Ghosts of Burlington County Historical Hauntings from the Mullica to the Delaware Arcadia Publishing *The picturesque waters of the Mullica and the Delaware River belie the dark past of Burlington County. Legends of ghosts and spirits are all that remain of this troubled history. A blue ghost sings in the piano room of the Barclay Haines Homestead on the banks of the beautiful Rancocas. The Burlington County Lyceum of History and Natural Sciences in Mount Holly houses some most unnatural "artifacts." Riverside's eerie Keystone Watch Case Tower, just thirteen miles north of Philadelphia, stands as a reminder to the lives lost in the harsh course of industrialization in the area. Join local legends expert Jan Lynn Bastien as she explores the haunted history of Roebling, Pemberton, Eastampton and other Burlington County communities.*

Foundations of Nursing in the Community - E-Book Community-Oriented Practice Elsevier Health Sciences *With concise, focused coverage of community health nursing, Foundations of Nursing in the Community: Community-Oriented Practice, 4th Edition provides essential information for community practice — from nursing roles and care settings to vulnerable population groups. The book uses a practical, community-oriented approach and places an emphasis on health promotion and disease prevention. Practical application of concepts is highlighted throughout the text in case studies, critical thinking activities, QSEN competencies, and Healthy People 2020 objectives. Evidence-Based Practice boxes highlight current research findings, their application to practice, and how community/public health nurses can apply the study results. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels, to reinforce the concept of prevention as it pertains to community and public health care. Focus on health promotion throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. Clinical Application scenarios offer realistic situations with questions and answers to help you apply chapter concepts to practice in the community. Case Studies provide client scenarios within the community/public health setting to help you develop assessment and critical thinking skills. What Would You Do? boxes present problem-solving challenges that encourage both independent and collaborative thinking required in community settings. How To boxes offer specific instructions on nursing interventions. NEW! QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. NEW! Feature box on Linking Content to Practice highlights how chapter content is applied in the role of public/community health nursing. NEW! Healthy People 2020 objectives in every chapter address the health priorities and emerging health issues expected in the next decade.*

Beyond Enkription The Burlington Files *Beyond Enkription is the first tome Bill Fairclough has written in the series. When we say Bill has written these novels he did write the originals but since then an army of connoisseurs has helped refine, research and edit the series. The series is about the Burlington family and their ubiquitous relationships with state backed intelligence agencies over many decades. The series covers events involving the Burlington family ranging from the First World War up until 2014. Our story starts in 1974 and is loosely based on authentic events and characters some of which rocked and shocked the contemporary establishment. There is no way we could make this stuff up unless we were on weed or worse! You can sigh with relief though. There won't be one book published for each year since 1974. We intend to publish six stand alone novels based loosely on Bill's (Edward Burlington's) life. However, these novels were primarily written to form the basis for a series of films and if no films are released successfully the number of novels issued may be reduced because of the time and cost required to publish each one. At over 180,000 words, Beyond Enkription is the longest spy novel published so far this century. It took more than 10,000 hours to write, review and research. Thus it ended up being an unusually large book which means it costs Amazon, CreateSpace and Kindle a lot to publish it at all Amazon stores whether in paperback or eBook format suitable for reading on any phone, tablet, Kindle, laptop or other device. It's heavily subsidised so unless it tops some Best Sellers' lists for six months or more we estimate we'll have paid a lot more for you to read it than it costs you to buy it! As only a few books have recently ever been "top of whatever literary pops" there are for that long, it looks like you'll be onto a winner. It also has secondary uses ... next year's bonfire night, a vampire-bat swatter or a doorstop for want of more obvious examples. Accordingly we are subsidising the cost of each paperback and eBook sold in the expectation that successful films will be made based on the novels. That is a good reason to get each book as soon as it is published as they are more likely to increase than decrease in price. Furthermore, if we make any profits, which are only expected from the release of films, the board has decreed they should be given to good causes. The first novel, Beyond Enkription, is set in the heart of the disco fevered 1970s and the Cold War amidst the escalating Irish Troubles in the purportedly united British Isles. A*

synopsis is set out below. Roger and Sara Burlington have been involved in espionage since 1939. While Roger is still a member of the Joint Intelligence Committee, Sara's address book appears to be more like a Who's Who of NATO's intelligence services than a housewife's little black book. Both Roger and Sara desperately wanted their sons, Hugh and Edward, to follow in their footsteps but things didn't go to plan given Edward's rebellious nature. As a consequence, Edward unwittingly ends up working as an MI6 asset. Early in 1974 he is nearly killed not once, but four times. Indirectly it is all MI6's fault ... so far as his parents are concerned. Sara decides someone high up in MI6 has to pay and persuades Roger to exact revenge. Meanwhile Edward is sent to supposed safety from London town to Nassau to continue his career as an accountant. However, the CIA has a representative on the Joint Intelligence Committee and is therefore already aware of Edward's exploits and capabilities. They turn him into their asset within 48 hours of his landing in Nassau. Meanwhile Hugh's involvement with MI6 becomes increasingly intriguing as the entangled plots and layered webs of deceit, betrayal and revenge reverberate across the world and throughout the Burlington family and their trusted supporters. Contemporary Nursing - E-Book Issues, Trends, & Management Elsevier Health Sciences *Contemporary Nursing, Issues, Trends, & Management, 6th Edition prepares you for the rapidly evolving world of health care with a comprehensive yet focused survey of nursing topics affecting practice, as well as the issues facing today's nurse managers and tomorrow's nurse leaders. Newly revised and updated, Barbara Cherry and Susan Jacob provide the most practical and balanced preparation for the issues, trends, and management topics you will encounter in practice. Content mapped to the AACN BSN Essentials emphasizes intraprofessional teams, cultural humility and sensitivity, cultural competence, and the CLAS standards. Vignettes at the beginning of each chapter put nursing history and practice into perspective, followed by Questions to Consider While Reading This Chapter that help you reflect on the Vignettes and prepare you for the material to follow. Case studies throughout the text challenge you to apply key concepts to real-world practice. Coverage of leadership and management in nursing prepares you to function effectively in management roles. Career management strategies include advice for making the transition from student to practitioner and tips on how to pass the NCLEX-RN® examination. Key terms, learning outcomes, and chapter overviews help you study more efficiently and effectively. Helpful websites and online resources provide ways to further explore each chapter topic. Coverage of nursing education brings you up to date on a wide range of topics, from the emergence of interactive learning strategies and e-learning technology, to the effects of the nursing shortage and our aging nursing population. Updated information on paying for health care in America, the Patient Protection and Affordable Care Act, and statistics on health insurance coverage in the United States helps you understand the history and reasons behind healthcare financing reform, the costs of healthcare, and current types of managed care plans. A new section on health information technology familiarizes you with how Electronic Health Records (EHRs), point-of-care technologies, and consumer health information could potentially impact the future of health care. Updated chapter on health policy and politics explores the effect of governmental roles, structures, and actions on health care policy and how you can get involved in political advocacy at the local, state, and federal level to help shape the U.S. health care system. The latest emergency preparedness and response guidelines from the Federal Emergency Management Agency (FEMA), the Centers for Disease Control (CDC), and the World Health Organization (WHO) prepare you for responding to natural and man-made disasters.*

ELT in Asia in the Digital Era: Global Citizenship and Identity Proceedings of the 15th Asia TEFL and 64th TEFLIN International Conference on English Language Teaching, July 13-15, 2017, Yogyakarta, Indonesia Routledge *This proceedings book captures a wide range of timely themes for readers to be able to foresee the digital era's impact on English teaching in non-English speaking countries. English used in the global environment, the frequent mobile communication, and the use of AI-based translators are bringing about dramatic changes in our English language learning and teaching. Who can provide us the wisdom to know what to do? Those scholars going through these complex environmental changes! A collection of puzzle pieces may bring us a better contour for the future than a perfectly edited book. It's indeed a pleasure reading these insightful pieces to gain wisdom for the future of ELT practices in global contexts.*

Quakers and Their Allies in the Abolitionist Cause, 1754-1808 Routledge *This volume explores the significant connections between the Quaker community and the abolitionist cause in America. The case studies that make up the collection mainly focus on the greater Philadelphia area, a hotbed of the abolitionist movement and the location of the first American abolition society founded in 1775. Despite the importance of Quakers to the abolitionist movement, their significance has been largely overlooked in the existing historiography. These studies will be of interest to scholars of slavery and abolition, religious history, Atlantic studies and American social and political history.*

The Toronto Book of the Dead Dundurn *Explores the history of Toronto through the final moments of the famous (and infamous) who made it their final resting place. From ancient First Nations burial mounds to the murder of Toronto's first lightkeeper; from the rise and fall of the city's greatest Victorian baseball star to the final days of the world's most notorious anarchist.*

Fighting to the End The Pakistan Army's Way of War Oxford University Press *Since Pakistan was founded in 1947, its army has dominated the state. The military establishment has locked the country in an enduring rivalry with India, with the primary aim of wresting Kashmir from it. To that end, Pakistan initiated three wars over Kashmir-in 1947, 1965, and 1999-and failed to win any of them. Today, the army continues to prosecute this dangerous policy by employing non-state actors under the security of its ever-expanding nuclear umbrella. It has sustained a proxy war in Kashmir since 1989 using Islamist militants, as well as supporting non-Islamist insurgencies throughout India and a country-wide Islamist terror campaign that have brought the two countries to the brink of war on several occasions. In addition to these territorial revisionist goals, the Pakistani army has committed itself to resisting India's slow but inevitable rise on the global stage. Despite Pakistan's efforts to coerce India, it has achieved only modest successes at best. Even though India vivisected Pakistan in 1971, Pakistan continues to see itself as India's equal and demands the world do the same. The dangerous methods that the army uses to enforce this self-perception have brought international opprobrium upon Pakistan and its army. And in recent years, their erstwhile proxies have turned their guns on the Pakistani state itself. Why does the army persist in pursuing these revisionist policies that have come to imperil the very viability of the state itself, from which the army feeds? In *Fighting to the End*, C. Christine Fair argues that the answer lies, at least partially, in the strategic culture of the army. Through an unprecedented analysis of decades' worth of the army's own defense publications, she concludes that from the army's distorted view of history, it is victorious as long as it can resist India's purported drive for regional hegemony as well as the territorial status quo. Simply*

put, acquiescence means defeat. *Fighting to the End* convincingly shows that because the army is unlikely to abandon these preferences, Pakistan will remain a destabilizing force in world politics for the foreseeable future.

Pharmacology - E-Book A Patient-Centered Nursing Process Approach Elsevier Health Sciences Get the pharmacology guidance proven to help aspiring nurses succeed on the NCLEX and later as a professional nurse. Using a streamlined prototype approach, an emphasis on nursing care, plus a wealth of other trademark features, *Pharmacology: A Patient-Centered Nursing Process Approach, 10th Edition* makes it easy for you to really understand pharmacology. Prototype drug charts summarize the need-to-know information about key drugs, including dosage, side effects, interactions, and more. Images of current drug package labels reinforce your understanding of text content using relevant, true-to-life learning. Bulleted nursing process summaries relate nursing care to drug therapy in addition to highlighting patient teaching, patient safety, and relevant cultural content. Finally, the unique and thorough drug calculations section features math review as well as step-by-step instructions for drug calculations using the four general methods of dosage calculation. All in all this text has all the tools you need to better understand the complicated subject of pharmacology. **UNIQUE!** Prototype drug charts provide easy access to key information for representative drugs, including dosages, contraindications, drug-lab-food interactions, pharmacokinetics, and more. **UNIQUE!** Extensive chapter on drug calculations presents six methods of dosage calculation, providing a helpful review and supplement to a dosage calculations textbook. **UNIQUE!** Nursing process summaries highlight important nursing considerations within the framework of the nursing process. Consistent RN-standard chapter pedagogy includes: online learning resources on the companion Evolve website, objectives, and outline. Critical thinking case studies challenge you to apply your knowledge and analytical skills to realistic patient scenarios. Answer guidelines are provided on the Evolve website. Application-level NCLEX study questions include at least one alternate-format question included per chapter. Chapter on safety and quality discusses medication errors, specific nursing measures to promote safety, National Patient Safety Goals, and many other safety issues and concerns. Prioritization coverage throughout the text helps you learn to prioritize nursing care and differentiate need-to-know from nice-to-know content. **NEW!** Thoroughly updated drug content reflects the very latest FDA drug approvals, withdrawals, and therapeutic uses, as well as corresponding updated nursing content. **NEW!** New nursing concepts have been added to the nursing processes to further support conceptual learning and higher-level thinking. **NEW!** New chapter on pharmacogenetics details how a patient's genetic makeup may affect his or her response to drugs. **NEW!** Additional student review questions have been added to thoroughly prepare you for the growing pharmacology coverage on the NCLEX Exam. **NEW!** Updated antihypertensive guidelines (published in November 2017) ensure you are up to date on the latest best practices regarding drugs used to treat high blood pressure. **NEW!** Updated nursing processes have been added for more consistency from chapter to chapter.

Policy & Politics in Nursing and Health Care - E-Book Elsevier Health Sciences Learn how to influence policy and become a leader in today's changing health care environment. Featuring analysis of cutting-edge healthcare issues and first-person insights, *Policy & Politics in Nursing and Health Care, 8th Edition* continues to be the leading text on nursing action and activism. Approximately 150 expert contributors present a wide range of topics in policies and politics, providing a more complete background than can be found in any other policy textbook on the market. This expanded 8th edition helps you develop a global understanding of nursing leadership and political activism, as well as the complex business and financial issues that drive many actions in the health system. Discussions include the latest updates on conflict management, health economics, lobbying, the use of media, and working with communities for change. With these innovative insights and strategies, you will be prepared to play a leadership role in the four spheres in which nurses are politically active: the workplace, government, professional organizations, and the community. Comprehensive coverage of healthcare policies and politics provides a broader understanding of nursing leadership and political activism, as well as complex business and financial issues. Key Points at the end of chapters helps you review important, need-to-know lesson content. Taking Action essays include personal accounts of how nurses have participated in politics and what they have accomplished. Expert authors make up a virtual Nursing Who's Who in healthcare policy, sharing information and personal perspectives gained in the crafting of healthcare policy. **NEW!** The latest information and perspectives are provided by nursing leaders who influenced health care reform, including the Affordable Care Act. **NEW!** Added information on medical marijuana presents both sides of this ongoing debate. **NEW!** More information on health care policy and the aging population covers the most up-to-date information on this growing population. **NEW!** Expanded information on the Globalization of Nursing explores international policies and procedures related to nursing around the world. **NEW!** Expanded focus on media strategies details proper etiquette when speaking with the press. **NEW!** Expanded coverage of primary care models and issues throughout text. **NEW!** APRN and additional Taking Action chapters reflect the most recent industry changes. **NEW!** Perspectives on issues and challenges in the government sphere showcase recent strategies and complications.

Teaching in Nursing E-Book A Guide for Faculty Elsevier Health Sciences The perfect all-in-one guide for future nurse educators! The award-winning *Teaching in Nursing: A Guide for Faculty, 6th Edition* prepares you for the day-to-day challenges of teaching future nurses for practice in today's rapidly evolving healthcare system. This comprehensive resource is the only one of its kind to cover all four components of nursing education: teaching and learning, curriculum, evaluation, and technology-empowered learning. You'll benefit from the expert guidance on such key issues as curriculum and test development, diverse learning styles, the redesign of healthcare systems, and advances in technology and information. Plus, the 6th edition includes a unique new chapter on Global Health and Curricular Experiences along with updated information on technology-empowered learning, the flipped classroom, interprofessional education, interprofessional collaborative practice, and much more. Comprehensively addresses all four components of nursing education including teaching and learning, curriculum, evaluation, and technology-empowered learning. Coverage of concept-based curricula includes strategies on how to approach and implement concept-based instruction. Pedagogical aids include Evidence-Based Teaching boxes, covering such issues as how to do evidence-based teaching; applications of evidence-based teaching; implications for faculty development, administration, and the institution; and how to use the open-ended application questions at the end of each chapter for faculty-guided discussion. Strategies to promote critical thinking and active learning are incorporated throughout the text, highlighting various evaluation techniques, lesson planning insights, and tips for developing examinations. Guidance on teaching in diverse settings addresses such topics as the models of clinical teaching, teaching in interdisciplinary settings, how to evaluate students in the clinical setting, and how to adapt teaching for community-based practice. Strong emphasis on

teaching clinical judgment, new models of clinical education, and responding to needs for creating inclusive multicultural teaching-learning environments. NEW! Updated content throughout reflects the latest evidence-based guidelines for best practices in teaching and learning. NEW! UNIQUE chapter on Global Health and Curricular Experiences focuses on internationalization of the nursing curriculum with an emphasis on leading international learning experiences; policies, procedures, and guidelines for overseas study and global and health competencies for health professions programs. NEW! Enhanced pedagogy includes additional illustrations, tables, and boxes. NEW! Expanded interprofessional education chapter, provides you with strategies for effective teaching in an interprofessional healthcare environment. **Reading Modern Law Critical Methodologies and Sovereign Formations Routledge** Reading Modern Law identifies and elaborates upon key critical methodologies for reading and writing about law in modernity. The force of law rests on determinate and localizable authorizations, as well as an expansive capacity to encompass what has not been pre-figured by an order of rules. The key question this dynamic of law raises is how legal forms might be deployed to confront and disrupt injustice. The urgency of this question must not eclipse the care its complexity demands. This book offers a critical methodology for addressing the many challenges thrown up by that question, whilst testifying to its complexity. The essays in this volume - engagements direct or oblique, with the work of Peter Fitzpatrick - chart a mode of resisting the proliferation of social scientific methods, as much as geo-political empire. The authors elaborate a critical and interdisciplinary treatment of law and modernity, and outline the pivotal role of sovereignty in contemporary formations of power, both national and international. From various overlapping vantage points, therefore, Reading Modern Law interrogates law's relationship to power, as well as its relationship to the critical work of reading and writing about law in modernity. **Nursing & Healthcare Ethics - E-Book Elsevier Health Sciences** Now in its sixth edition, this highly popular text covers the range of ethical issues affecting nurses and other healthcare professionals. Authors Simon Robinson and Owen Doody take a holistic and practical approach, focused in the dialogue of ethical decision making and how this connects professional, leadership and governance ethics in the modern healthcare environment. This focuses on the responsibility of professionals and leaders, and the importance of shared responsibility in the practice of healthcare. With a foreword by the eminent medical ethicist Alastair Campbell, the revised edition includes contemporary topics, such as the duty of candour, recent cases, such as the Mid Staffs scandal, and ethical perspectives on vulnerable groups, such as; persons with intellectual/learning disability, dementia and those with an enduring mental illness. It builds on professional identity and personal development as part of ongoing learning, individual and organizational, and provides interactive ways that helps the reader to develop reflective ethical practice. This text aims to enable ethical engagement with the ever changing healthcare environment, and is a must-have for anyone serious about ethics in healthcare. Holistic and practice relevant approach New perspectives on vulnerable groups, such as persons with intellectual/learning disability, dementia and those with an enduring mental illness Descriptive (including moral psychology) as well as normative ethical theory Promoting dialogue and engagement with practice, practitioners, patients and families Development of professional ethical skills Connecting professional ethics to leadership, governance and social ethics Highly accessible format Case studies/Scenarios presented within chapters and pause for thought exercises to promote dialogue and engagement Suitable for pre/post registration nurses, students, health care professionals **Lead in Modern and Contemporary Art Bloomsbury Publishing** Lead in Modern and Contemporary Art is the first edited volume to critically examine uses of lead as both material and cultural signifier in modern and contemporary art. The book analyzes the work of a diverse group of artists working in Europe, the Middle East, and North America, and takes into account the ways in which gender, race, and class can affect the cultural perception of lead. Bringing together contributions from a distinguished group of international contributors across various fields, this volume explores lead's relevance from a number of perspectives, including art history, technical art history, art criticism, and curatorial studies. Drawing on current art historical concerns with materiality, this volume builds on recent exhibitions and scholarship that reconsider the role of materials in shaping artistic meaning, thus giving a central relevance to the object and its physicality. **Certified Nurse Educator Review Book The Official NLN Guide to the CNE Exam Lippincott Williams & Wilkins** Based on the CNE® examination blueprint, Certified Nurse Educator Review Book: The Official NLN Guide to the CNE® Exam, Second Edition delivers a comprehensive review to prepare you to take the Certified Nurse Educator examination. Each chapter provides an overview of the content included on the exam blueprint and practice test items, complete with rationales for correct and incorrect answers, reflecting the types of items you will encounter on the exam. This revised edition streamlines and enhances your exam preparation with updated content, additional bulleted lists and tables, additional practice questions, and example scenarios that demonstrate the practical application of chapter concepts. **Edelman and Kudzma's Canadian Health Promotion Throughout the Life Span - E-Book Elsevier Health Sciences** Learn the ins and outs of health promotion and disease prevention in Canada with Edelman and Kudzma's Canadian Health Promotion Throughout the Lifespan. This all-new, comprehensive text grounds you in the Canadian health objectives for promotion and prevention which aims to improve the health of the entire population and to reduce health inequities among population groups. Among the text's chapters you'll find extensive coverage of growth and development throughout the life span — including coverage of the normal aspects, the unique problems, and the health promotion needs that are found in each age and stage of development. Separate chapters discuss each population group — the individual, the family, and the community — and highlight the unique aspects of caring for each of these groups. In all, this comprehensive and culturally relevant text provides all the tools needed to stay up on the latest research and topics in Canadian health promotion. **Foundations for Population Health in Community/Public Health Nursing - E-Book Elsevier Health Sciences** Get the essential information you need to know about population health and community health nursing! Foundations for Population Health in Community/Public Health Nursing, 5th Edition includes concise, focused coverage of community health nursing — from nursing roles and care settings to vulnerable population groups. The book uses a practical, community-oriented approach and places an emphasis on health promotion and disease prevention. Practical application of concepts is highlighted throughout the text in case studies, critical thinking activities, QSEN competencies, and Healthy People 2020 objectives. QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. Healthy People 2020 objectives in every chapter address the health priorities and emerging health issues expected in the next decade. Genomics coverage provides a history of genetics and genomics and how they impact public/community health nursing care. Focus on health promotion

throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. Clinical Application scenarios present practice situations with questions and answers to help you apply chapter concepts to practice in the community. Evidence-Based Practice boxes highlight current research findings, their application to practice, and how community/public health nurses can apply the study results. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels, to reinforce the concept of prevention as it pertains to community and public health care. Feature box on Linking Content to Practice highlights how chapter content is applied in the role of public/community health nursing. NEW! Coverage of health care reform includes discussions of the impact of The Patient Protection and Affordable Care Act of 2010 (ACA) on public health nursing and the potential implications of its repeal. NEW! Check Your Practice boxes feature scenarios and discussion questions to promote active learning. **Communication in Nursing - E-Book Elsevier Health Sciences** Immerse yourself in the ideas, theories, and techniques of effective communication in the workplace! Communication in Nursing, 9th Edition adopts a uniquely practical and personal approach to the demands of today's nursing practice, providing extensive examples, exercises, and techniques that help you to apply communication skills in a variety of clinical settings. Using a conversational tone, this relatable text takes you beyond theory to show you how to understand important concepts and use communication as a tool to limit stress in your nursing practice. The 9th edition includes a new chapter which focuses on the foundation of communication and personality assessment. It also includes a new Putting it into Practice feature to help you apply your new communication skills in the work environment. In addition, updates on the topics of mindfulness, resilience, and inter-collaborative communication highlight the importance of implementing these tools in practice. Active Learning features in every chapter promotes active, goal-directed reading. Wit & Wisdom boxes present selected verses and quotations relevant to chapter topics, adding interest and humor. These boxes provide moments of relief from serious topics and "a-ha" moments when theory becomes linked to practice. End-of-chapter exercises help you to master chapter techniques and strengthen your communication skills. QSEN preface and exercises stress how communication impacts safety and quality of care. Discusses the importance of interprofessional education and communication in the healthcare environment. Addresses the importance of "presence" in nursing — being present for clients, families, colleagues, and self. NEW! Starting with You chapter focuses on personality assessment using the Gallup CliftonStrengths among additional assessment methods. Two chapters have been combined to create a new one titled, Communicating Assertively and Responsibly with "Difficult" Clients and Colleagues, to help you better address aggressive and difficult clients and colleagues. UPDATED! Navigating the Expanding World of Digital Communication and Understanding Each Other chapters have been extensively updated to reflect most recent information. NEW! Chapter exercises incorporate teaching strategies such as cinemeducation and medical improvisation to help facilitate various learning types. UPDATED! Topics of mindfulness, resilience, and inter-collaborative communication have been incorporated throughout. NEW! Additional examples incorporated into Moments of Connection boxes highlight beneficial outcomes of successful communication and provide concrete examples of how communication techniques work. **LPN to RN Transitions - E-Book Elsevier Health Sciences** LPN to RN Transitions, 4th Edition makes it easy for you to take the next step in your nursing career with all of the essential information you need to pursue your RN degree and practice as a registered nurse. This new edition includes practical information on role transition, cultural competency, delegation, classroom study habits, professional writing, and more. Plus, newly-revised chapters provide the latest information for one complete, indispensable resource to help you succeed in everything from the classroom to clinical practice! Improved organization gives you a clear vision of what the profession of nursing encompasses and ends with a career-affirming review of the path you must travel to reach the goal of registered nurse. Critical thinking questions give you practice applying the critical-thinking skills you will need on the job. Clear, succinct coverage helps you focus on the issues that an RN must address for a successful practice. FYI boxes encourage you to think about how your day-to-day interactions will change as an RN. Additional illustrations create a more engaging reading experience. Revised table of contents helps you quickly locate information. Casual writing style makes it easier to read the text and gain practical advice. Key Terms and Key Points help you learn vocabulary words central to the topic discussed. Learning objectives in each chapter orient you to the broad range of topics that will be emphasized in the RN curriculum. NEW! Information on Role Transition prepares you to begin working in a clinical practice environment. NEW! Cultural Competency information covers how to work with a diverse set of patients. NEW! Prepare Now to Pass NCLEX® chapter provides strategies to use throughout the ADN curriculum to help you prepare a study plan tailored for success on the NCLEX-RN exam. NEW! Additional case studies demonstrate how the concepts discussed apply to real-life patients and colleagues. NEW! Math and Calculations content streamlined online for quick access. **Intergenerational solidarity in libraries / La solidarité intergénérationnelle dans les bibliothèques Walter de Gruyter** Rapid and intensive changes in the information landscape cause changes in social relationships and, consequently, in relations between generations. Within their social role libraries should work actively to reduce age segregation and isolation, and build cohesive society through intergenerational services and programmes. The authors speak about the intergenerational dialogue in libraries - theories, research and practice - and about reading as a link between generations, thus offering to libraries strategies for establishing social cohesion. **Media and the Well-being of Children and Adolescents Oxford University Press, USA** The volume is divided into four parts. Part One provides up-to-date trends on children and adolescents' access to media in the home, as well as the time they spend with television, computers, and the Internet. Part Two presents research that highlights the potentially negative impact of age-inappropriate or excess media use on children's physical, cognitive, social, and emotional well-being. Part Three offers examples of how media enhance children's education, health, and social connections. Part Four explores implications for the creation of high-quality, enriching content that speaks to the needs and interests of young people today. **Introduction to Maternity and Pediatric Nursing - E-Book Elsevier Health Sciences** Get a solid foundation in maternity and pediatric nursing! Written in a clear, concise, friendly style, Introduction to Maternity and Pediatric Nursing, 8th Edition is the complete guide to caring for maternity and pediatric patients. This best-selling text is organized by developmental stages, discussions of pediatric disorders by body system from simple-to-complex and health-to-illness, and includes a focus on family health. This edition also contains newly updated NCLEX® style review questions, new case studies, new content on zika virus, QSEN and safety, and expanded phases of pregnancy. Evidence-based maternal-child content prepares you for the LVN/LPN to achieve higher levels of learning, a goal expressed by the IOM Committee on the Future of Nursing.

Over 42 detailed, updated nursing skills introduce you to skills unique to maternity and pediatric care. Over 25 nursing care plans feature seven different formats/themes/styles, including unfolding case studies. The beginning concepts of critical thinking introduces you to this idea as a basis for clinical nursing care. Updated content on the influence of microbiomes on non-invasive pregnancy and newborn nursing care addresses its impact on the adult health of the newborn. Step-by-step application of the nursing process covers the hospital, home, community and use in improving global health. Expanded cultural practices as they relate to pregnancy, delivery and pediatric care in the community. Coverage of the use of expanding new technologies and computerized medication administration reinforce the nursing process and strengthen problem-solving skills as applied to maternity nursing. NEW! Discussion of new health threats include in-depth coverage of the Zika virus and Influenza NEW! Updated guidelines for hypertension and immunizations for infants and children. NEW! Updated QSEN goals and nursing responsibilities reflect the most recent changes. NEW! Expanded phases of pregnancy includes preconceptual, prenatal, intrapartum, postpartum and interconceptual care and nursing responsibilities. NEW! Updated nursing responsibilities related to global health reflect the "Baby Friendly Hospital" WHO initiative and interprofessional nursing communication related to nursing "hand-off care" and shift change reports. NEW! Updated NCLEX® exam-style review questions have been revised with alternate item formats at the end of each chapter. NEW! Expanded nursing and safety tips throughout include evidence-based online resources which provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Expanded coverage of bioterrorism better reflects trauma related to pregnancy and pediatric care. **Alexander's Care of the Patient in Surgery - E-Book Elsevier Health Sciences** Gain the knowledge and skills you need to provide safe, effective perioperative nursing care! Alexander's Care of the Patient in Surgery, 17th Edition is the definitive resource for nurses and surgical technologists training for a career in the operating room. Illustrated, step-by-step instructions cover patient care in more than 400 surgical interventions, including patient positioning, instrumentation, and postoperative care. Along with the latest on robotic surgery and a review of evidence-based guidelines, this edition includes new coverage of COVID-19 and gender affirmation surgery. From well-known educator Jane C. Rothrock — and with every chapter authored by an expert nurse — Alexander's gives you the tools you need to pass the CNOR® certification exam and succeed in the surgical setting. **Ballweg's Physician Assistant: A Guide to Clinical Practice - E-Book Elsevier Health Sciences** Designed as a highly visual and practical resource to be used across the spectrum of lifelong learning, Ballweg's Physician Assistant, 7th Edition, helps you master all the core competencies needed for physician assistant certification, recertification, and clinical practice. It remains the only textbook that covers all aspects of the physician assistant profession, the PA curriculum, and the PA's role in clinical practice. Ideal for both students and practicing PAs, it features a succinct, bulleted writing style, convenient tables, practical case studies, and clinical application questions that enable you to master key concepts and clinical applications. Addresses all six physician assistant competencies, as well as providing guidance for the newly graduated PA entering practice. Includes five new chapters: What Is a Physician Assistant, and How Did We Get Here?, Effective Use of Technology for Patient-Centered Care, Success in the Clinical Year, Transitioning to Practice and Working in Teams, and Finding Your Niche. Features an enhanced focus on content unique to the PA profession that is not readily found in other resources, more illustrations for today's visually oriented learners, a more consistent format throughout, and a new emphasis on the appropriate use of social media among healthcare professionals. Provides updated content throughout to reflect the needs of the PA profession, including new content on self-care for the PA to help prevent burnout, suicide, and other hazards faced by healthcare professionals. Guides students in preparation for each core clinical rotation and common electives, as well as working with special patient populations such as patients experiencing homelessness and patients with disabilities. Includes quick-use resources, such as objectives and key points sections for each chapter, tip boxes with useful advice, abundant tables and images, and more than 130 updated case studies. Evolve Educator site with an image bank is available to instructors through their Elsevier sales rep or via request at <https://evolve.elsevier.com>. **Full Steam Ahead: The Family of Brigadier General Charles Lutterloh and Eliza Comerford Lutterloh of Central and Eastern North Carolina Christopher Hunt Robertson, M.Ed.** For over 160 years, the Lutterloh family was prominent in North Carolina. Between 1776 and 1940, family members and their steamboat company were referenced in state newspapers over 14,000 times. The Lutterloh Steamboat Line, which primarily served Wilmington and Fayetteville, was one of the state's largest steamboat operations before the Civil War. The large family of Charles and Eliza Lutterloh of Chatham County survived that war and settled across North Carolina and elsewhere. Their family members included Thomas Lutterloh (First Municipal Mayor of Fayetteville; Owner of the Lutterloh Steamboat Line and Local Turpentine Pioneer) * Herbert Lutterloh (Poultry Industry Pioneer) * Charles Lutterloh II (Landscaping and Gardening Pioneer of Fayetteville) * Grandson Charles Buxton Rogers (Florida's Largest Wholesale Grocer) * and Son-In-Law Esley Hunt (Accomplished Studio Photographer of Chapel Hill and Raleigh). Charles' uncle was Henry Emanuel Lutterloh, Deputy Quartermaster General of the Revolutionary War. Charles' parents, Henry Lewis Lutterloh and Elizabeth Grantham Lutterloh, became the grandparents of 19 medical doctors (1986 "Guinness Book of World Records"). This family history received a 2018 Book Award from the North Carolina Society of Historians. **Fundamentals of Nursing - E-Book Elsevier Health Sciences** Learn the concepts and skills you need to provide excellent nursing care! Fundamentals of Nursing, 10th Edition prepares you to succeed as a nurse by providing a solid foundation in critical thinking, clinical reasoning, nursing theory, evidence-based practice, and patient-centered care in all settings. With illustrated, step-by-step guidelines, this book makes it easy to learn important skills and procedures. Care plans are presented within a nursing process framework, and case studies show how to apply concepts to nursing practice. From an expert author team led by Patricia Potter and Anne Perry, this bestselling nursing textbook helps you develop the understanding and clinical reasoning you need to succeed in the classroom and in your career. **Library & Information Science Abstracts Red Book American State, County & Town Sources Ancestry Publishing** " ... provides updated county and town listings within the same overall state-by-state organization ... information on records and holdings for every county in the United States, as well as excellent maps from renowned mapmaker William Dollarhide ... Ethics & Issues in Contemporary Nursing, 1st Edition examines the latest

trends, principles, theories, and models in patient care to help you learn how to make ethically sound decisions in complex and often controversial situations. Written from a global perspective, examples throughout the text reflect current national and international issues inviting you to explore cases considering socio-cultural influences, personal values, and professional ethics. Historical examples demonstrate how to think critically while upholding moral and professional standards, as well as the law. Key topics throughout explore advocacy and rights, diversity, nurse burnout, mass casualty events, social media, violence in the workplace, medication error prevention, opioid and other substance use, HIPAA, and healthcare reform. In addition, this new title contains supplemental case studies and review questions to further challenge and prepare you to make morally sound decisions in any healthcare setting. NEW! Case Presentations from the United States and around the World address ethical dilemmas across the practice of nursing. NEW! Think About It boxes present provocative questions within every case presentation. NEW! Thoroughly up-to-date and well referenced content ensures material presented is accurate. NEW! Straightforward and conversational writing style makes content interesting and understandable. NEW! Review questions on Evolve allow students to practice what they have learned. NEW! Case studies on Evolve help students apply the theoretical concepts they have learned. NEW! Ask Yourself questions integrated into each chapter help students understand the relevance of the material. NEW! Discussion questions and Activities within every chapter encourage students to think beyond the theoretical. NEW! Summary and Highlights within every chapter make it easier for students to thoroughly understand key elements. **Health Promotion Throughout the Life Span - E-Book Elsevier Health Sciences** Master health promotion for all ages and population groups! Health Promotion Throughout the Life Span, 10th Edition provides comprehensive coverage of leading health promotion concepts from assessment to interventions to application. Its lifespan approach addresses patients' unique needs with case studies and care plans presented within an assessment framework based on Gordon's Functional Health Patterns. Addressing each age and stage of development, this market-leading text covers the latest research and trends in health promotion and disease prevention for diverse population groups. Coverage of growth and development addresses health promotion concepts for each age and each stage of development through the lifespan. Case studies present realistic situations with questions that challenge you to apply key concepts to further develop clinical judgment. Think About It clinical scenarios at the beginning of each chapter include questions to encourage clinical judgment. Research for Evidence-Based Practice boxes summarize current health-promotion studies showing the links between research, theory, and practice. Hot Topics boxes introduce significant issues, trends, and controversies in health promotion. Separate chapters on population groups — the individual, family, and community — highlight the unique aspects of assessment and health promotion for each group. Quality and Safety Scenario boxes focus on QSEN-related competencies with examples of health promotion. Innovative Practice boxes outline unique and creative health promotion programs and projects currently being implemented. Health and Social Determinants/Health Equity boxes address cultural perspectives relating to planning care. NEW! Greater emphasis on health equity highlights the need to make health promotion accessible to all. NEW! Increased focus on diversity and inclusion better reflects the communities being served. NEW! Veteran's health content is incorporated throughout, as appropriate. NEW! Discussions of Healthy People 2030 initiatives and objectives address national health issues and priorities. NEW! Updated diagnosis terminology includes ICNP diagnoses or patient problems. NEW! Affordable Care Act references are more general to reflect changing politics. **Mosby's Oncology Nursing Advisor E-Book A Comprehensive Guide to Clinical Practice Elsevier Health Sciences** Get quick access to the most important information surrounding cancer and oncology nursing care with Mosby's Oncology Nursing Advisor, 2nd Edition. Covering everything from the various types of cancer and cancer treatment options to patient education and nursing best-practices, this indispensable nursing guide is like getting seven books in one! Plus, its user-friendly layout and straightforward coverage make it ideal for use in any clinical setting. With 17 new chapters, updated evidence-based content throughout, and proven patient teaching handouts, this new edition offers the authoritative guidance you need to provide the best possible oncology nursing care. Detailed descriptions of over 50 major cancer types provide essential information on incidence, etiology and risk factors, signs and symptoms, diagnostic workup, histology, staging, treatment, prognosis, and prevention. Coverage of cancer management principles outlines a wide range of treatment and pharmacologic modalities, including surgery, chemotherapy, radiation therapy, hormonal therapy, immunotherapy, and complementary and alternative therapies. Symptom management guidelines offer in-depth coverage of pathophysiology, signs and symptoms, assessment tools, lab and diagnostic tests, differential diagnoses, interventions, patient education, follow up care, and resources for over 30 common symptoms associated with cancer and cancer treatments. Essential information on many oncologic emergencies and emergent issues prepares readers to respond quickly to structural, metabolic, and hematologic emergencies. Section on palliative care and end-of-life issues offers helpful guidelines for dealing with topics related to survivorship, palliative care, the final hours of the cancer patient, and loss, grief, and bereavement. NEW! Updated evidence-based content reflects the latest national and international quality standards regarding various cancer types, major drug and non-drug treatments, treatment protocols, and approaches to symptom management. NEW! Nursing Practice Considerations section incorporates information on communication, cultural considerations, ethical considerations, safe and quality care, evidence-based practice, patient navigation, and patient education. NEW! 17 new chapters cover topics including myelofibrosis, neuroendocrine cancers, tumor treating fields, oral adherence, clinical trials, epistaxis, hypersensitivity reactions, hypertension, hyperglycemia, nail changes, ocular and visual changes, rashes, survivorship, quality and safety, evidence-based practice, nurse navigation, and patient education. NEW! Expanded content on patient education keeps readers on top of best practices in this critical area. NEW! High-quality electronic patient teaching handouts are evidence-based and have been vetted by practicing nurses. **Official Gazette of the United States Patent and Trademark Office Trademarks Radiation Protection in Medical Radiography - E-Book Elsevier Health Sciences** Gain a full understanding of both basic and complex concepts in radiation protection, biology, and physics. Beautifully designed and easy to follow, Radiation Protection in Medical Radiography, 8th Edition promotes the safe use of ionizing radiation in all imaging modalities, including the effects of radiation on humans at the cellular and systemic levels, regulatory and advisory limits for human exposure to radiation, and the implementation of radiation safety practices for patients and personnel. This market-leading text reflects the latest ARRT and ASRT curriculum guidelines to help you succeed on the ARRT exam. Plus, the new edition includes tables with sensitivity ranges to provide easy reference for each type of dosimeter. Convenient, easy-to-use features include chapter outlines and

objectives, listing and highlighting of key terms, and bulleted summaries, general discussion questions, and review questions to enhance student comprehension and retention. NCRP and ICRP content includes guidelines, regulations, and radiation quantities and units, explaining the effects of low-level ionizing radiation, demonstrating the link between radiation and cancer and other diseases, and providing the regulatory perspective needed for practice. Clear and concise writing style covers complex concepts in radiation protection, biology, and physics in a building-block approach from basic to more complex concepts. Timely coverage of radiation protection regulations addresses radiation awareness and education efforts across the globe. NEW! Chapter Radiation Safety in Computed Tomography and Mammography compiles content on tomography and mammography into one chapter. UPDATED! Full-color equipment images and illustrations reinforce important information. UPDATED! Content reflects the latest ARRT and ASRT curriculum guidelines. Review questions are included at the end of chapters to assess your comprehension, with answers on the Evolve companion website. NEW! Key-word glossary helps you find and understand need-to-know terms. NEW! Additional tables with sensitivity ranges makes each type of dosimeters easy to reference

Discovering Statistics Using SPSS SAGE Publications 'In this brilliant new edition Andy Field has introduced important new introductory material on statistics that the student will need and was missing at least in the first edition. This book is the best blend that I know of a textbook in statistics and a manual on SPSS. It is a balanced composite of both topics, using SPSS to illustrate important statistical material and, through graphics, to make visible important approaches to data analysis. There are many places in the book where I had to laugh, and that's saying a lot for a book on statistics. His excellent style engages the reader and makes reading about statistics fun' - David C Howell, Professor Emeritus, University of Vermont USA This award-winning text, now fully updated with SPSS Statistics, is the only book on statistics that you will need! Fully revised and restructured, this new edition is even more accessible as it now takes students through from introductory to advanced level concepts, all the while grounding knowledge through the use of SPSS Statistics. Andy Field's humorous and self-deprecating style and the book's host of characters make the journey entertaining as well as educational. While still providing a very comprehensive collection of statistical methods, tests and procedures, and packed with examples and self-assessment tests to reinforce knowledge, the new edition now also offers: - a more gentle introduction to basic-level concepts and methods for beginners - new textbook features to make the book more user-friendly for those learning about more advanced concepts, encouraging 'critical thinking' - a brand new, full-colour design, making it easy for students to navigate between topics, and to understand how to use the latest version of SPSS Statistics - both 'real world' (the bizarre and the wonderful) and invented examples illustrate the concepts and make the techniques come alive for students - an additional chapter on multilevel modelling for advanced-level students - reinforced binding to make the book easier to handle at a computer workstation. The book also includes access to a brand new and improved companion Website, bursting with features including: - animated 'SPSS walk-through' videos clearly demonstrating how to use the latest SPSS Statistics modules - self-marking multiple choice questions - data sets for psychology, business and management and health sciences - a flash-card glossary for testing knowledge of key concepts - access to support material from SAGE study skills books. Statistics lecturers are also provided with a whole range of resources and teaching aids, including: - the test bank - over 300 multiple-choice questions ready to upload to WebCT, Blackboard or other virtual learning environments - charts and diagrams in electronic format for inclusion in lecture slides - PowerPoint slides written by the author to accompany chapters of the text.

Esley Hunt: Early Portrait Photographer of North Carolina, Virginia and Tennessee **Christopher Hunt Robertson** This biographical sketch introduces a significant Southern portrait photographer of the 19th century. In 1817, Esley Hunt was born in the rural mountainous area that would later become Johnson City, TN. (His childhood home, the Henson Hunt House, is on the Carter County Historical Register.) In the late 1840's, Esley moved his family 220 miles to Chapel Hill, NC, where he would eventually become that town's first studio photographer. He owned a house in Chapel Hill and 100 acres in Mebanesville (now Mebane). In 1859, Esley purchased a second portrait studio in Raleigh and would acquire a 60 acre estate just west of the capitol city. In early advertisements, Esley stated his commitment to create art - notable in an era when many considered photography to be more of a technician's itinerant occupation than an artist's profession. By the late 1850's, he and his artistic partner, painter Joshua P. Andrews of New York, were receiving numerous photography awards at the North Carolina State Fairs. After North Carolina joined the Confederacy in 1861, Raleigh became a gateway for soldiers and Esley continued to operate its primary portrait studio. Civil War portraits by Mr. Hunt and Mr. Andrews remain highly valued by collectors, and are invaluable to historians, genealogists, descendants and those interested in portraiture. The State Archives of North Carolina have referred to Esley Hunt as "one of the Civil War's most prolific and talented photographers in North Carolina," and some photography historians consider him to have been among the best in the South. (Originally published in 2018, this biographical sketch was the first to describe Esley Hunt's personal life and family.)

Community/Public Health Nursing - E-Book Promoting the Health of Populations Elsevier Health Sciences Give your students a complete guide to community health nursing! Community/Public Health Nursing, 7th Edition provides a unique, upstream preventive focus and a strong social justice approach, all in a concise, easy-to-read text. Covering the nurses' role in promoting community health, it shows how students can take an active role in social action and health policy - emphasizing society's responsibility to protect all human life and ensuring that diverse and vulnerable populations have their basic health needs met. Clinical examples and photo novellas show how nursing concepts apply to the real world. Written by community health nursing experts Mary A. Nies and Melanie McEwen, this book describes the issues and responsibilities of today's community and public health nurse. UNIQUE! A 'social justice' approach promotes health for all people, including vulnerable populations. UNIQUE! 'Upstream' preventive focus addresses factors that are the precursors to poor health in the community, addressing potential health problems before they occur. Case Studies present the theory, concepts, and application of the nursing process in practical and manageable examples. UNIQUE! Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles. Application of the nursing process at the individual, family, and aggregate levels highlights the community perspective in all health situations Clinical examples offer snippets of real-life client situations. Theoretical frameworks common to nursing and public health aid in the application of familiar and new theory bases to problems and challenges in the community. Healthy People 2020 boxes include the most current national health care objectives. Research Highlights boxes show the application of research studies to the practice of community nursing. Ethical Insights boxes highlight ethical issues and concerns that the community/public health

nurse may encounter. Objectives, key terms, and chapter outlines at the beginning of every chapter introduce important concepts and terminology. **NEW AND UNIQUE!** A Veterans Health chapter presents situations and considerations unique to the care of veterans. **NEW!** Genetics in Public Health boxes reflect increasing scientific evidence supporting the health benefits of using genetic tests and family health history to guide public health interventions. **NEW!** Active Learning boxes test your knowledge of the content you've just read, helping provide clinical application and knowledge retention. **Holistic Nursing Jones & Bartlett Publishers** This market-leading resource in holistic nursing is published in cooperation with the American Holistic Nurses Association (AHNA). Each chapter is revised and updated by contributors from the best-selling Fifth Edition, as well as new thought leaders from the field of holistic nursing. Chapters begin with Nurse Healer Objectives that are divided into theoretical, clinical, and personal subject areas, and then conclude with Directions for Future Research and Nurse Healer Reflections to encourage readers to delve deeper into the material and reflect on what they have learned in each chapter. This text is organized by the five core values contained within the Standards of Holistic Nursing Practice: Core Value 1: Holistic Philosophy, Theories, and Ethics Core Value 2: Holistic Caring Process Core Value 3: Holistic Communication, Therapeutic Environment, and Cultural Diversity Core Value 4: Holistic Education and Research Core Value 5: Holistic Nurse Self-Care

Media/Society Technology, Industries, Content, and Users SAGE Publications Media/Society: Technology, Industries, Content, and Users helps students understand the relationship between media and society and gets them to think critically about recent media developments. Authors David Croteau, William Hoynes, and new co-author Clayton Childress take an interdisciplinary approach with a sociological focus to answer questions like How do people use the media in their everyday lives? and How has the evolution of technology affected the media and how we use them? The Seventh Edition incorporates the latest scholarship and data that address enduring media topics, as well as new concerns raised by the role of digital platforms, the impact of misinformation online, and the role of media during the COVID-19 pandemic. **Handbook of Research-Based Practice in Early Education Guilford Press** Written expressly for early childhood educators, and those who support their professional development, this handbook distills essential knowledge about how to help all PreK-3 learners succeed. Leading experts describe doable ways to create effective learning environments and implement instructional practices with a strong evidence base. Engaging vignettes illustrate discussions of such topics as differentiated instruction, response to intervention, the Common Core standards, social and emotional learning, assessment, and teaching across the curriculum. Each chapter links cutting-edge research to practical applications, examples, and professional development activities. **Textile World Blue Book**
