THE CURIOUS INCIDENT OF THE DOG IN THE NIGHT-TIME

Anchor Canada **A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are**

chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

CARMAKERS

Carmakers by worldwide known expert in car engines Professor Cornel Stan is a fascinating novel about the conflicts and tension within the car manufacturing industry. Carmakers--men and women endowed with excellent imagination, creative power, perseverance, discipline, but also with passions, dreams and fears. They invent and develop the cars of the future, be they equipped with electric drive, with hydrogen fuel cells, with mixed engines or with turbojets as found in planes. Two giants on the car market come forward with two of the most risky car concepts. The process through which these concepts emerge takes us through factories, institutes and airports, over mountains, islands and oceans--from Berlin, Paris and Detroit to San Francisco and Sydney. This road is impregnated with a maximum of tension, dynamism, intrigue and love. "Books about cars there are many; but exciting literature? In the novel Carmakers, Professor Cornel Stan gives insider insights into the horsepower-led world of the vehicle industry." (Source: Haiko Prengel, www.welt.de) "I would like to pour gas--pardon, alcohol and hydrogen--on the fire and fuel the current debate on the mobility of the future." MIDDLESEX

Vintage Canada Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides' witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there's a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie's grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator's life in motion. Middlesex is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It's a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.

THE DODGE BROTHERS

THE MEN, THE MOTOR CARS, AND THE LEGACY

Wayne State University Press At the start of the Ford Motor Company in 1903, the Dodge Brothers supplied nearly every car part needed by the up-and-coming auto giant. After fifteen years of operating a successful automotive supplier company, much to Ford's advantage, John and Horace Dodge again changed the face of the automotive market in 1914 by introducing their own car. The Dodge Brothers automobile carried on their names even after their untimely deaths in 1920, with the company then remaining in the hands of their widows until its sale in 1925 to New York bankers and subsequent purchase in 1928 by Walter Chrysler. The Dodge nameplate has endured, but despite their achievements and their critical role in the early success of Henry Ford, John and Horace Dodge are usually overlooked in histories of the early automotive industry. Charles K. Hyde's book *The Dodge Brothers: The Men, the Motor Cars, and the Legacy* is the first scholarly study of the Dodge brothers and their company, chronicling their lives—from their childhood in Niles, Michigan, to their long years of learning the machinist's trade in Battle Creek, Port Huron, Detroit, and Windsor, Ontario—and examining their influence on automotive manufacturing and marketing trends in the early part of the twentieth century. Hyde details the brothers' civic contributions to Detroit, their hiring of minorities and women, and their often anonymous charitable contributions to local organizations. Hyde puts the Dodge brothers' lives and accomplishments in perspective by indicating their long-term influence, which has continued long after their deaths. The most complete and accurate resource on John and Horace Dodge available, *The Dodge Brothers* uses sources that have never before been examined. Its scholarly approach and personal tone make this book appealing for automotive historians as well as car enthusiasts and those interested in Detroit's early development.

THE CARS OF THE FAST AND THE FURIOUS

Motorbooks A fascinating look inside the preparation of the cars and the making of the movie scenes featured in the 2001 box office hit *The Fast and the Furious* and in the 2003 summer release sequel *The Fast and the Furious 2*. Officially authorized by Universal Studios, this book draws on the experience of Eddie Paul in acquiring, constructing and modifying the cars for both movies. This book, with 300 color illustrations, reveals how the automotive stunts were choreographed, performed and filmed. This is a true insider's guide to the exciting world of fast cars, thrilling stunts, and motion-picture production.
