LINED NOTEBOOK: JOURNAL WITH QUOTE - GIFTS FOR MENTOR

★★★ *This journal with a quote on the cover can be used as a notebook or diary. ★★★ It is Perfect for taking notes, organizing daily activities, creating stories, making lists, doodling and brainstorming This Journal Features 119 high quality bright white pages with lines (27 lines per page) Full size duo sided blank sheets Sturdy and matte full color softbound cover 6 x 9" dimensions (5.24 x 22.86 cm); versatile & portable size for home and work Makes a Perfect Gift Idea for Thank you, Teacher's Day, Birthday, Christmas Gifts... (Special Occasion Gifts) Journal & Planner Lovers Home Crafting Lovers Gift Baskets & Stocking Stuffers ★★★ Click the orange "Add To Cart" button on the right to get it now! This journal is going to be discounted for a limited time ! ★★★*

SECRETS OF METHAMPHETAMINE MANUFACTURE

INCLUDING RECIPES FOR MDA, ECSTASY, AND OTHER PSYCHEDELIC AMPHETAMINES

This title is out of print as of 03/02/2005. A new revised and updated edition: Secrets of Methamphetamine Manufacture, 7th Edition, will be available as of 03/08/2005.

CORPORATE RESTRUCTURING AND INDUSTRIAL RESEARCH AND DEVELOPMENT

National Academies Press *The debate about the effects of corporate restructuring on industrial investment in research and development has important implications for public policy, since research and development is vital to the nation's ability to compete in the global marketplace. Researchers worry that debt service will cut research and development funds; financiers argue that restructuring improves corporate efficiency without affecting research and development expenditures. This book eminated from a symposium sponsored by the Academy Industry Program. The speakers represented a range of opinions from government, Wall Street, industry, and academia. In addition to helping all sides in the dialogue learn something of the others' needs and expectations by presenting various points of view on the issue, the discussions identify areas in which more research is needed to guide policy decisions.*

THE 5AM CLUB

OWN YOUR MORNING. ELEVATE YOUR LIFE.

HarperCollins *Legendary leadership and elite performance expert Robin Sharma introduced The 5am Club concept over twenty years ago, based on a revolutionary morning routine that has helped his clients maximize their productivity, activate their best health and bulletproof their serenity in this age of overwhelming complexity. Now, in this life-changing book, handcrafted by the author over a rigorous four-year period, you will discover the early-rising habit that has helped so many accomplish epic results while upgrading their happiness, helpfulness and feelings of aliveness. Through an enchanting—and often amusing—story about two struggling strangers who meet an eccentric tycoon who becomes their secret mentor, The 5am Club will walk you through: How great geniuses, business titans and the world’s wisest people start their mornings to produce astonishing achievements A little-known formula you can use instantly to wake up early feeling inspired, focused and flooded with a fiery drive to get the most out of each day A step-by-step method to protect the quietest hours of daybreak so you have time for exercise, self-renewal and personal growth A neuroscience-based practice proven to help make it easy to rise while most people are sleeping, giving you precious time for yourself to think, express your creativity and begin the day peacefully instead of being rushed “Insider-only” tactics to defend your gifts, talents and dreams against digital distraction and trivial diversions so you enjoy fortune, influence and a magnificent impact on the world Part manifesto for mastery, part playbook for genius-grade productivity and part companion for a life lived beautifully, The 5am Club is a work that will transform your life. Forever.*

THE BIG SHORT: INSIDE THE DOOMSDAY MACHINE (MOVIE TIE-IN)

W. W. Norton & Company *The #1 New York Times bestseller—Now a Major Motion Picture from Paramount Pictures From the author of The Blind Side and Moneyball, The Big Short tells the story of four outsiders in the world of high-finance who predict the credit and housing bubble collapse before anyone else. The film adaptation by Adam McKay (Anchorman I and II, The Other Guys) features Academy Award® winners Christian Bale, Brad Pitt, Melissa Leo and Marisa Tomei; Academy Award® nominees Steve Carell and Ryan Gosling. When the crash of the U.S. stock market became public knowledge in the fall of 2008, it was already old news. The real crash, the silent crash, had taken place over the previous year, in bizarre feeder markets where the sun doesn’t shine and the SEC doesn’t dare, or bother, to tread. Who understood the risk inherent in the assumption of ever-rising real estate prices, a risk compounded daily by the creation of those arcane, artificial securities loosely based on piles of doubtful mortgages? In this fitting sequel to Liar’s Poker, Michael Lewis answers that question in a narrative brimming with indignation and dark humor.*

GLOBAL TRENDS 2030

ALTERNATIVE WORLDS

Createspace Independent Publishing Platform *This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment 8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information Technologies 83 AUTOMATION AND MANUFACTURING TECHNOLOGIES 87 Resource Technologies 90 Health Technologies 95 The Role of the United States 98 Steady US Role 98 Multiple Potential Scenarios for the United States' Global Role 101 Alternative Worlds 107 Stalled Engines 110 FUSION 116 Gini-out-of-the-Bottle 122 Nonstate World 128 Acknowledgements 134 GT2030 Blog References 137 Audience: Appropriate for anyone, from businesses to banks, government agencies to start-ups, the technology sector to the teaching sector, and more. This publication helps anticipate where the world will be: socially, politically, technologically, and culturally over the next few decades. Keywords: Global Trends 2030 Alternative Worlds, global trends 2030, Global Trends series, National Intelligence Council, global trajectories, global megatrends, geopolitics, geopolitical changes*

HENRY V

Courier Corporation Popular, much-studied drama focuses on the young warrior king — from his decision to press England's claim to the French throne, to his role in one of the greatest military triumphs in English history.

2021 INTERNATIONAL SWIMMING POOL AND SPA CODE

The only comprehensive swimming pool code coordinated with the current requirements in the I-Codes and APSP standards. Developed with the Association of Pool & Spa Professionals (APSP), to establish minimum regulations for public and residential pools, spas, and hot tubs using prescriptive and performance-related provisions. The ISPSC integrates seamlessly with the family of I-Codes and contains requirements that meet or exceed the Virginia Graeme Baker Act. The ISPSC also contains APSP-7 Standard for Suction Entrapment Avoidance. Important changes in the 2021 ISPSC include: It was clarified that flotation tank systems for sensory deprivation therapy are not within the scope of the ISPSC. Hot water storage tanks are now required to be listed and labeled to a standard. New sections were introduced into the code to cover solar thermal water heating systems. Installation requirements refer to the IMC.

SMALL & DECENTRALIZED WASTEWATER MANAGEMENT SYSTEMS

McGraw-Hill Science/Engineering/Math This text presents a comprehensive design of both conventional and innovative systems for the treatment and disposal or reuse of the treated effluent. Decentralized Wastewater Management focuses on smaller treatment plants, which most new engineers will deal with early in their professional careers.

NATIONAL ELECTRICAL CODE 1999

Arden Shakespeare Revised every three years, the National Electric Code (NEC) is the most widely used and accepted criteria for all electrical installations. Containing up-to-the-minute facts and safety guidelines electricians need to avoid costly errors, the NEC remains a "must-have" reference for anyone involved in electrical design installation, identification, and/or inspection--it is adopted as law by most states and cities.

GLOBAL TRENDS 2030

ALTERNATIVE WORLDS : A PUBLICATION OF THE NATIONAL INTELLIGENCE COUNCIL

U.S. Government Printing Office This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

EARTH DAY

Pebble Books Earth Day celebrates our beautiful planet and calls us to act on its behalf. Some people spend the day planting flowers or trees. Others organize neighborhood clean-ups, go on nature walks, or make recycled crafts. Readers will discover how a shared holiday can have multiple traditions and be celebrated in all sorts of ways.

VENTILATION QUESTIONS AND ANSWERS

THE ULTIMATE CHEST FREEZER COLD PLUNGE DIY GUIDE

Regular cold-water immersion can improve your physical health and emotional well-being. Whether you are an elite athlete, a bio-hacker, a health and fitness enthusiast, or someone who is trying to reboot your immune system, cold water might be the missing piece to enhance your results. However, if you live in a warm climate, what options do you have? Cold showers are a good place to start, but do not provide consistent temperatures year-round, and most people find them to be uncomfortable at best. Buying and hauling ice gets expensive and takes a lot of time. Cryotherapy chambers are inconvenient and expensive. Commercially built cold plunges can cost several thousand - or tens of thousands - of dollars. So, what is a great solution for the average person? Convert a chest freezer into a cold plunge! However, chest freezers are not meant to hold water. Creating a personal cold plunge from a chest freezer is fraught with potential problems and missteps. If you don't set it up correctly, you can damage or break your chest freezer, waste hundreds of dollars and countless hours of time, or worse, injure yourself. After two years of research and modifications and helping more than 1,500 people from 72 countries in a private online group, John Richter has created a guide book that helps you convert a chest freezer into a cold plunge while avoiding costly mistakes and frustration. The Ultimate Chest Freezer Cold Plunge DIY Guide helps you: - Select the best chest freezer - Design options for various budgets - Prevent rust and other damage- Choose equipment for easy use and maintenance- Keep your water clean- with or without chemicals- Be safe- Set the optimal temperature- Create a cold-water practice- Find the best training- Avoid costly mistakes- And much more Each chapter is easy to read and offers step-by-step directions. The book includes a buyer's guide, setup checklist, and a FAQ that answers more than 50 questions. This book is a must-have for professional athletes, students of the Wim Hof Method, followers of Dr. Jack Kruse, and anyone else who wants to take the benefits of cold training to the next level.

TRADEMARKS AND PRODUCT NAMES SECTION

FINITE-STATE LANGUAGE PROCESSING

MIT Press Finite-state devices, which include finite-state automata, graphs, and finite-state transducers, are in wide use in many areas of computer science. Recently, there has been a resurgence of the use of finite-state devices in all aspects of computational linguistics, including dictionary encoding, text processing, and speech processing. This book describes the fundamental properties of finite-state devices and illustrates their uses. Many of the contributors pioneered the use of finite-automata for different aspects of natural language processing. The topics, which range from the theoretical to the applied, include finite-state morphology, approximation of phrase-structure grammars, deterministic part-of-speech tagging, application of a finite-state intersection grammar, a finite-state transducer for extracting information from text, and speech recognition using weighted finite automata. The introduction presents the basic theoretical results in finite-state automata and transducers. These results and algorithms are described and illustrated with simple formal language examples as well as natural language examples. Contributors: Douglas Appelt, John Bear, David Clemenceau, Maurice Gross, Jerry R. Hobbs, David Israel, Megumi Kameyama, Lauri Karttunen, Kimmo Koskenniemi, Mehryar Mohri, Eric Laporte, Fernando C. N. Pereira, Michael D. Riley, Emmanuel Roche, Yves Schabes, Max D. Silberztein, Mark Stickel, Pasi Tapanainen, Mabry Tyson, Atro Voutilainen, Rebecca N. Wright. ROCK BLASTING AND OVERBREAK CONTROL

GUYTON AND HALL TEXTBOOK OF MEDICAL PHYSIOLOGY E-BOOK

Elsevier Health Sciences Known for its clear presentation style, single-author voice, and focus on content most relevant to clinical and pre-clinical students, Guyton and Hall Textbook of Medical Physiology, 14th Edition, employs a distinctive format to ensure maximum learning and retention of complex concepts. A larger font size emphasizes core information, while supporting information, including clinical examples, are detailed in smaller font and highlighted in pale blue - making it easy to quickly skim the essential text or pursue more in-depth study. This two-tone approach, along with other outstanding features, makes this bestselling text a favorite of students worldwide. Offers a clinically oriented perspective written with the clinical and preclinical student in mind, bridging basic physiology with pathophysiology. Focuses on core material and how the body maintains homeostasis to remain healthy, emphasizing the important principles that will aid in later clinical decision making. Presents information in short chapters using a concise, readable voice that facilitates learning and retention. Contains more than 1,200 full-color drawings and diagrams - all carefully crafted to make

physiology easier to understand. Features expanded clinical coverage including obesity, metabolic and cardiovascular disorders, Alzheimer's disease, and other degenerative diseases. Includes online access to interactive figures, new audio of heart sounds, animations, self-assessment questions, and more. Evolve Instructor site with an image and test bank is available to instructors through their Elsevier sales rep or via request at <https://evolve.elsevier.com>.

BUILDING NATURAL PONDS

CREATE A CLEAN, ALGAE-FREE POND WITHOUT PUMPS, FILTERS, OR CHEMICALS

New Society Publishers Build a natural pond for wildlife, beauty, and quiet contemplation Typical backyard ponds are a complicated mess of pipes, pumps, filters, and nasty chemicals designed to adjust pH and keep algae at bay. Hardly the bucolic, natural ecosystem beloved by dragonflies, frogs, and songbirds. The antidote is a natural pond, free of hassle, cost, and complexity and designed as a fully functional ecosystem, ideal for biodiversity, swimming, irrigation, and quiet contemplation. Building Natural Ponds is the first step-by-step guide to designing and building natural ponds that use no pumps, filters, chemicals, or electricity and mimic native ponds in both aesthetics and functionality. Highly illustrated with how-to drawings and photographs, coverage includes: Understanding pond ecosystems and natural algae control Planning, design, siting, and pond aesthetics Step-by-step guidance for construction, plants and fish, and maintenance and trouble shooting Scaling up to large ponds, pools, bogs, and rain gardens. Whether you're a backyard gardener looking to add a small serene natural water feature or a homesteader with visions of a large pond for fish, swimming, and irrigation, Building Natural Ponds is the complete guide to building ponds in tune with nature, where plants, insects, and amphibians thrive in blissful serenity. Robert Pavlis , a Master Gardener with over 40 years of gardening experience, is owner and developer of Aspen Grove Gardens, a six-acre botanical garden featuring over 2,500 varieties of plants. A well-respected speaker and teacher, Robert has published articles in Mother Earth News , Ontario Gardening magazine, the widely read blog GardenMyths.com, which explodes common gardening myths and gardening information site GardenFundamentals.com.

FRANCIS BACON

A&C Black Francis Bacon is Deleuze's long-awaited work on Bacon, widely regarded as the one of the most radical painters of the twentieth century. The book presents a deep engagement with Bacon's work and the nature of art. Deleuze analyses the distinctive innovations that came to mark Bacon's style while introducing a number of his own famous concepts. Deleuze links Bacon's work to Cezanne's notion of a "logic" of sensation, which reaches its summit in colour. Investigating this logic, Deleuze explores Bacon's crucial relation to past painters such as Velasquez, Cezanne, and Soutine, as well as Bacon's rejection of expressionism and abstract painting.

COMMUNICATION, CONTROL, AND COMPUTER ACCESS FOR DISABLED AND ELDERLY INDIVIDUALS

Trace Research and Development Center Waisman Center One of a series of three resource guides concerned with communication, control, and computer access for the disabled or the elderly, the book focuses on hardware and software. The guide's 13 chapters each cover products with the same primary function. Cross reference indexes allow access to listings of products by function, input/output feature, and computer model. Switches are listed separately by input/output features. Typically provided for each product are usually an illustration, the product name, vendor, size, weight, power source, connector type, cost, and a description. Part I, "Computer Adaptations," presents the following types of items: modifications for standard keyboards; alternate inputs usable with all software; input devices usable with only some software; input adapters for computers; alternate display systems usable with all software; Braille printers and tactile display components; speech synthesizers; and other software and hardware adaptations. Part II, "Application Software for Special Ed and Rehab," includes software for administration and management; assessment; education, training, and therapy; recreation; and personal tools or aids. Appendixes include a list of additional sources of information, a glossary, addresses of manufacturers listed with their products, and an alphabetical listing of all products in the 3-book series. (DB)

TRENDS IN GPR AND OTHER NDTs FOR TRANSPORT INFRASTRUCTURE ASSESSMENT

Mdpi AG This book is a printed edition of the Special Issue "Trends in GPR and other NDTs for Transport Infrastructure Assessment" that was published in Remote Sensing. This compilation of papers has been published to offer an extensive up-to-date overview of the state-of-the-art research activities in the challenging field of applying Ground-Penetrating Radar (GPR) and other nondestructive testing (NDT) methods for the assessment of transport infrastructure. New findings are addressed in 12 original research papers and 1 review paper, including various subjects such as pavements, railways, bridges, tunnels, and retaining walls. The best practices, troubleshooting, and future perspectives of the method for infrastructure inspection are also discussed in this reprint.

HARPER'S ELECTRICITY BOOK FOR BOYS

Good Press "Harper's Electricity Book for Boys" by Joseph H. Adams. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

WAVE PROPAGATION AND GROUP VELOCITY

Academic Press Wave Propagation and Group Velocity contains papers on group velocity which were published during the First World War and are missing in many libraries. It introduces three different definitions of velocities: the group velocity of Lord Rayleigh, the signal velocity of Sommerfeld, and the velocity of energy transfer, which yields the rate of energy flow through a continuous wave and is strongly related to the characteristic impedance. These three velocities are identical for nonabsorbing media, but they differ considerably in an absorption band. Some examples are discussed in the last chapter dealing with guided waves, and many other cases of application of these definitions are quoted. These problems have come again into the foreground, in connection with the propagation of radio signals and radar. Reflection in the Heaviside layers requires a real knowledge of all these different definitions. Group velocity also plays a very important role in wave mechanics and corresponds to the speed of a particle. The present book should be very useful to physicists and radio engineers and should give them a good basis for new discussions and applications.

AIR QUALITY AND SOURCE APPORTIONMENT

MDPI This book is a printed edition of the Special Issue "Air Quality and Source Apportionment" that was published in Atmosphere

SAFETY BARRIER GUIDELINES FOR HOME POOLS

GARDEN MYTHS

Garden Myths examines over 120 horticultural urban legends. Turning wisdom on its head, Robert Pavlis dives deep into traditional garden advice and debunks the myths and misconceptions that abound. He asks critical questions and uses science-based information to understand plants and their environment. Armed with the truth, Robert then turns this knowledge into easy-to-follow advice. - Is fall the best time to clean the garden? - Do bloom boosters work?- Will citronella plants reduce mosquitoes in the garden?- Do pine needles acidify soil?- Should tomatoes be suckered?- Should trees be staked at planting time? - Can burlap keep your trees warm in winter?- Will a pebble tray increase humidity for houseplants? "Garden Myths is a must-read for anyone who wants to use environmentally sound practices. This fascinating and informative book will help you understand plants better, reduce unnecessary work, convince you to buy fewer products and help you enjoy gardening more."

PARALLEL TEXT PROCESSING

ALIGNMENT AND USE OF TRANSLATION CORPORA

Springer Science & Business Media With the rising importance of multilingualism in language industries, brought about by global markets and world-wide information exchange, parallel corpora, i.e. corpora of texts accompanied by their translation, have become key resources in the development of natural language processing tools. The applications based upon parallel corpora are numerous and growing in number: multilingual lexicography and terminology, machine and human translation, cross-language information retrieval, language learning, etc. The book's chapters have been commissioned

from major figures in the field of parallel corpus building and exploitation, with the aim of showing the state of the art in parallel text alignment and use ten to fifteen years after the first parallel-text alignment techniques were developed. Within the book, the following broad themes are addressed: (i) techniques for the alignment of parallel texts at various levels such as sentence, clause, and word; (ii) the use of parallel texts in fields as diverse as translation, lexicography, and information retrieval; (iii) available corpus resources and the evaluation of alignment methods. The book will be of interest to researchers and advanced students of computational linguistics, terminology, lexicography and translation, both in academia and industry.

BEST PRACTICE EROSION AND SEDIMENT CONTROL

aThis document has been developed to provide assistance to erosion and sediment control practitioners in the planning, design, installation and maintenance of erosion and sediment control measures on construction and building sites.

BORROR AND DELONG'S INTRODUCTION TO THE STUDY OF INSECTS

Understand the insect world with BORROR AND DELONG'S INTRODUCTION TO THE STUDY OF INSECTS! Combining current insect identification, insect biology, and insect evolution, this biology text provides you with a comprehensive introduction to the study of insects. Numerous figures, bullets, easily understood diagrams, and numbered lists throughout the text help you grasp the material.

MATCHING BOOK FOR TODDLERS

FUN WITH MATCHING ALPHABET, NUMBER, SEASONS, MY FIVE SENSES, COLORS, PICTURES, SHADOWS, THE OPPOSITE, AND ANIMALS...

Independently Published *Learn the early essentials with fun shapes, animals, and colors—for kids ages +3! You want to help your Kids Matching Alphabet, Number, Seasons, shapes, My five senses, Colors, The opposite, ..? You are finding your book Also the help your Kids to build vocabulary and observational skills. My Matching Book For Toddlers is the best toddler Matching book for fun and learning that inspires hours of enjoyment—at home or in the classroom.*

POOL-SPA OPERATOR HANDBOOK

The Pool & Spa Operator(tm) Handbook, the official text for the Certified Pool/Spa Operator® (CPO®) certification program has been written to provide information and guidelines for the operation of spas and swimming pools used by the public.

FUNDAMENTALS OF AQUACULTURE

A STEP-BY-STEP GUIDE TO COMMERCIAL AQUACULTURE

Ava Publishing Company

AN INTRODUCTION TO THE STUDY OF INSECTS

KIDS' GUIDE TO LEARNING THE UKULELE

24 SONGS TO LEARN AND PLAY

Happy Fox Books *The benefits of music are monumental! Ukuleles are the perfect first instrument for kids to learn to play, and this book will show them why and how. Filled with basic instructions for holding positions, tuning, basic chords, and more, children will then learn and practice 24 songs, games, and activities. From songs about counting to songs about yoga, each musical activity provides a rich and playful learning experience kids will love! Award-winning children's songwriter, YouTube sensation, and official Kala Brand artist, author Emily Arrow has over 10 years of experience working with children and teachers in music education.*
