The course emphasizes both the application and learning of ECDIS in a variety of underway contexts. The course is designed to meet the STCW requirements in the use of ECDIS, as revised by the 2010 Manila Amendments. It should be understood that this is a generic course which requires a structured and complementary on-board ship specific ECDIS familiarization for each shipboard ECDIS system on which the navigating officer serves. Those who successfully complete the course should be able to demonstrate sufficient knowledge to undertake the duties assigned under the SSP. **Shipboard Automatic Identification System Displays Meeting the Needs of Mariners** Transportation Research Board Assesses the state of the art in Automatic Identification System (AIS) display technologies, evaluates system designs and capabilities, and reviews the human factors aspects associated with operating these systems. **The ECDIS Manual** Anchor Books The principles of navigation have not changed, but the art of navigation has.
