The multitudes of flexibilities in Windows 8 have showed some of the ways Microsoft has reengineered the Windows interface for a new generation of touch-centric hardware, and a generation of users who craves for a more simplified yet futuristic Operating System. For a novice, and even the average computer user, the functional nature of Windows 8 may seem to be nothing more than a technology drawn from an advance alien planet. Hence, this Reference Book (by Software Engineer, Dennis Adonis) is intended to address the possible challenges that can be faced by first time users of the Windows 8 Operating System.**

### [Special Focus – Headnotes, Footnotes, Endnotes]

Walter de Gruyter GmbH & Co KG While paratexts - among them headnotes, footnotes, or endnotes - have never been absent from American literature, the last two decades have seen an explosion of the phenomenon, including (mock) scholarly footnotes, to an extent that they seem to take over the text itself. In this Special Focus we shall attempt to find the reasons for this astonishing development. In our first (diachronic) section we shall explore such texts as might have fostered the present boom, from fictions by Edgar Allan Poe to Vladimir Nabokov to Mark Z. Danielewski. The second (synchronic) section, will concentrate on paratexts by David Foster Wallace, perhaps the “father” of the post-postmodern footnote, as well as those to be found in novels by Bennett Sims, Jennifer Egan and Junot Diaz, among

others. It appears that, while paratexts definitely point to a high degree of self-reflexivity in the author, they equally draw attention to the textual and authorial functions of the works in which they exist. They can thus cause a reflection on the boundaries between genres like fiction, faction, and autobiography, as well as serving to highlight a host of pedagogical and social concerns that exist in the interstices between fiction and reality.

## The Princess and the Rogue in The Spell of the Sorceress

The second book is a continuation of book one. In essence, it chronicles the adventures of Li (the princess) and Aramis (a young Greek rogue) as they continue their travels together. Li now has the magical tears of Hathor that she wishes to take back to China to reverse the curse that has been placed on the kingdom and her father. In this book, the two meet a magi and his tribe, who have also been looking for the tears. They make friends with them and help them use some of the tears to rescue a pharaoh who has been trapped in a cursed pyramid. They then plan to go back to China, but their trip back takes them to a Greek island where Aramis meets an old friend who wants him to join him in fighting the Ottomans who have been sweeping through the lands. Li feels he should stay to fight with his countrymen and leaves on her own for China. Aramis tries to follow her but is captured by the Ottomans and imprisoned in Aku. Meanwhile, Li returns to China and saves her father, but she becomes heartbroken as she misses Aramis. Zheng, the young prince who takes over for the emperor when he dies, falls in love with Li, but Li does not want to marry him. What then occurs is a series of adventures in which Li becomes entrapped and Aramis escapes from his prison and finds a way to China, where he rescues Li.

## Synopsis Mammalium. Addenda, Emendanda Et Index Ad Synopsis [!] Mammalium

# Alone in the Muck

**Systema Paradoxa** There are creatures lurking in our world. Obscure creatures long relegated to myth and legend. They have been sighted by a lucky-or unlucky-few, some have even been photographed, but their existence remains unproven and unrecognized by the scientific community. These creatures, long thought gone, have somehow survived; creatures from our nightmares haunting the dark places. They swim in our lakes and bays, they soar the night skies, they hunt in the woods. Some are from our past, and some from other worlds, and others that have always been with us-watching us, fearing us, hunting us. These are the cryptids, and Systema Paradoxa tells their tales. \*\*\* After what felt like a lifetime in the sewers, Inspector Max Dalton would have thought he'd seen everything. He would have been wrong. When his trainees discover something inexplicable in the muck, life changes radically for all of them, including Max's granddaughter, Gwen. News of their discovery gets out and bounty hunters invade the tunnels beneath the city, forcing Max's cooperation in their fruitless search. With life and love and liberty in the balance, Gwen will need help from an unexpected source to evade those looking to capture her new friend.

## Nanoscience in Food and Agriculture 3

**Springer** This book is the third volume on Nanoscience in Food and Agriculture, published in the Sustainable Agriculture Reviews series. In this book we present ten chapters describing the synthesis and application of nanomaterials for health, food, agriculture and bioremediation. Nanomaterials with unique properties are now being used to improve food and agricultural production. Research on nanomaterials is indeed revealing new applications that were once thought to be imaginary. Specifically, applications lead to higher crop productivity with nanofertilisers, better packaging, longer food shelf life and better sensing of aromas and contaminants. These applications are needed in particular in poor countries where food is scarce and the water quality bad. Nanotechnology also addresses the age old issue of water polluted by industrial, urban and agricultural pollutants. For instance, research produces nanomaterials that clean water more efficiently than classical methods, thus yielding water for drinking and irrigation. However, some nano materials have been found to be toxic. Therefore, nanomaterials should be engineered to be safe for the environment.

## T. F. Torrance and Eastern Orthodoxy Theology in Reconciliation

**Wipf and Stock Publishers** A properly ecumenical theology, T. F. Torrance believed, points the church to Christ as the only source and reality of its own unity. Its only hope for unity must be discovered in him and unveiled to the church, rather than pieced together and manufactured through ecumenical slogans and well-meaning intentions. Acting on this belief, Torrance initiated an international dialogue of Reformed and Orthodox Churches, which culminated when the World Alliance of Reformed Churches and the Orthodox Church issued a groundbreaking joint statement of agreement concerning the Trinity in 1991, a move beyond the filioque controversy that has divided East and West for a millennium. The current volume on T. F. Torrance and Eastern Orthodoxy continues the theological and ecclesial work of the reintegration of Western and Eastern traditions on a classical patristic foundation.
