Historical Continuity in the Emergence of Modern

Hebrew

Lexington Books **Historical Continuity in the Emergence of Modern Hebrew** offers a new perspective on the emergence processes of Modern Hebrew and its relationship to earlier forms of Hebrew. Based on a textual examination of select case studies of language use throughout the modernization of Hebrew, this book shows that due to the unconventional sociolinguistic circumstances in the budding speech community, linguistic processes did not necessarily evolve in a linear manner, blurring the distinction between true and apparent historical continuity. The emergent language's standardization involved the restructuring of linguistic habits that had initially taken root among the first speakers, often leading to a retreat from early contact-induced or non-classical phenomena. Yael Reshef demonstrates that as a result, superficial similarity to earlier forms of Hebrew did not necessarily stem from continuity, and deviation from canonical Hebrew features does not necessarily stem from change.

Prepositions in their Syntactic, Semantic and Pragmatic Context

John Benjamins Publishing **The growing interest in prepositions is reflected by this impressive collection of papers from leading scholars of various fields. The selected contributions of Prepositions in their Syntactic, Semantic and Pragmatic Context focus on the local and temporal semantics of prepositions in relation to their context, too. Following an introduction which puts this new approach into a thematical and historical perspective, the volume presents fifteen studies in the following areas: The semantics of space dynamics (mainly on French prepositions); Language acquisition (aphasia and code-switching); Artificial intelligence (mainly of English prepositions); Specific languages: Hebrew (from a number of perspectives – syntax, semiotics, and sociolinguistic impact on morphology), Maltese, the Melanesian English-based Creole Bislama, and Biblical translations into Judeo-Greek.**

Research in Education

International Encyclopedia of Linguistics Resources in Education Publishers' circular and booksellers' record 1875 Studies in Classical Hebrew

Walter de Gruyter Professor Moshe Bar-Asher, Professor Emeritus at the Hebrew University and long-time president of the Academy of the Hebrew Language, has published more than 200 articles and sixteen books and edited about 90 books and collections. The vast majority of his work has been accessible, however, only to specialists who read modern Hebrew or French. Bar-Asher's groundbreaking articles on the dialects of rabbinic literature are classics. In more recent years he has brought the same breadth and depth of grammatical knowledge, and philological acumen, to the study of older classical Hebrew texts, including literary and epigraphic texts. This volume presents studies of individual words and verses within the Bible, as well as broader thematic discussions of biblical language and its long reception-history, down through medieval scribes and modern lexicographers. Also represented are Bar-Asher's penetrating studies of Qumran texts and languages, which illuminate both the linguistic traditions reflected in these texts and the scribal culture from which they emerged. The third section contains studies of Mishnaic Hebrew. There are both sweeping surveys of the field and its accomplishments and challenges, and studies of specific phonological, morphological, syntactic and lexical features.

Aramaic in Its Historical and Linguistic Setting

***Otto Harrassowitz Verlag* This volume contains contributions by W. Arnold, S.E. Fassberg, M.L. Folmer, W.R. Garr, A. Gianto, H. Gzella, J.F. Healey, O. Jastrow, J. Joosten, O. Kapeliuk, S.A. Kaufman, G. Khan, R. Kutty, A. Lemaire, E. Lipinski, H.L. Murre-van den Berg, C. Morrison, N. Pat-El, W.Th. van Peursen, and A. Tal. They discuss central issues of Aramaic linguistics in the light of the most recent research: editions of primary source material; extensive historical and linguistic overviews on matters of classification and language change; detailed studies of grammatical and lexical**

topics analyzing data from different Aramaic languages, for instance determination and tense-aspect-modality systems. Several papers closely interact with each other. As a whole, they bridge the gap between ancient and modern forms of Aramaic by providing a more comprehensive approach to this language group and its attested history of three millennia. Thanks to a sharp thematic focus, wide-ranging discussions of a great amount of material, and up-to-date theoretical frameworks, these proceedings can also act as a modern handbook of Aramaic in all its complexity. All articles are thematically arranged, fully indexed and cross-referenced.

Modern Hebrew for Intermediate Students

A Multimedia Program

University of Texas Press **Modern Hebrew for Intermediate Students**—which is now revised and updated—and **Modern Hebrew for Beginners** are the core of a multimedia program for the college-level Hebrew classroom developed at the University of Texas at Austin in the early 2000s. Within an intensive framework of instruction that assumes six weekly hours in the classroom, the program provides for two semesters of instruction, at the end of which most successful students will reach the intermediate-mid or intermediate-high levels of proficiency in speaking and reading, and some will reach advanced-low proficiency, as defined by the American Council on the Teaching of Foreign Languages (ACTFL). In addition to a variety of written exercises, the workbook includes vocabulary lists, reading selections, discussions of cultural topics, illustrations of grammar points, notes on registers, suggestions for class and individual activities, and glossaries. The workbook is complemented by a website (<http://www.laits.utexas.edu/hebrew>) that provides short video segments originally scripted and filmed in Israel and the United States, vocabulary flashcards with sound, interactive exercises on topics included in the workbook, sound files parallel to the reading selections in the workbook, and additional materials that enhance the learning experience. The stability of the workbook, combined with the dynamic nature of the website and the internet searches the students are directed to conduct, allows language instructors to reshape the curriculum and adapt it to the needs of their students and the goals of their programs.
