Leadership Lessons from a UPS Driver Delivering a Culture of We, Not Me Berrett-Koehler Publishers *Leadership Lessons from a UPS Driver Delivering a Culture of We, Not Me* UPS is a household name and one of the most highly regarded American corporations by customers and investors alike. Who hasn't been delighted by a right-on-time delivery, one of the 18 million UPS makes every day? Founded over a hundred years ago, UPS has moved steadily up the Fortune 500 as so many other corporations have dropped off. So what's the company's secret? Just ask a driver! Ron Wallace was a UPS driver for six years before he rose through the ranks to become president of UPS International. In other companies that might be extraordinary, but for UPS it's par for the course. UPS has a unique people culture. It's like a family. Package loaders call executives by their first names and vice versa. The company almost always promotes from within. Lifetime employment is common. Most employees own UPS stock. Wallace credits this spirit of “we, not me” with the company's success—and his own. As he puts it, working at UPS gave him a PhD in teamwork. Instead of writing a typical business memoir that celebrates the leader as celebrity, Wallace shares vivid stories that focus on the people he worked with, the challenges they overcame, and the simple principles and practices that make up the UPS way. He exhorts his fellow leaders to grow their people, not just their business plans. The leadership style described in this book is simple and direct—and it works. The straightforward and easy-to-understand lessons provide a blueprint for an individual or company to build on past successes and adapt to future challenges. This is a must-read for anyone aspiring to become a great leader.

Reflections in a Curved Glass Dog Ear Publishing Palmer Bullock has made a good life for himself. All of his many accomplishments have been based on his very high and rigid principles and his rules of ethical conduct. Some would think such a life grueling and unrewarding, but for Palmer, it is the easy way; rewarding in its certainty and pleasing to his sense of right and wrong. He has a good law practice, a generous gentleman's farm, a pretty wife, a son, and a daughter. Then, one remote act sets in motion a chain of events which, like cascading dominos falling one upon the next, upsets his entire world: his confidence in his rules of life, his confidence in his self-control and self-determination, and his belief in himself as a good man. The story of Palmer's fall includes passion overriding reason, questionable business dealings, a haunting injustice from the distant past, and the friendship of a lifetime. Jack Dawson, the author, was born in October of 1940, in Bainbridge, Georgia—a still-small town, in the southeastern part of the state, split evenly by the sleepy and serene Flint River—and grew up in Valdosta, Georgia, where he graduated high school in 1958. Being young and without sufficient direction or initiative to pursue an education, he joined the U. S. Navy and enjoyed nearly four years of great adventure at sea. This was in the day when all healthy males did their time in service to their country; sooner or later; by joining voluntarily, through the path to gentlemanhood offered by the ROTC in college, or by draft. After finishing his military obligation and being released from active duty, and having gained an immeasurably greater sense of maturity and personal responsibility, he decided to pursue a college education. He studied for a year at a local college, making the dean's list in order to offset his abysmal high school academic record, before he was then accepted at Georgia Tech, in Atlanta, where he majored in aerospace engineering. During his junior year, he, just by chance, took a ride with a friend in a two seat air plane; and his life would never be the same. He quit school after finishing his junior year and, after applying was hired by a major airline to work in the

engineering department, all the while learning to fly and building hours and, at night, earning a degree in Mathematics. Eventually, he was transferred to Flight Operations where he flew the big jets until retirement in 1999. He then moved to remote region of the West Virginia mountains, where he began to write in earnest. An urge to write had always been in the back of his head, kept there by the many obligations, necessary and otherwise, of day to day living. Soon, through the auspices of a new found friend, a sporting magazine writer, he was writing a weekly column for a local newspaper, and, aside from that, began writing a novel and converting some of his columns into short stories. The writing of the short stories, he found, provided an interlude in his writing of the novel which allowed the characters therein to decide what they were going to do. Machinery Killing Time An 18-Year Odyssey from Death Row to Freedom Skyhorse Publishing Inc. In 1984, John Thompson was convicted and sentenced to death for the murder of a prominent white man in New Orleans, Louisiana. He was sent to Angola Prison and confined to his cell for twenty-three hours a day. However, Thompson adamantly proclaimed his innocence and just needed lawyers who believed that his trial had been mishandled and would step up to the plate against the powerful DA's office. But who would fight for Thompson's innocence when he didn't have an alibi for the night of the murder and there were two key witnesses to confirm his guilt? Killing Time is about the eighteen-year quest for Thompson's freedom from a wrongful murder conviction. After Philadelphia lawyers Michael Banks and Gordon Cooney take on his case, they struggle to find areas of misconduct in his previous trials while grappling with their questions about Thompson's innocence. John Hollway and Ronald M. Gauthier have interviewed Thompson and the lawyers, and paint a realistic and compelling portrait of life on death row and the corruption in the Louisiana police and DA's office. When it is found that evidence was mishandled in a previous trial that led to his death sentence in the murder case, Thompson is finally on his road to freedom—a journey that continues with his suit against Harry Connick, Sr. and the New Orleans DA's office to this day. Blowing My Cover My Life as a CIA Spy Penguin Call me naive, but when I was a girl-watching James Bond and devouring Harriet the Spy-all I wanted was to grow up to be a spy. Unlike most kids, I didn't lose my secret-agent aspirations. So as a bright-eyed, idealistic college grad, I sent my resume to the CIA. Getting in was a story in itself. I peed in more cups than you could imagine, and was nearly condemned as a sexual deviant by the staff psychologist. My roommates were getting freaked out by government investigators lurking around, asking questions about my past. Finally, the CIA was training me to crash cars into barriers at 60 mph. Jump out of airplanes with cargo attached to my body. Survive interrogation, travel in alias, lose a tail. One thing they didn't teach us was how to date a guy while lying to him about what you do for a living. That I had to figure out for myself. Then I was posted overseas. And that's when the real fun began.
