### Bakunin: Statism and Anarchy

### The Crowd

### A Study of the Popular Mind

### Networking

**BoD - Books on Demand Networking** means to create nets of relations, where the publisher and the reader, the artist and the audience, act on the same level. The book is a first tentative reconstruction of the history of artistic networking in Italy, through an analysis of media and art projects which during the past twenty years have given way to a creative, shared and aware use of technologies, from video to computers, contributing to the creation of Italian hacker communities. The Italian network proposes a form of critical information, disseminated through independent and collective projects where the idea of freedom of expression is a central theme. In Italy, thanks to the alternative use of Internet, during the past twenty years a vast national network of people who share political, cultural and artistic views has been formed. The book describes the evolution of the Italian hacktivism and net culture from the 1980s till today. It builds a reflection on the new role of the artist and author who becomes a networker, operating in collective nets, reconnecting to Neoavant-garde practices of the 1960s (first and foremost Fluxus), but also Mail Art, Neoism and Luther Blissett. A path which began in BBSes, alternative web platforms spread in Italy through the 1980s even before the Internet even existed, and then moved on to Hackmeetings, to Telestreet and networking art by different artists such as 0100101110101101.ORG, [epidemiC], Jaromil, Giacomo Verde, Giovanotti Mondani Meccanici, Correnti Magnetiche, Candida TV, Tommaso Tozzi, Federico Bucalossi, Massimo Contrasto, Mariano Equizzi, Pigreca, Molleindustria, Guerriglia Marketing, Sexyshock, Phag Off and many others.

### Mathematical Lives

### Protagonists of the Twentieth Century From Hilbert to Wiles

Springer Science & Business Media Steps forward in mathematics often reverberate in other scientific disciplines, and give rise to innovative conceptual developments or find surprising technological applications. This volume brings to the forefront some of the proponents of the mathematics of the twentieth century, who have put at our disposal new and powerful instruments for investigating the reality around us. The portraits present people who have impressive charisma and wide-ranging cultural interests, who are passionate about defending the importance of their own research, are sensitive to beauty, and attentive to the social and political problems of their times. What we have sought to document is mathematics' central position in the culture of our day. Space has been made not only for the great mathematicians but also for literary texts, including contributions by two apparent interlopers, Robert Musil and Raymond Queneau, for whom mathematical concepts represented a valuable tool for resolving the struggle between 'soul and precision.'

### Fascist Modernities

### Italy, 1922-1945

Univ of California Press This cultural history of Mussolini's dictatorship discusses the meanings of modernity in interwar Italy. The work argues that fascism appealed to many Italian intellectuals as a new model of modernity that would resolve the European and national crises.

### Frontier Socialism

### Self-Organisation and Anti-Capitalism

Springer Nature Considering the history of workers' and socialist movements in Europe, **Frontier Socialism** focuses on unconventional forms of anti-capitalist thought, particularly by examining several militant-intellectuals whose legacy is of particular interest for those aiming for a radical critique of capitalism. Following on the work of Michael Löwy, Quirico & Ragona identify relationships of "elective affinity" between figures who might appear different and dissimilar, at least at first glance: the German Anarchist Gustav Landauer, the Bolshevik Alexandra Kollontai, the German communist Paul Mattick, the Italian Socialist Raniero Panzieri, the Greek-born French euro-communist Nikos Poulantzas, the German-born Swedish Social Democrat Rudolf Meidner, and the French social scientist Alain Bihr as well as two historical struggle experiences, the Spanish Republic and the Italian revolutionary group "Lotta continua". **Frontier Socialism** then analyzes these thinkers' and experiences' respective paths to socialism based on and achieved through self-organization and self-government, not to build a new tradition but to suggest a path forward for both research and political activism.

## Biography of an Industrial Town

### Terni, Italy, 1831–2014

Springer A pioneering work in oral history, this book tells the story of the rise and fall of the industrial revolution and the apogee and crisis of the labor movement through an oral history of Terni, a steel town in Central Italy and the seat of the first large industrial enterprise in Italy. This story is told through a combination of stories, songs, myths and memories from over 200 voices of five generations, woven with a wealth of archival material.

### Journey Through Utopia

### God and the State

### Neither East Nor West

### Selected Writings, 1939-1948

Freedom Press (CA) Selected writings from 1939 to 1948, including 16 anti-war cartoons by John Olday.

### Agamben and the Signature of Astrology

### Spheres of Potentiality

Lexington Books The work of Giorgio Agamben, one of the world's most important living philosophers, has been the object of much scrutiny. Yet, there is one dimension of his thought that remains unexamined by scholars: the presence of the ancient science of astrology in his writings. This book, the first of its kind, identifies the astrological elements and explains the implications of their usage by Agamben. In so doing, this study challenges us to imagine Agamben's thought in a radically new light. A critical account of the presence of astrology and related themes in Agamben's writings, ranging from the earlier works to the more recent publications, illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works, such as potentiality, the signature, bare life and biopolitics.

### Changing Planes

HMH "A fantastical travel guide, reminiscent of Gulliver's Travels," from a narrator with "the eye of an anthropologist and the humor of a satirist." —USA Today Hailed by Neil Gaiman as "a master of the craft" and Margaret Atwood as "a quintessentially American writer," Ursula K. Le Guin is at her entertaining, thought-provoking best in this collection of ingeniously linked stories. Missing a flight, waiting in an airport, listening to garbled announcements—who doesn't hate that misery? But Sita Dulip of Cincinnati finds a way to bypass the long lines, the crowded restrooms, the nasty food, the whimpering children and domineering parents, the bookless bookstores, the plastic chairs bolted to the floor. . . . With a kind of twist and a slipping bend, easier to do than to describe, Sita travels not to Denver but to Strupsirts, a picturesque region of waterspouts and volcanoes. Or to Djeyo, where she can stay for two nights with a balcony overlooking the amber Sea of Somue. This new method of "changing planes" enables Sita to visit bizarre societies and cultures that sometimes mirror our own . . . and sometimes open doors into the thrillingly alien. A New York Times Notable Book and Los Angeles Times bestseller, featuring illustrations by Eric Beddows, Changing Planes is your boarding pass to fifteen worlds that are vintage Le Guin, from a recipient of the PEN/Malamud Award for excellence in the art of the short story.

### The Late Mattia Pascal

New York Review of Books Mattia Pascal endures a life of drudgery in a provincial town. Then, providentially, he discovers that he has been declared dead. Realizing he has a chance to start over, to do it right this time, he moves to a new city, adopts a new name, and a new course of life—only to find that this new existence is as insufferable as the old one. But when he returns to the world he left behind, it's too late: his job is gone, his wife has remarried. Mattia Pascal's fate is to live on as the ghost of the man he was. An explorer of identity and its mysteries, a connoisseur of black humor, Nobel Prize winner Luigi Pirandello is among the most teasing and profound of modern masters. The Late Mattia Pascal, here rendered into English by the outstanding translator William Weaver, offers an irresistible introduction to this great writer's work

### Sacco & Vanzetti

Ocean Press Political activists Nicola Sacco and Bartolomeo Vanzetti were framed and executed for murder in a wave of anti-immigrant hysteria in Boston in the 1920s. Their story is a salutary one, illustrating the way in which anarchists and immigrants were painted as terrorists - a grim reminder of the consequences of using fear as a political weapon. Eventually pardoned in 1977 by Governor Dukakis, Sacco and Vanzetti's case sparked an unprecedented international defence campaign backed by writers, artists, politicians and musicians. It remains one of the most famous political trials in history.

### Human Strike and the Art of Creating Freedom

MIT Press The first English-language publication of writings by the collective artist Claire Fontaine, addressing our complicity with anything that limits our freedom. This anthology presents, in chronological order, all the texts by collective artist Claire Fontaine from 2004 to today. Created in 2004 in Paris by James Thornhill and Fulvia Carnevale, the collective artist Claire Fontaine creates texts that are as experimental and politically charged as her visual practice. In these writings, she uses the concept of "human strike" and adopts the radical feminist position that can be found in Tiqqun, a two-issue magazine cofounded by Carnevale. Human strike is a movement that is broader and more radical than any general strike. It addresses our inevitable subjective complicity with everything that limits our freedom and shows how to abandon these self-destructive behaviors through desubjectivization. Human strike, Claire Fontaine writes, is a subjective struggle to separate from the inevitable harm we do to ourselves and others simply by living within postindustrial neoliberalism. Human Strike is the first English-language publication of Claire Fontaine's influential and important theoretical writings.

## Sasha and Emma

### The Anarchist Odyssey of Alexander Berkman and Emma Goldman

Harvard University Press In 1889 Emma Goldman and Alexander Berkman met in a Lower East Side coffee shop. Over the next fifty years they became fast friends, fleeting lovers, and loyal comrades. This dual biography offers a glimpse into their intertwined lives, the influence of the anarchist movement they shaped, and their unyielding commitment to equality and justice.

### Kronstadt, 1921

Princeton University Press In March 1921 the sailors of Kronstadt, the naval fortress in the Gulf of Finland, rose in revolt against the Bolshevik government, which they themselves had helped into power. Under the slogan of "Free Soviets," they established a revolutionary commune that survived for sixteen days, until an army came across the ice to crush it. After a savage struggle, the rebels were subdued. Paul Avrich vividly describes the uprising and examines it in the context of the development of the Soviet state. Originally published in 1970. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

### Between Peasants

### A Civil War

### A History Of The Italian Resistance

Verso Books A Civil War is a history of the wartime Italian Resistance, recounted by a historian who took part in the struggle against Mussolini's Fascist Republic. Since its publication in Italy, Claudio Pavone's masterwork has become indispensable to anyone seeking to understand this period and its continuing importance for the nation's identity. Pavone casts a sober eye on his protagonists' ethical and ideological motivations. He uncovers a multilayered conflict, in which class antagonisms, patriotism and political ideals all played a part. A clear understanding of this complexity allows him to explain many details of the post-war transition, as well as the legacy of the Resistance for modern Italy. In addition to being a monumental work of scholarship, A Civil War is a folk history, capturing events, personalities and attitudes that were on the verge of slipping entirely out of recollection to the detriment of Italy's understanding of itself and its past.

### The Ascent of Man

Cosimo, Inc. Originally published in 1904, The Ascent of Man sought to correct what Drummond felt was an oversight in the evolutionary biology research being done in his day. Most scientists, he says, accept without question that the struggle for life is the force of evolution. What they overlook is what he calls the struggle for the life of others, or the struggle for reproduction. Drummond combines his own theories with a heavy dose of Christian doctrine to arrive at what may best be called "theological biology," which assumes man to be the greatest, highest purpose of the universe. Anyone interested in the history of evolution, its proponents and its detractors, and the long-standing war between religion and science will find Drummond's contribution provocative and controversial. Scottish evangelist HENRY DRUMMOND (1851-1897) also wrote the influential The Greatest Thing in the World (1880), a meditation on Scripture that continues to deeply move readers today.

### Enlightenment and Ecology

### The Legacy of Murray Bookchin in the 21st Century

Black Rose Books Ltd. Throughout his life, prophetic American philosopher Murray Bookchin created social ecology as a comprehensive social program for the challenges of our present era. Through tireless teaching, speaking, organizing, and writing, Bookchin presented a humanist vision of ecology based on community, direct democracy, and the better promises of the Enlightenment, showing how we could transform our society into one that is free and egalitarian. Enlightenment and Ecology is an international collection of commemorative essays by scholars and activists who have each incorporated the ideas of social ecology into their own work. This book also examines how the Kurdish freedom movement is using the Bookchin's utopian ideas. In a time of urgent need for radical change, these essays provide both precious historical lessons and a transformative road map.

### Act for Yourselves

### Articles from Freedom 1886-1907

Freedom Press Centenary Series A collection of articles written from 1886-1907.

### Anarchist Pedagogies

### Collective Actions, Theories, and Critical Reflections on Education

PM Press Education is a challenging subject for anarchists. Many are critical about working within a state-run education system that is embedded in hierarchical, standardized, and authoritarian structures. Numerous individuals and collectives envision the creation of counterpublics or alternative educational sites as possible forms of resistance, while other anarchists see themselves as "saboteurs" within the public arena—believing that there is a need to contest dominant forms of power and educational practices from multiple

fronts. Of course, if anarchists agree that there are no blueprints for education, the question remains, in what dynamic and creative ways can we construct nonhierarchical, anti-authoritarian, mutual, and voluntary educational spaces? Contributors to this edited volume engage readers in important and challenging issues in the area of anarchism and education. From Francisco Ferrer's modern schools in Spain and the Work People's College in the United States, to contemporary actions in developing "free schools" in the U.K. and Canada, to direct-action education such as learning to work as a "street medic" in the protests against neoliberalism, the contributors illustrate the importance of developing complex connections between educational theories and collective actions. Anarchists, activists, and critical educators should take these educational experiences seriously as they offer invaluable examples for potential teaching and learning environments outside of authoritarian and capitalist structures. Major themes in the volume include: learning from historical anarchist experiments in education, ways that contemporary anarchists create dynamic and situated learning spaces, and finally, critically reflecting on theoretical frameworks and educational practices. Contributors include: David Gabbard, Jeffery Shantz, Isabelle Fremeaux & John Jordan, Abraham P. DeLeon, Elsa Noterman, Andre Pusey, Matthew Weinstein, Alex Khasnabish, and many others.

## The Conquest of Bread

Courier Corporation Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

## Blood Crime

Soho Press It is 1936, and Barcelona burns as the Spanish Civil War takes over. The city is a bloodbath. Yet in all this death, the murders of a Marist monk and a young boy, drained of their blood, are strange enough to catch a police inspector's attention. The Marist brothers of the murdered monk are being persecuted; meanwhile, a convent of Capuchin nuns hides in plain sight, trading favours with the military police to stay alive. In their midst is a thirteen-year-old novice who stumbles into the clutches of the murderer. Can she escape in this city of no happy endings?

## Politics as Religion

Princeton University Press Emilio Gentile, an internationally renowned authority on fascism and totalitarianism, argues that politics over the past two centuries has often taken on the features of religion, claiming as its own the prerogative of defining the fundamental purpose and meaning of human life. Secular political entities such as the nation, the state, race, class, and the party became the focus of myths, rituals, and commandments and gradually became objects of faith, loyalty, and reverence. Gentile examines this "sacralization of politics," as he defines it, both historically and theoretically, seeking to identify the different ways in which political regimes as diverse as fascism, communism, and liberal democracy have ultimately depended, like religions, on faith, myths, rites, and symbols. Gentile maintains that the sacralization of politics as a modern phenomenon is distinct from the politicization of religion that has arisen from militant religious fundamentalism. Sacralized politics may be democratic, in the form of a civil religion, or it may be totalitarian, in the form of a political religion. Using this conceptual distinction, and moving from America to Europe, and from Africa to Asia, Gentile presents a unique comparative history of civil and political religions from the American and French Revolutions, through nationalism and socialism, democracy and totalitarianism, fascism and communism, up to the present day. It is also a fascinating book for understanding the sacralization of politics after 9/11.

## Birth and Death of the Housewife

State University of New York Press First English translation of Paola Masino's *Nascita e morte della massaia*, her most controversial novel that provoked Fascist censorship for its critical portrayal of marriage and motherhood.

## T.A.Z.

## The Temporary Autonomous Zone, Ontological Anarchy, Poetic Terrorism

Autonomedia 'Who is Hakim Bey? I love him!' Timothy Leary'Exquisite...' Allen Ginsberg'Hard-line dada/surrealism' Rudy Rucker'A Blake angel on bad acid' Robert Anton Wilson'Scares the shit out of us' Church of the SubGeniusThe underground cult bestseller! Essays that redefine the psychogeographical nooks of autonomy. Recipes for poetic terror, anarcho -black magic, post-situ psychotropic surgery, denunciations of spiritual addictions to vapid infotainment cults -- this is the bastard classic, the watermark impressed upon our minds. Where conscience informs praxis, and action infects consciousness, T.A.Z. is beginning to worm its way into above-ground culture.This book offers inspired blasts of writing, from slogans to historical essays, on the need to insert revolutionary happiness into everyday life through poetic action, and celebrating the radical optimism present in outlaw cultures. It should appeal to alternative thinkers and punks everywhere, as it celebrates liberation, love and poetic living.The new edition contains the full text of Chaos: The Broadsheets of Ontological Anarchism, the complete communiqués and flyers of the Association fo Ontological Anarchy, the long essay 'The Temporary Autonomous Zone,' and a new preface by the author.'A literary masterpiece...' Freedom'A linguistic romp...' Colin Wilson'Fascinating...' William Burroughs

## The Italians

Penguin UK The 'fatal charm of Italy' has held Lord Byron - and millions of tourists ever since - in its spell. Yet, beneath 'the brilliant and vivacious surface', what are the realities of Italian life? Few writers have ever painted a portrait of their compatriots as crisp, frank and fearless as Luigi Barzini's. Cutting through the familiar clichés, he instructs us with a cascade of anecdotes and provides a marvellous guided tour through centuries of history. He examines Machiavelli and Mussolini, popes, pilgrims and prostitutes, cliques and conspiracies, Casanova and the crippling power of the Church. Yet alongside the Baroque exuberance and spectacular display, the love of life and the life of love, he also shows us a divided nation, injustice, ignorance, poverty and fear. All this is Italy, a country of dazzling achievement and an uncanny aptitude for getting round problems; both its virtues and its vices are celebrated in this sparkling book

## Enquiry Concerning Political Justice, and Its Influence on Morals and Happiness

## Anarchy

## Anarchie

Hansebooks Anarchie is an unchanged, high-quality reprint of the original edition of 1891. Hansebooks is editor of the literature on different topic areas such as research and science, travel and expeditions, cooking and nutrition, medicine, and other genres. As a publisher we focus on the preservation of historical literature. Many works of historical writers and scientists are available today as antiques only. Hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future.

## The Grand Camouflage

### The Communist Conspiracy in the Spanish Civil War

Pickle Partners Publishing The product of many years' research and material gathering, Burnett Bolloten's *The Grand Camouflage* is a very richly documented study of the reasons for the Communists' success in taking over the anti-Franco forces in the course of the Spanish Civil War. "ALTHOUGH the outbreak of the Spanish Civil War in July, 1936, was followed by a far-reaching social revolution in the anti-Franco camp—more profound in some respects than the Bolshevik Revolution in its early stages—millions of discerning people outside Spain were kept in ignorance, not only of its depth and range, but even of its existence, by virtue of a policy of duplicity and dissimulation of which there is no parallel in history. "Foremost in practising this deception upon the world, and in misrepresenting in Spain itself the character of the revolution, were the Communists, who, although but an exiguous minority when the Civil War began, used so effectually the manifold opportunities which that very upheaval presented that before the close of the conflict in 1939 they became, behind a democratic frontispiece, the ruling force in the left camp. "The overthrow in May, 1937, of the government of Francisco Largo Caballero, who was the most influential and popular of the left-wing leaders at the outbreak of the Civil War, marked the Communists' greatest triumph in their rise to power. What was the secret of their success? And why did they attempt to screen from the outside world and to misrepresent in Spain itself the revolution that had swept the country? The answer lies within these pages."—Burnett Bolloten

### The Subversion of Politics

## European Autonomous Social Movements and the Decolonization of Everyday Life

George Katsiaficas's account covers the period 1968-1996 and pays special attention to the role of autonomous feminist movements, the effects of squatters and feminists on the disarmament movement and on efforts to shut down nuclear power, and the antifascist social movements developed in response to the neo-Nazi upsurge. In addition to providing a rare depiction of these often overlooked movements, Katsiaficas develops a specific notion of autonomy from the statements and aspirations of these movements. Drawing from the practical actions of social movements, his analysis is extended into a universal standpoint of the species, a perspective he develops by uncovering the partiality of Antonio Negri's workerism, Seyla Benhabib's feminism, and notions of uniqueness of the German nation.

## The Baron in the Trees

Houghton Mifflin Harcourt Cosimo di Rondó, a young Italian nobleman of the eighteenth century, rebels against his parents by climbing into the trees and remaining there for the rest of his life. He adapts efficiently to an existence in the forest canopy—he hunts, sows crops, plays games with earth-bound friends, fights forest fires, solves engineering problems, and even manages to have love affairs. From his perch in the trees, Cosimo sees the Age of Enlightenment pass by and a new century dawn.

## Chomsky on Anarchism

ReadHowYouWant.com We all know what Noam Chomsky is against. His scathing analysis of everything that's wrong with our society reaches more and more people every day. His brilliant critiques of - among other things - capitalism, imperialism, domestic repression, and government propaganda, have become mini-publishing industries unto themselves. But, in this flood of publishing and republishing, very little ever gets said about what exactly Chomsky stands for, his own personal politics, his vision of the future. Not, that is, until *Chomsky on Anarchism*, a groundbreaking new book that shows a different side of this best-selling author; the anarchist principles that have guided him since he was a teenager. This collection of Chomsky's essays and interviews includes numerous pieces that have never been published before, as well as rare material that first saw the light of day in hard-to-find pamphlets and anarchist periodicals. Taken together, they paint a fresh picture of Chomsky, showing his life-long involvement with the anarchist community, his constant commitment to nonhierarchical models of political organization, and his hopes for a future world without rulers. For anyone who's been touched by Chomsky's trenchant analysis of our current situation, as well as anyone looking for an intelligent and coherent discussion of anarchism itself, *Chomsky on Anarchism* will be one of this season's most exciting, and surprising, reads.

## The Next Revolution

### Popular Assemblies and the Promise of Direct Democracy

Verso Books From Athens to New York, recent mass movements around the world have challenged austerity and authoritarianism with expressions of real democracy. For more than forty years, Murray Bookchin developed these democratic aspirations into a new left politics based on popular assemblies, influencing a wide range of political thinkers and social movements. With a foreword by the best-selling author of *The Dispossessed*, Ursula K. Le Guin, *The Next Revolution* brings together Bookchin's essays on freedom and direct democracy for the first time, offering a bold political vision that can move us from protest to social transformation.

## Partisan Diary

### A Woman's Life in the Italian Resistance

Oxford University Press (UK) Ada Gobetti's *Partisan Diary* is both diary and memoir. From the German entry into Turin on 10 September 1943 to the liberation of the city on 28 April 1945, Gobetti recorded an almost daily account of events, sentiments, and personalities, in a cryptic English only she could understand. Italian senator and philosopher Benedetto Croce encouraged Ada to convert her notes into a book. Published by the Italian publisher Giulio Einaudi in 1956, it won the Premio Prato, an annual prize for a work inspired by the Italian Resistance (*Resistenza*). From a political and military point of view, the *Partisan Diary* provides firsthand knowledge of how the partisans in Piedmont fought, what obstacles they encountered, and who joined the struggle against the Nazis and the Fascists. The mountainous terrain and long winters of the Alpine regions (the site of many of their battles) and the ever-present threat of reprisals by German occupiers and their fascist partners exacerbated problems of organization among the various partisan groups. So arduous was their fight, that key military events--Italy's declaration of war on Germany, the fall of Rome, and the Allied landings on D-Day --appear in the diary as remote and almost unrelated incidents. Ada Gobetti writes of the heartbreak of mothers who lost their sons or watched them leave on dangerous missions of sabotage, relating it to worries about her own son Paolo. She reflects on the relationship between anti-fascist thought of the 1920s, in particular the ideas of her husband, Piero Gobetti, and the Italian resistance movement (*Resistenza*) in which she and her son were participating. While the *Resistenza* represented a culmination of more than twenty years of anti-fascist activity for Ada, it also helped illuminate the exceptional talents, needs, and rights of Italian women, more than one hundred thousand of whom participated.

## Simulation of Complex Systems in GIS

John Wiley & Sons This book provides a comprehensive view of geographical modeling. It first establishes the foundations of geographical modeling, covering such concepts as structure, organization, system, topologies, as well as the concept of time. Next, it tackles the use of computer tools for dynamic model building and presents several models applied to various themes, such as urban growth, natural risks, as well as political themes. Finally, a general model of the geographic agents system (GAS), which can be used as a basis for the construction of a model-building platform for dynamic spatial models is presented.

### April Theses
