The Maker Versus the Takers

What Jesus Really Said About Social Justice and Economics

Fidelis Books *Theologians virtually ignore the economic commentary in the Bible. In the few cases where it gets any attention, economic commentary in the Gospels and other New Testament writings tend to lapse into simplistic class warfare nostrums. Liberation theologians import Marxism wholesale (but they try to sell it retail) into theology. Academic historians of 1st Century Palestine/Judea have been pushing an account of a poor peasant Jesus leading a poor peasant's revolt based on the idea of mass displaced workers in Lower Galilee. The problem is the actual archeological findings paint a picture of an industrious and entrepreneurial economy during Jesus's time there. Reading the Gospels in light of archeology and history, which are now available to us, gives us a very different picture than the one you've been told regarding what Jesus taught about work and money.*

Revival: Economics and Ethics (1923)

A Treatise on Wealth and Life

Routledge *The argument of this book is addressed to those who desire to order their daily lives, in the home, in the shop, in the factory, or on the farm, in conformity with the highest ethical standards, or in more familiar words, to live according to the will of God; and to them only. They constitute, I hope, a large proportion of mankind but be that as it may, I know that there are at present among them many who are sorely perplexed in mind, and gravely disturbed in conscience, by the apparent contradiction between the precepts of ethics and the laws of economics. It is my earnest hope that in this book they find some help towards the solution of their difficulties*

Anabaptist/Mennonite Faith and Economics

University Press of America *The continuing conflict between the Anabaptist/Mennonite community and the expanding industrial culture of the modern world has not been investigated. This book addresses the issues which fuel that conflict, focusing on the implications of subordinating an economic system to the theological framework of a Christian society. Contributors: Gregory Baum, Lawrence J. Burkholder, Leo Driedger, Kevin Enns-Rempel, Norm Ewert, Jim Halteman, Leland Harder, Al Hecht, Jim Lichti, Jacob A. Leowen, John Peters, Cal Redekop, Walter Regehr, T.D. Regehr, Jean Seguy, Robert Siemens, Arnold Snyder, Willis Sommer, Mary Sprunger, and Laura Weaver. Co-published with the Institute of Anabaptist and Mennonite Studies.*

Shakespeare's Twenty-First Century Economics

The Morality of Love and Money

Oxford University Press *"I love you according to my bond," says Cordelia to her father in King Lear. As the play turns out, Cordelia proves to be an exemplary and loving daughter. A bond is both a legal or financial obligation, and a connection of mutual love. How are these things connected? In As You Like It, Shakespeare describes marriage as a "blessed bond of board and bed": the emotional, religious, and sexual sides of marriage cannot be detached from its status as a legal and economic contract. These examples are the pith of Frederick Turner's fascinating new book. Based on the proven maxim that "money makes the world go round," this engaging study draws from Shakespeare's texts to present a lexicon of common words, as well as a variety of familiar familial and cultural situations, in an economic context. Making constant recourse to well-known material from Shakespeare's plays, Turner demonstrates that the terms of money and value permeate our minds and lives even in our most mundane moments. His book offers a new, humane, evolutionary economics that fully expresses the moral, spiritual, and aesthetic relationships among persons, and between humans and nature. Playful and incisive, Turner's book offers a way to engage the wisdom of Shakespeare in everyday life in a trenchant prose that is accessible to lovers of Shakespeare at all levels.*

The Economics of the Parables

Simon and Schuster *Timeless and moral economic wisdom for life's choices and changes derived from the parables of the New Testament by famed free market advocate and Catholic priest Robert Sirico. Libraries are filled with books on the parables of Christ, and rightly so. In the words of Pope Emeritus Benedict XVI, "While civilizations have come and gone, these stories continue to teach us anew with their freshness and their humanity." Two millennia later, the New Testament parables remain ubiquitous, and yet, few have stopped to glean from one of Christ's most prevalent analogies: money. In The Economics of the Parables, Rev. Robert Sirico pulls back the veil of modernity to reveal the timeless economic wisdom of the parables. Thirteen central stories—including "The Laborers in the Vineyard," "The Rich Fool," "The Five Talents," and "The Faithful Steward"—serve as his guide, revealing practical lessons in caring for the poor, stewarding wealth, distributing inheritances, navigating income disparities, and resolving family tensions. As contemporary as any business manual and sure to outlast them, The Economics of the Parables equips any economically informed reader to uncover the enduring financial truths of the parables in a reasonable, sensible, and life-empowering manner.*

Disenchantment with Market Economics

East Germans and Western Capitalism

Berghahn Books *The life-worlds and personal experiences of workers and employees in three enterprises in East Berlin at the moment of political and economic upheaval stand at the centre of the book. It sets out in 1989 at the moment of the fall of the Berlin Wall witnessing the confrontations with the market economy and examining the reinterpretations of the socialist past as the political and economic changes take place. Disenchantment with Market Economics captures a unique moment in history and unveils myths and promises of liberal market economy from the perspective of those who lived through the break down of the planned economy at their workplaces in East Berlin. While Western managers regarded the expansion of their businesses towards Eastern Europe as a civilising mission, the East German employees reacted with complex strategies of individual adaptation and resistance.*

The Traveling Economist: Using Economics to Think About What Makes Us All So Different and the Same

ABC-CLIO *This fascinating book introduces travelers—of the body or the mind—to a few simple economic concepts that will help them to think differently and more deeply about the differences between the people and the places they visit during their journeys. • Explains economic concepts in the context of international travel that allow travelers to better understand the differences in living standards between people and places, and why social behaviors or legal standards differ so dramatically between countries • Explores the role—and limits—of culture in explaining the differences between people around the world and the interaction between economics and nature • Addresses the reasons for why technology does, and does not, spread to different areas of the world; why haggling is so important in poorer countries, and what this tells us about the benefits and cost of trade; and why tourism is a public good and the benefits and challenges this reality creates for societies • Offers intriguing information and eye-opening perspectives for general readers with an interest in economics and travel, students of economics, as well as those who enjoy travel writing*

Subversive Jesus

An Adventure in Justice, Mercy, and Faithfulness in a Broken World

Zondervan *When Jesus left the most exclusive gated community in the universe to come live with the people he loved and gave his life for, he turned everything we know and believe about life on its head. Jesus said that he came to bring good news to the poor, but most Western Christians remain disconnected and isolated from the poor and their contexts of injustice. Even our churches echo society's pressure to isolate ourselves from the margins (e.g. by moving to a better suburb) and instead teach us how to be "nice people" who worship a "nice Jesus" and don't disrupt the status quo. Convinced that Jesus places love for the poor and the pursuit of justice central, Craig Greenfield has sought to follow in Christ's footsteps by living among people at the edges of society for the last fourteen years. His*

quest to follow this Subversive Jesus has taken Craig and his young family from the slums of Asia to inner city Canada and back again. This is the story of how Jesus led them to the margins: initiating the Pirates of Justice flash mobs, sharing their home with detoxing crackheads, welcoming homeless panhandlers and prostitutes to the dinner table, and ultimately sparking a movement to reach the world's most vulnerable children. This book is a strong and potentially controversial critique of the status quo too often found in our churches, but it offers an inspirational and hopeful vision of another way. While readers may not relocate to a slum, they will certainly come to view their lives and ministry through a fresh lens—reconsidering how they are uniquely called by Jesus to subversively love the poor and break down systems of injustice in their sphere of influence.

Support-bargaining, Economics, and Society

A Social Species

Routledge *Support-Bargaining, Economics and Society* links support-bargaining to Darwin's theory of natural selection and traces the implications of support-bargaining and money-bargaining across society. It provides a wholly different account of the functioning of human societies from anything that has gone before. Social scientists, ever since there have been such people, have missed the crucial human characteristic - the propensity to seek support - that has given rise to group formation and the myriad activities that are feasible in groups.

Circle of Life

Book Iii of the Joad Cycle

iUniverse *Circle of Life*, the third novel of the Joad Cycle, continues the story of Gil Rose, a reticent, immature teenager foreordained to change mid-twenty-first century America, which is governed by free-market capitalists the corporate elite, who impose dehumanizing laws that replace morality with profit margins. When government troops destroy Angel Falls, Maine, Gils girlfriend, Stacey Grant, narrowly avoids capture. She flees to Canada with former president Mark Rose, but their luck runs out and they are taken prisoner. Stacey manages to escape, though, and finds her way as a fugitive to sanctuary with terrorist Glen Omar Smith who is desperate to find Gil before the government does. Using Virtuoso, he brainwashes Stacey into betraying Gil. After Profit, Gil has split with Bree. He seeks anonymity in the industrial town of Hamilton, the former site of Detroit. There, he learns what life is like in a world where money is paramount. He continually runs afoul of city laws designed to minimize human interrelationships and maximize profit. As HomeSec closes in, Gil meets franchise singer Dyllon Thomas, who helps him and Queenie, a terrorist who sets him free. As Gil escapes, he is double-crossed by the person he loves most. Biggs on Finance, Economics, and the Stock Market

Barton's Market Chronicles from the Morgan Stanley Years

John Wiley & Sons *Released to the public for the first time, writings by the incomparable Barton Biggs Long considered one of the best brains on Wall Street, Barton Biggs acquired the stature of a legend within his lifetime. Among his many coups, he accurately called the rise and fall of the dot-com market, and was an energetic promoter of emerging markets, including China, well before American businesses began flocking there—and he made vast fortunes for his clients, in the process. But, as this fascinating book confirms, it wasn't Biggs's genius as a market analyst and hedge fund manager alone that made him special. The product of a keen and broad-ranging intellect in full command of his subjects—and the English language—the letters compiled in this volume leave no doubt that Barton Biggs was one of the most interesting observers of Wall Street, the financial world, and the human comedy, ever to set pen to paper. Released from Morgan Stanley's archives and made public for the first time, the letters compiled in this volume add new luster to Biggs's reputation as a first-class finance author Address the most essential aspects of high-frequency trading, from formulation of ideas to performance evaluation Shares Biggs's fascinating insights and uncannily accurate predictions about an array of economic and financial topics, liberally peppered with historical references and wry humor Organized thematically, the letters showcase Barton Biggs's observations on finance, economics and the stock market, from 1980 to 2003*

Supernatural Provision

Where God Guides, He Provides

Destiny Image Publishers Discover God's Law of Blessing What if you didn't have to worry about making a living? What if God has already provided all you need to live comfortably? It's true! Supernatural Provision presents a supernatural and higher way of entering into the New Covenant Law of Blessing. But to him who does not work but believes on Him who justifies the ungodly, his faith is accounted for righteousness (Romans 4:5). Through God's Law of Blessing and supernatural provision, you can work for Kingdom purposes—regardless of money—and see God provide your financial needs. Many "Kingdom finance" books simply chat about making money with a Christian perspective, but this cutting-edge, truly exceptional book challenges believers with the biblical revelation of freedom from laboring to make a living. Jesus exhorted us to not worry about tomorrow, to neither toil nor sweat, or even sow and reap our provision, because our heavenly Father longs to be our personal Jehovah Jireh—if we are childlike enough to take Him at His word. Supernatural Provision is full of Holy Spirit-inspired insights, God-breathed Scripture, and relevant personal testimonies revealing the unmerited favor of Heaven's provision that Jesus offers. You will be supernaturally stirred by these revelations—your life will never be the same.

Lionel Robbins

Cambridge University Press *By the time of his death the English economist Lionel Robbins (1898–1984) was celebrated as a 'renaissance man'. He made major contributions to his own academic discipline and applied his skills as an economist not only to practical problems of economic policy – with conspicuous success when he served as head of the economists advising the wartime coalition government of Winston Churchill in 1940–45 – and of higher education – the 'Robbins Report' of 1963 – but also to the administration of the visual and performing arts that he loved deeply. He was devoted to the London School of Economics, from his time as an undergraduate following active service as an artillery officer on the Western Front in 1917–18, through his years as Professor of Economics (1929–62), and his stint as chairman of the governors during the 'troubles' of the late 1960s. This comprehensive biography, based on his personal and professional correspondence and other papers, covers all these many and varied activities.*

The Grinnell Review

Money and Possessions

Interpretation: Resources for the Use of Scripture in the Church

Westminster John Knox Press *The Bible is rich with complex and diverse material on the topic of money and possessions. Indeed, a close look at many scriptural texts reveals that economics is a core preoccupation of the biblical tradition. In this new work, highly regarded preacher and scholar Walter Brueggemann explores the recurring theme of money and possessions in the Old and New Testaments. He proposes six theses concerning money and possessions in the Bible, observing their contradictory nature to the conventional wisdom and practice of both the ancient world and today's society. Brueggemann advises us to reassess the ways in which our society engages or does not engage questions of money and possessions as carriers of social possibility. He invites the church to move toward an alternative neighborly economy that is more consistent with the gospel we confess.*

The Walk Youth Study Book

Five Essential Practices of the Christian Life

Abingdon Press *How do we walk with Christ—daily follow him, grow in him, and faithfully serve him? In the Gospels, Jesus modeled for us the Christian spiritual life. The apostles taught it in their writings. And the Church has, through the last 2,000 years, sought to pursue this Christian spiritual life. In *The Walk*, Adam Hamilton focuses on five essential spiritual practices that are rooted in Jesus' own walk with God and taught throughout the New Testament. Each of these practices is intended as part of our daily walk with Christ while also being an essential part of growing together in the church. In each chapter, Hamilton explores one of these practices, its New Testament foundation, and what it looks like to pursue this practice daily in our personal life and together in the life of the church. Deepen your walk with Christ as we explore the five essential practices of worship, study, serving, giving, and bearing witness to our faith. This Youth Study Book takes the ideas presented in Adam Hamilton's book and interprets them for young people grades 6-12.*
