A Dispute Resolution Handbook

"Recourse to dispute resolution processes such as mediation and arbitration is increasing as litigants look for more practical means of resolving their disputes. This authoritative and accessible work provides practical advice on how to select, prepare for and engage in a range of dispute resolution processes. Practical and portable, and including examples, forms, checklists and sample documents, this handbook is a reference source for anyone who is involved in a dispute resolution process."--Pub. desc.

Model Rules of Professional Conduct

American Bar Association The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Civil Justice, Privatization, and Democracy

University of Toronto Press Privatization is occurring throughout the public justice system, including courts, tribunals, and state-sanctioned private dispute resolution regimes. Driven by a widespread ethos of efficiency-based civil justice reform, privatization claims to decrease costs, increase speed, and improve access to the tools of justice. But it may also lead to procedural unfairness, power imbalances, and the breakdown of our systems of democratic governance. Civil Justice, Privatization, and Democracy demonstrates the urgent need to publicize, politicize, debate, and ultimately temper these moves towards privatized justice. Written by Trevor C.W. Farrow, a former litigation lawyer and current Chair of the Canadian Forum on Civil Justice, Civil Justice, Privatization, and Democracy does more than just bear witness to the privatization initiatives that define how we think about and resolve almost all non-criminal disputes. It articulates the costs and benefits of these privatizing initiatives, particularly their potential negative impacts on the way we regulate ourselves in modern democracies, and it makes recommendations for future civil justice practice and reform.

The LegalTech Book

The Legal Technology Handbook for Investors, Entrepreneurs and FinTech Visionaries

John Wiley & Sons Written by prominent thought leaders in the global fintech and legal space, *The LegalTech Book* aggregates diverse expertise into a single, informative volume. Key industry developments are explained in detail, and critical insights from cutting-edge practitioners offer first-hand information and lessons learned. A Handbook of Dispute Resolution

ADR in Action

Psychology Press An authoritative analysis of the facilities available for resolving industrial disputes by third parties.

Conciliation and Mediation in India

Kluwer Law International B.V. Global Trends in Dispute Resolution Series, Volume 11 It can be said that negotiation is about what to do, whereas mediation is about how to do it—how to make sure control is in the hands of the disputants. Although mediation (as well as conciliation) is taking hold in dispute resolution worldwide, among the nations, India shows the strongest signs of interest in developing a pervasive legal mediation culture. In this invaluable book, more than 20 formidable thought leaders with global reputations in dispute resolution describe how mediation is used, and can be used, to resolve different types of disputes in India and international cases. With a focus throughout on the law and procedure applicable to conciliation and mediation in India—addressing the involvement of each of the stakeholders in the process (with relevant hints on practice)—the contributors examine such issues and topics as the following: mediator ethics; court-annexed mediation; institutional mediation; mediating commercial disputes; mediating company, insolvency, and bankruptcy disputes; mediating government disputes; mediating investor-state disputes; mediating family disputes; e-mediation; community mediation and citizen empowerment; mixed-mode dispute resolution; and cross-border enforcement of mediated settlements. Two practice-oriented chapters synthesize the process, techniques, and approaches that experienced mediators and mediation advocates have found to be most valuable in their preparation for a mediation. Included is a detailed commentary on Part III of the Arbitration and Conciliation Act 1996 and the 2018 Singapore Convention on Mediation. There is little doubt that mediation is the dispute resolution choice of the next-generation lawyer. Present-day lawyers, judges, and users are becoming increasingly convinced that early conflict resolution through facilitated negotiations avoids the pitfalls of adversarial modes of dispute resolution, especially in terms of user satisfaction. This book takes into account where India stands at present, covering statutes, international conventions, and academic literature, thus bequeathing a broad understanding of the subject for legal practitioners, judges, arbitrators, mediators and conciliators, users, and technical experts who wish to understand it.

Alternative Dispute Resolution in Tanzania

Law and Practice

African Books Collective Today, Alternative Dispute Resolution (ADR) has gained international recognition and is widely used to complement the conventional methods of resolving disputes through courts of law. ADR simply entails all modes of dispute settlement/resolution other than the traditional approaches of dispute settlement through courts of law. Mainly, these modes are: negotiation, mediation, [re]conciliation, and arbitration. The modern ADR movement began in the United States as a result of two main concerns for reforming the American justice system: the need for better-quality processes and outcomes in the judicial system; and the need for efficiency of justice. ADR was transplanted into the African legal systems in the 1980s and 1990s as a result of the liberalization of the African

economies, which was accompanied by such conditionalities as reform of the justice and legal sectors, under the Structural Adjustment Programmes. However, most of the methods of ADR that are promoted for inclusion in African justice systems are similar to pre-colonial African dispute settlement mechanisms that encouraged restoration of harmony and social bonds in the justice system. In Tanzania ADR was introduced in 1994 through Government Notice No. 422, which amended the First Schedule to the Civil Procedure Code Act (1966), and it is now an inherent component of the country's legal system. In recognition of its importance in civil litigation in Tanzania, ADR has been made a compulsory subject in higher learning/training institutions for lawyers. This handbook provides theories, principles, examples of practice, and materials relating to ADR in Tanzania and is therefore an essential resource for practicing lawyers as well as law students with an interest in Tanzania. It also contains additional information on evolving standards in international commercial arbitration, which are very useful to legal practitioners and law students.

The Oxford Handbook of International Organizations

Oxford University Press Virtually every important question of public policy today involves an international organization. From trade to intellectual property to health policy and beyond, governments interact with international organizations in almost everything they do. Increasingly, individual citizens are directly affected by the work of international organizations. Aimed at academics, students, practitioners, and lawyers, this book gives a comprehensive overview of the world of international organizations today. It emphasizes both the practical aspects of their organization and operation, and the conceptual issues that arise at the junctures between nation-states and international authority, and between law and politics. While the focus is on inter-governmental organizations, the book also encompasses non-governmental organizations and public policy networks. With essays by the leading scholars and practitioners, the book first considers the main international organizations and the kinds of problems they address. This includes chapters on the organizations that relate to trade, humanitarian aid, peace operations, and more, as well as chapters on the history of international organizations. The book then looks at the constituent parts and internal functioning of international organizations. This addresses the internal management of the organization, and includes chapters on the distribution of decision-making power within the organizations, the structure of their assemblies, the role of Secretaries-General and other heads, budgets and finance, and other elements of complex bureaucracies at the international level. This book is essential reading for scholars, practitioners, and students alike.

Routledge Handbook of Financial Technology and Law

Routledge Financial technology is rapidly changing and shaping financial services and markets. These changes are considered making the future of finance a digital one. This Handbook analyses developments in the financial services, products and markets that are being reshaped by technologically driven changes with a view to their policy, regulatory, supervisory and other legal implications. The Handbook aims to illustrate the crucial role the law has to play in tackling the revolutionary developments in the financial sector by offering a framework of legally enforceable principles and values in which such innovations might take place without threatening the acquis of financial markets law and more generally the rule of law and basic human rights. With contributions from international leading experts, topics will include: Policy, High-level Principles, Trends and Perspectives Fintech and Lending Fintech and Payment Services Fintech, Investment and Insurance Services Fintech, Financial Inclusion and Sustainable Finance Cryptocurrencies and Cryptoassets Markets and Trading Regtech and Suptech This Handbook will be of great relevance for practitioners and students alike, and a first reference point for academics researching in the fields of banking and financial markets law.

Michigan Court Rules

And Michigan Judicature Act Annotated

A Handbook on the WTO Dispute Settlement System

Cambridge University Press The WTO dispute settlement system has become one of the most dynamic, effective and successful international dispute settlement systems in the world over the past twenty years. This second edition of A Handbook on the WTO Dispute Settlement System has been compiled by the dispute settlement lawyers of the WTO Secretariat with a view to providing a practice-oriented account of the system. In addition to describing the existing rules and procedures, this accessibly written handbook explains how those rules and procedures have been interpreted by dispute settlement panels and the Appellate Body, and how they have evolved over time. The handbook provides practical information to help various audiences understand the day-to-day operation of the WTO dispute settlement system.

Settling Disputes

Conflict Resolution In Business, Families, And The Legal System, Second Edition

Routledge Within the past few years, innovative methods have been developed not only to settle disputes out of court but also to supplement or replace the means by which legislatures, businesses, communities, therapists, and schools handle conflicts that once could be resolved only by litigation or force. *Settling Disputes* serves as an essential guide to the new settlement alternatives. This updated edition, in response to the rapid changes of the past five years, includes substantial new material that describes recent transformations in the way that courts and public agencies respond to disputes. The book discusses alternative dispute resolution from the viewpoints of potential participants and offers advice to those who are involved in disputes to help them analyze their situations and goals. Finally, it provides suggestions for professionals involved in dispute resolution and for those whose jobs in law, business, or government are affected by the new options for settling disputes. The dispute resolution movement continues to offer the most hopeful, powerful alternative to the business and personal costs of litigation or, worse, of violence. It has tremendous implications for the professional lives of Americans, for their private lives—as parents, spouses, neighbors, and consumers—and for their role as citizens. The first edition of *Settling Disputes* was awarded the 1990 Center for Public Resources Book Prize.

The Complete Guide to Mediation

How to Effectively Represent Your Clients and Expand Your Family Law Practice

Civil Trials Bench Book

This book provides guidance for judicial officer in the conduct of civil proceedings, from preliminary matters to the conduct of final proceedings and the assessment of damages and costs. It contains concise statements of relevant legal principles, references to legislation, sample orders for judicial official to use where suitable and checklists applicable to various kinds of issues that arise in the course of managing and conducting civil litigation.

Mediation

Principles and Regulation in Comparative Perspective

Oxford University Press Mediation provides an attractive alternative to resolving disputes through court proceedings. Mediation promises just results in the interest of all parties concerned, a reduction of the court caseload, and cost savings for the parties involved as well as for the treasury. The European Directive on Mediation has given mediation in Europe new momentum by establishing a common framework for cross-border mediation. Beyond Europe, many states have tried in recent years to answer the question whether, and if so, how mediation should be regulated at a national and international level. The aim of this book is to promote the understanding and discussion of regulatory issues by presenting comparative research on mediation. It describes and analyses the law and practice of mediation in twenty-two countries. Europe is represented by chapters on mediation in Austria, Bulgaria, England, France, Germany, Greece, Hungary, Ireland, Italy, the Netherlands, Norway, Poland, Portugal and Spain. The world beyond Europe is analysed in chapters on mediation in Australia, Canada, China, Japan, New Zealand, Russia, Switzerland and the USA. Against this background, further chapters on fundamental issues identify possible regulatory models and discuss central principles of mediation law and practice. In particular, the work considers harmonisation and diversity in the law of mediation as well as the economic and constitutional problems associated with privatising civil justice. To the extent available, empirical research is used as a point of reference in the critical analysis.

The Cambridge Handbook of Class Actions An International Survey

Economic activity is more globally integrated than ever before, but so is the scope of corporate misconduct. As more and more people across the world are affected by such malfeasance, the differences in legal redress have become increasingly visible. This transparency has resulted in a growing convergence towards an American model of robust private enforcement of the law, including the class-action lawsuit. This handbook brings together scholars from nearly two dozen countries to describe and assess the class-action procedure (or its equivalent) in their respective countries and, where possible, to offer empirical data on these systems. At the same time, the work presents a variety of multidisciplinary perspectives on class actions, from economics to philosophy, making this handbook an essential resource to academics, lawyers, and policymakers alike.

Litigation Services Handbook

The Role of the Financial Expert

John Wiley & Sons Here's all the information you need to provide your clients with superior litigation support services. Get up to speed quickly, with the aid of top experts, on trial preparation and testimony presentation, deposition, direct examination, and cross-examination. Readers will find: Many examples and vignettes Rubrics and checklists for implementation of plans CD-ROM complete with slides and notes for workshop presentations

The SAGE Handbook of Conflict Resolution

SAGE The SAGE Handbook of Conflict Resolution demonstrates the range of themes that constitute modern conflict resolution. It brings out its key issues, methods and dilemmas through original contributions by leading scholars in a dynamic and expanding field of inquiry. This handbook is exactly what it sets out to be: an indispensable tool for teaching, research and practice in conflict resolution' - Peter Wallensteen, Professor of Peace and Conflict Research, Uppsala University and University of Notre Dame 'Bercovitch, Kremenyuk and Zartman are among the most important figures in the conflict resolution field. They have pieced together, with the help of more than 35 colleagues from numerous countries, a state-of-the-art review of the sources of international conflict, available methods of conflict management, and the most difficult challenges facing the individuals and organizations trying to guide us through these conflict-ridden times. The collection is brimming with penetrating insights,

trenchant analyses, compelling cases, and disciplined speculation. They help us understand both the promise of as well as the obstacles to theory-building in the new field of conflict resolution' - Lawrence Susskind, Professor and Director of the MIT - Harvard Public Disputes Program 'The last three sentences of this persuasive book: "We conclude this volume more than ever convinced that conflict resolution is not just possible or desirable in the current international environment. It is absolutely necessary. Resolving conflicts and making peace is no longer an option; it is an intellectual and practical skill that we must all possess." If you are part of that "we," intellectually or professionally, you will find this book a superb companion' - Thomas C Schelling, Professor Emeritus, Harvard University and University of Maryland Conflict resolution is one of the fastest-growing academic fields in the world today. Although it is a relatively young discipline, having emerged as a specialized field in the 1950's, it has rapidly grown into a self-contained, vibrant, interdisciplinary field. The SAGE Handbook of Conflict Resolution brings together all the conceptual, methodological and substantive elements of conflict resolution into one volume of over 35 specially commissioned chapters. The Handbook is designed to reflect where the field is today by drawing on the contributions of experts from different fields presenting, in a systematic way, the most recent research and practice. Jacob Bercovitch is Professor of International Relations, and Fellow of the Royal Society, at the University of Canterbury in Christchurch, New Zealand. Victor Kremenyuk is deputy director of the Institute for USA and Canada Studies, Russian Academy of Sciences, Moscow. He is also a research associate at IIASA. I. William Zartman is Jacob Blaustein Professor of Conflict Resolution and International Organization at the Nitze School of Advanced International Studies of Johns Hopkins University

Occupational Outlook Handbook

Reducing Construction Costs

Uses of Best Dispute Resolution Practices by Project Owners: Proceedings Report

National Academies Press The National Academy of Construction (NAC) has determined that disputes, and their accompanying inefficiencies and costs, constitute a significant problem for the industry. In 2002, the NAC assessed the industry's progress in attacking this problem and determined that although the tools, techniques, and processes for preventing and efficiently resolving disputes are already in place, they are not being widely used. In 2003, the NAC helped to persuade the Center for Construction Industry Studies (CCIS) at the University of Texas and the Alfred P. Sloan Foundation to finance and conduct empirical research to develop accurate information about the relative transaction costs of various forms of dispute resolution. In 2004 the NAC teamed with the Federal Facilities Council (FFC) of the National Research Council to sponsor the "Government/Industry Forum on Reducing Construction Costs: Uses of Best Dispute Resolution Practices by Project Owners." The forum was held on September 23, 2004, at the National Academy of Sciences in Washington, D.C. Speakers and panelists at the forum addressed several topics. Reducing Construction Costs addresses topics such as the root causes of disputes and the impact of disputes on project costs and the economics of the construction industry. A second topic addressed was dispute resolution tools and techniques for preventing, managing, and resolving construction-related disputes. This report documents examples of successful uses of dispute resolution tools and techniques on some high-profile projects, and also provides ways to encourage greater use of dispute resolution tools throughout the industry. This report addresses steps that owners of construction projects (who have the greatest ability to influence how their projects are conducted) should take in order to make their projects more successful.

Child Neglect

A Guide for Prevention, Assessment, and Intervention

Litigating Animal Law Disputes

A Complete Guide for Lawyers

American Bar Association This is a fast-growing field of law, and today more and more lawyers are finding they have cases that deal with animal law. This one-stop resource contains every major aspect of private civil and criminal litigation of animal law disputes. United States Code

Annual Report to the Governor and the Legislature, ...

A Businessperson's Guide to Federal Warranty Law

Handbook on International Sports Law

Edward Elgar Publishing Despite taking a wide variety of forms, sport is universal. Circumstances and events generating legal issues in sport are similarly universal, but sport operates under many legal systems worldwide. Fragmentation and inconsistency in legal outcomes often result. This innovative collection of essays by leading scholars of sports law addresses a gap in the literature. It advances understanding of how different legal systems respond to common issues and offers insights into the developing international system of sports law. Researchers will find this book of inescapable assistance and interest. Hayden Opie, Melbourne Law School, Australia Nafziger and Ross have provided an enormously useful collection of incisive and integrating essays that cover the gamut of important issues in the emerging field of international sport law. Andrew Zimbalist, Smith College, US This Handbook presents a comprehensive collection of essays by leading scholars and practitioners in the burgeoning field of international sports law. The authors address significant legal issues on two gradually converging tracks: the mainstream institutional framework of the law, primarily the International Olympic Committee, international sports federations, regional and national sports authority, and the Court of Arbitration for Sport; and the commercial sports industry. Topics include the institutional structure; fundamental issues, legal principles and decisions within those institutions; mediation, arbitration and litigation of disputes; doping, gambling and the expanding use of technology in competition; athlete eligibility requirements; discrimination; and protection of athletes. The book also covers a broad range of commercial issues related to competition law and labor markets; media, image, and intellectual property rights; event sponsorships; and players' agents. Comparative analyses of young sports models and practices in North America, Europe and elsewhere supplement the general theme of international sports law. This major collection of essays on some of the most controversial, cutting-edge issues in international sports law, will be a captivating read for academics and students of sports law, sports management, international law and comparative law, as well as practicing lawyers and players agents. Senior executives and other professionals in the sports industry will also find much to interest them in this well-documented Handbook.

The Cambridge Handbook of Lawyering in the Digital Age

Cambridge University Press With increasing digitalization and the evolution of artificial intelligence, the legal profession is on the verge of being transformed by technology (legal tech). This handbook examines these developments and the changing legal landscape by providing perspectives from multiple interested parties, including practitioners, academics, and legal tech companies from different legal systems. Scrutinizing the real implications posed by legal tech, the book advocates for an unbiased, cautious approach for the engagement of technology in legal practice. It also carefully addresses the core question of how to balance fears of industry takeover by technology with the potential for using legal tech to expand services and create value for clients. Together, the chapters develop a framework for analyzing the costs and benefits of new technologies before they are implemented in legal practice. This interdisciplinary collection features contributions from lawyers, social scientists, institutional officials, technologists, and current developers of e-law platforms and services.

BRILL

Negotiating for Success: Essential Strategies and Skills

Van Rye Publishing, LLC We all negotiate on a daily basis. We negotiate with our spouses, children, parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders. Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways. First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract’s legal content should reflect the realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to

others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: "Life is negotiation!" No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its emphasis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when navigating through your life as a negotiator.

Commander's Legal Handbook

CreateSpace This Handbook is designed to assist Army Commanders in taking proper immediate action when faced with a variety of legal issues that might arise during your command. The purpose of your actions should be to preserve the legal situation until you can consult with your servicing Judge Advocate. However, like most aspects of your command responsibilities, you can fail if you just wait for things to come to you. You need to be proactive in preventing problems before they occur. In the legal arena, this means establishing and enforcing high standards, ensuring your Soldiers are fully aware of those standards and properly trained to comply with them. You must also properly train your Soldiers on all Army policies and higher level command standards so that they also understand and comply with them. Soldiers must also be well-versed in the Army Values and be able to apply those values to real- world situations, which will usually keep them well within legal bounds. Topics include: THE TOP TEN SITUATIONS WHERE YOU SHOULD IMMEDIATELY CONSULT YOUR SERVICING JUDGE ADVOCATE MILITARY JUSTICE/CRIMINAL LAW Introduction to Military Criminal Law Misconduct: Options and Duties Of The Commander Unlawful Command Influence R.C.M. 303 Preliminary Inquiry Non-Judicial Punishment, Article 15, UCMJ Article 15 Script Search and Seizure Self-Incrimination, Confessions, and Rights Warning UCMJ Punitive Articles Urinalysis, Drug and Alcohol Policies Fraternization and Improper Senior-Subordinate Relationships Proper Responses to Reports of Sexual Assault Victim -Witness Issues INVESTIGATIONS Administrative Investigations/References Intro AR 15-6 Investigations Accident Investigations (AR 385-10) Line of Duty Investigations (AR 600-8-4) Fatal Training/Operational Accident Presentations to Next Of Kin (AR 600-34) Financial Liability Investigations (AR 735-5) STANDARDS OF ETHICAL CONDUCT Standards of Conduct Commanders Coins Support to Non-Federal Entities Government Motor Vehicle Transportation Family Readiness Groups Accompanying Spousal Travel Annual Filing of Financial Disclosure Forms ADMINISTRATIVE LAW AND PERSONNEL ACTIONS "Flagging" Soldiers from Positive Personnel Actions Enlisted Separations Officer Separations Bars To Reenlistment - Field Initiated Qualitative Service Program (QSP) Removal of Enlisted Soldiers From Promotion Lists Removal of Commissioned and Warrant Officers From Promotion Lists Security Clearances - Suspension and Revocation Sexual Harassment Domestic Violence Amendment to the Gun Control Act (Lautenberg Amendment) & FAP Article 138 Complaints Relief from Command INDIVIDUAL SOLDIER RIGHTS Body Piercing & Tattoo Policy Conscientious Objection Behavioral Health Evaluations Command Access to a Soldier's Protected Health Information (HIPAA) Extremist Organizations and Activities Political Activities by Members of The Armed Forces Whistleblower Protection Service Member's Civil Relief Act (SCRA) Religious Accommodation INTERNATIONAL & OPERATIONAL LAW Rules of Engagement Law of Armed Conflict CLAIMS AND CLIENT SERVICES Article 139 Claims Foreign and Deployment Claims Family Support Obligations (AR 608-99) Debt and Consumer Protection GOVERNMENT INFORMATION PRACTICES Freedom of Information Act Program Privacy Act Program FISCAL LAW Fiscal Law for Commanders
