Dictionary of Health Information Technology and Security

Springer Publishing Company Over 10,000 Detailed Entries! "There is a myth that all stakeholders in the healthcare space understand the meaning of basic information technology jargon. In truth, the vernacular of contemporary medical information systems is unique, and often misused or misunderstood. Moreover, an emerging national Health Information Technology (HIT) architecture; in the guise of terms, definitions, acronyms, abbreviations and standards; often puts the non-expert medical, nursing, public policy administrator or paraprofessional in a position of maximum uncertainty and minimum productivity. The Dictionary of Health Information Technology and Security will therefore help define, clarify and explain...You will refer to it daily." -- Richard J. Radiation Therapy for Skin Cancer

Springer Science & Business Media Photon Radiation Therapy for Skin Malignancies is a vital resource for dermatologists interested in radiation therapy, including the physics and biology behind treatment of skin cancers, as well as useful and pragmatic formulas and algorithms for evaluating and treating them. Dermatology has always been a field that overlaps multiple medical specialties and this book is no exception, with its focus on both dermatologists and radiation oncologists. It is estimated that between 2010 and 2020, the demand for radiation therapy will exceed the number of radiation oncologists practicing in the U.S. tenfold, which could profoundly affect the ability to provide patients with sufficient access to treatment. Photon Radiation Therapy for Skin Malignancies enhances the knowledge of dermatologists and radiation oncologists and presents them with the most up-to-date information regarding detection, delineation and depth determination of skin cancers, and appropriate biopsy techniques. In addition, the book also addresses radiation therapy of the skin and the skin's reactions to radiation therapy.

Constitutional Facial Acupuncture - E-Book

Elsevier Health Sciences We are re-defining the face of ageing on a daily basis, with the Baby Boom generation in the vanguard, followed by younger generations who are similarly intrigued by non-invasive natural solutions that are integrative rather than purely cosmetic. Constitutional Facial Acupuncture has begun to make an impact on popular culture and outmoded perceptions about the nature of authentic beauty and the ageing process. Acupuncturists who practice in this field are increasingly expected to have specialized training and knowledge, outside the customary parameters of the more traditional approaches. This book introduces a complete Constitutional Facial Acupuncture protocol that is comprehensive, effective and clearly organized, with illustrative color photographs and facial needling diagrams. Its strong constitutional components are unique, adhere to the principles of Chinese medicine, and are rooted in the three levels of treatment - Jing, Ying and Wei. A new and detailed Constitutional Facial Acupuncture protocol highlights acu-muscle points, Shen imbalances, lines and wrinkles, needling technique, relevant points and their locations. A comprehensive constitutional treatment approach A customized, modular topical herbal protocol that is enriched with the use of essential oils and natural cleansers, creams, etc. Practical step-by-step instructions on how to integrate the needling protocols with the topical herbs, jade rollers, gem eye discs, etc. A complete Constitutional Facial Acupuncture needling protocol for 12 problematic areas of the facial landscape, i.e., droopy eyelids, sagging neck, crow's feet, sunken cheeks, etc. Contraindications, benefits, and personal advice drawn from the author's 30+ years of experience An essential text for students or practitioners of facial acupuncture, and also for those readers who are interested in the field of "healthy aging"
