotal case studies, scripted interventions and approaches which have been tried and tested in a range of contexts, from the most challenging urban comprehensives to the most privileged international schools, behaviour training expert and Pivotal Education director Paul Dix advocates an inclusive approach that is practical, transformative and rippling with respect for staff and learners. An approach in which behavioural expectations and boundaries are exemplified by people, not by a thousand rules that nobody can recall. When the Adults Change, Everything Changes illustrates how, with their traditional sanction- and exclusion-led methods, the 'punishment brigade' are losing the argument. It outlines how each school can build*

authentic practice on a stable platform, resulting in shifts in daily rules and routines, in how we deal with the angriest learners, in restorative practice and in how we appreciate positive behaviour. Each chapter is themed and concludes with three helpful checklists Testing, Watch out for and Nuggets designed to help you form your own behaviour blueprint. Throughout the book both class teachers and school leaders will find indispensable advice about how to involve all staff in developing a whole school ethos built on kindness, empathy and understanding. Suitable for all head teachers, school leaders, teachers, NQTs and classroom assistants in any phase or context, including SEND and alternative provision settings who are looking to upgrade their own classroom management or school behaviour plan. When the Adults Change Everything Changes was a silver winner 2017 Foreword INDIES Awards in the Education category. Named one of Book Authority's best education reform books of all time. Named one of Book Authority's best education books of all time.

Spider Woman

A Life – by the former President of the Supreme Court

Random House *Lady Hale is an inspirational figure admired for her historic achievements and for the causes she has championed. Spider Woman is her story. As 'a little girl from a little school in a little village in North Yorkshire', she only went into the law because her headteacher told her she wasn't clever enough to study history. She became the most senior judge in the country but it was an unconventional path to the top. How does a self-professed 'girly swot' get ahead in a profession dominated by men? Was it a surprise that the perspectives of women and other disadvantaged groups had been overlooked, or that children's interests were marginalised?*

A lifelong smasher of glass-ceilings, who took as her motto 'women are equal to everything', her landmark rulings in areas including domestic violence, divorce, mental health and equality were her attempt to correct that. As President of the Supreme Court, Lady Hale won global attention in finding the 2019 prorogation of Parliament to be unlawful. Yet that dramatic moment was merely the pinnacle of a career throughout which she was hailed as a pioneering reformer. Wise, warm and inspiring, Spider Woman shows how the law shapes our world and supports us in crisis. It is the story of how Lady Hale found that she could overcome the odds, which shows that anyone from similar beginnings will find that they can cope too.

Codex Born

Penguin Hugo winner Jim C. Hines's hilarious and clever *Magic ex Libris* series, where books come alive and libromancer Isaac Vainio combats magical threats that spring from the page Five hundred years ago, Johannes Gutenberg discovered the art of libromancy, allowing him to reach into books to create things from their pages. Gutenberg's power brought him many enemies, and some of those enemies have waited centuries for revenge. Revenge which begins with the brutal slaughter of a wendigo in the northern Michigan town of Tamarack, a long-established werewolf territory. Libromancer Isaac Vainio is part of Die Zwelf Portenære, better known as the Porters, the organization founded by Gutenberg to protect the world from magical threats. Isaac is called in to investigate the killing, along with Porter psychiatrist Nidhi Shah and their dryad bodyguard and lover, Lena Greenwood. Born decades ago from the pages of a pulp fantasy novel, Lena was created to be the ultimate fantasy woman, strong and deadly, but shaped by the needs and desires of her companions. Her powers are unique, and Gutenberg's enemies hope to use those powers for themselves. But their plan could unleash a far darker evil...

Helping Your Child with Worry and Anxiety

Sheldon Press Are you worried about your child's mental health? Is your child or teenager showing worrying signs or symptoms? Are you waiting for a CAMHS referral, or professional treatment for your child? *Helping Your Child with Worry and Anxiety* is written by a team of mental health care professionals who have decades of experience working with children and young people. If your child is showing signs of anxiety or any related mental health condition, if you're thinking about consulting a professional or even on the waiting list to see one, this book will have plenty of practical strategies to support both them and you. It covers everything from spotting symptoms to managing things at home - and how/when to seek further help if you think it might be necessary. It offers advice and insight into almost every possible anxiety-related condition your child might experience, including: * Worry * Fears and

*phobias * Worries about eating and eating disorders * Anxiety and self-harm * Separation and social anxiety * Obsessive/compulsive behaviours* There are plenty of suggestions for how to help manage your own physical and mental health during challenging times, too. Most importantly, you can feel confident and safe as you support your child, as the advice in this book comes directly from experts with a speciality in each area, who have first-hand experience of working with children and young people in the healthcare system.

Teaching Creatively and Teaching Creativity

Springer Science & Business Media *Creative teaching as well as teaching creativity are cutting edge issues in psychology today as recent academic and popular media coverage has shown. This volume expands on that interest with chapter authors drawn from interdisciplinary areas. It includes examples of creatively teaching across the education system, including preschool, K-12, undergraduate, and graduate level education. The variety of subjects covered by the chapters include psychology, math, science, and reading. In addition to creative teaching which may lead to enhanced learning and achievement in students, as well enhanced creativity, another focus is teaching with the objective to enhance creativity.*

Learning from Museums

Rowman & Littlefield *In the second edition of their 2000 book, John H. Falk and Lynn D. Girl One

A Novel

MCD *Orphan Black* meets Margaret Atwood in this twisty supernatural thriller about female power and the bonds of sisterhood. Josephine Morrow is Girl One, the first of nine Miracle Babies conceived without male DNA on an experimental commune known as the Homestead. The Girls were raised in the shadow of controversy—plagued by zealots calling them aberrations and their mothers demons—until a devastating fire at the Homestead claimed the lives of three people, leaving the survivors to scatter across the United

*States. Years later, upon learning that her mother has gone missing, Josie sets off on a desperate road trip, tracking down the only people who might help: her estranged sisters. Tracing clues her mother left behind, Josie joins forces with two of the Girls, and they journey back through their past, uncovering secrets about their origins and unlocking devastating abilities they never knew they had. Girl One combines the provocative imagination of Naomi Alderman's *The Power* with the propulsive, cinematic storytelling of a Marvel movie. In her electrifying, wildly entertaining new novel, Sara Flannery Murphy delivers a rousing tale of love, ambition, power, and the extraordinary bonds of sisterhood.*

The Trouble with Maths

A Practical Guide to Helping Learners with Numeracy Difficulties

Routledge Now in a second edition, the award-winning *The Trouble with Maths* offers important insights into the often confusing world of numeracy. By looking at learning difficulties in maths from several perspectives, including the language of mathematics, thinking styles and the demands of individual topics, this book offers a complete overview of the most common problems associated with mathematics teaching and learning. It draws on tried-and-tested methods based on research and the author's many years of classroom experience to provide an authoritative yet highly accessible one-stop classroom resource. Combining advice, guidance and practical activities, this user-friendly guide will enable you to: develop flexible thinking skills; use alternative strategies for pupils to access basic facts; understand the implications of pre-requisite skills, such as working memory, on learning; implement effective preventative measures before disaffection sets in; recognise maths anxiety and tackle self-esteem problems; tackle the difficulties with word problems that many pupils may have; select appropriate materials to enhance understanding. With useful features such as checklists for the evaluation of books, an outline for setting up an inclusive Maths Department policy and a brand new chapter on materials, manipulatives and communication, this book will equip you with the essential skills to tackle your pupils' maths difficulties and improve standards. This book will be useful for all teachers, classroom assistants, learning support assistants and parents who have pupils who underachieve with maths.

Evaluation of the Computer Fire Model DETACT-QS

Springer Nature *This engineering practice Guide, based on the DETACT-QS program, describes a model for predicting the response time of ceiling-mounted heat detectors/sprinklers and smoke detectors, installed under large unobstructed ceilings, for fires with user-defined, time-dependent heat release rate curves. The Guide provides information on the technical features, theoretical basis, assumptions, limitations, and sensitivities as well as guidance on the use of DETACT-QS. Evaluation is based on comparing predictions from DETACT-QS with results from full-scale fire experiments conducted in compartments with ceiling heights ranging from 2.44 m (8 ft) to 12.2 m (40 ft) and peak fire heat release rates ranging from 150 kW to 3.8 MW. Use of this model with building geometries or fire characteristics other than those used in this evaluation may require further evaluation or testing.*

Staged Otherness

Ethnic Shows in Central and Eastern Europe, 1850–1939

Central European University Press *The cultural phenomenon of exhibiting non-European people in front of the European audiences in the 19th and 20th century was concentrated in the metropolises in the western part of the continent. Nevertheless, traveling ethnic troupes and temporary exhibitions of non-European humans took place also in territories located to the east of the Oder river and Austria. The contributors to this edited volume present practices of ethnographic shows in Russia, Poland, Czechia, Slovenia, Hungary, Germany, Romania, and Austria and discuss the reactions of local audiences. The essays offer critical arguments to rethink narratives of cultural encounters in the context of ethnic shows. By demonstrating the many ways in which the western models and customs were reshaped, developed, and contested in Central and Eastern European contexts, the authors argue that the dominant way of characterizing these performances as "human zoos" is too narrow. The contributors had to tackle the difficult task of finding traces other than faint copies of official press releases by the tour organizers. The original source material was drawn from local archives, museums, and newspapers of the discussed period. A unique feature of the volume is the rich amount of images that complement every single case study of ethnic shows.*
